

Thanks to Mr. Clayton, of the Tea Store, for a package of leaf papers.

Brooks & Co. Walnut street, bet. Third and Fourth, Cincinnati, have a splendid lot of valuable and interesting books, suitable for presents, which they offer at very low prices. See advertisement.

Mr. Joseph Jackson, formerly of Cincinnati, is the Postmaster General of the Sandwich Islands.

Mr. Lucy Stone was compelled to suspend her lecture in Philadelphia, on Thursday evening last, by sickness in her family.

A case, incidentally involving the constitutionality of the Missouri Compromise is now before the Supreme Court of the United States.

Last Thanksgiving Day, the pastor of the First Presbyterian Church in Milwaukee received the handsome present of \$1,000 from one of his parishioners.

Gov. Geary.—A dispatch from Washington states that when Gov. Geary asked of the President the removal of Judge Leonty, he gave notice that he would resign if the request were not acceded to.

American Church in Paris.—It is reported that the Rev. E. N. Kirk of the Mt. Vernon street Church, Boston, has accepted an invitation from the American and Foreign Christian Union to take charge of the New American Chapel in Paris.

The New York Ledger, the great family weekly paper, for which the most popular writers in the country contribute, has now attained the extraordinary circulation of One Hundred and Ninety Thousand copies, and subscriptions are continually pouring in.

A good deal of surprise was created in our city this week by the announcement of the fact that W. T. Phipps, late President of the Covington Mercantile Fire and Marine Insurance Company, had been arrested upon the charges of embezzlement and perjury, under a warrant obtained by Mr. Geo. F. Davis, the present President of that institution.

After a three day's full investigation before Mayor Foley, Mr. Phipps was immediately discharged. So far as we have heard an expression of opinion it is unanimous that the acquittal was just, there being no evidence whatever to sustain the charges. The decision of Mayor Foxy was received with marked demonstrations of satisfaction by the spectators at the trial.

The impression prevails that malice was at the bottom of the whole proceeding; and the fact that some of the principal witnesses against the defendant had their private reasons for hostility, lends very strongly to confirm this impression.

A charge of this sort against any one, however unfounded, is calculated to do great injury; but here, where the facts are all known, the prosecution will be of no damage whatever to the reputation of Mr. Phipps; but upon the contrary, will be of service to him in putting to rest every suspicion which his enemies had excited by their private circulation of slanderous reports.

Buchanan an Irishman.—An Irish paper claims Mr. Buchanan as an native of the Green Isle, and enters into some highly novel and interesting particulars in regard to his family and pedigree. The Philadelphia Bulletin thinks this only the ordinary course of the native of Ireland, and says, that with the exception of Frank in Elmore, (about whom there seems to be no rivalry,) there has been no great man of late times, whom some enthusiastic Hibernian has not claimed as a countryman.

The Prohibition Law.—Massachusetts papers state that the Prohibition Law now proves utterly inefficient there. They assert that never at any restricted time has there been so free and unrestricted sale of liquor in Boston as at present. Drinking saloons have multiplied until they are to be found at the corner of almost every street. A movement is on foot to try the regulating principle again, but that prohibition seems to be a failure.

New York Central Rail Road.—We notice by the New York papers that the earnings of the New York Central Railroad, for the month of October, reach the enormous aggregation of \$249,000. This is an increase of some 200,000 over the corresponding period last year, and is believed to be unprecedented in the history of the railroad. Indeed, the New York Central now earns more money than any other road in the world of the same number of miles of trunk line.

Gen. Scotts Headquarters.—It is announced that the headquarters of Gen. Scott will be again established at Washington, soon after the inauguration, and perhaps at the special invitation of Mr. Buchanan.

Fisher Butler, Esq., a heavy capitalist of Philadelphia, most known to the world as the husband of Fanny Butler, has suspended payment on Thursday. He has been a large dealer in stocks for some time past.

Methodist College. The reader will find on the first page of this paper the proceedings of the committee appointed by the Kentucky Conference of the M. E. Church, South, to consider the practicability of establishing a College within the bounds of the Conference. It will be seen that the committee has determined to establish a College "at such point as shall seem most eligible," and that the amount of bonus offered will have great weight in fixing the location.

In casting about for an eligible location for the proposed College, the committee cannot overlook the manifold advantages of Covington; and we take it for granted that if Covington shall be pointed by it will be because some other point has offered a more liberal bonus.

We are not prepared to say what steps our friends of the M-Methodist connection in Covington intend taking in reference to this matter. We are persuaded, however, they will "devise liberal things," and if they do so, generous aid will be given by persons outside of that church.

The Importance and Advantage of Life Insurance. Under this head we refer to the fact that some few months since we noticed in the Journal the death of a worthy citizen, Mr. O. G. Bagen, under very mysterious circumstances. As the line of his insurance there were three policies of insurance on his life. One of these was in the Manhattan Life Insurance Co. and one in the Charter Oak Life Insurance of Hartford; the third was a policy on the life of deceased and his wife. On Saturday last, the 13th inst., the agent of the Charter Oak Life Insurance Co. in this city, the Rev. M. Magill, paid over to J. J. Dudley, Esq., administrator of the estate of the deceased, nineteen hundred and sixty-five dollars, the amount for which that Company was liable. Such promptness in paying losses deserves to be noticed so that our citizens may know where to insure their lives with the certainty that after their decease those interested in such insurance may not be disappointed. We have not learned that the Manhattan has yet paid or even consented to pay under their policy.

Parties desiring Life Insurance can have forms of application and all necessary information on the subject, by calling on Dr. T. N. Wise, Medical Examiner of the Company, at his store on Madison street, near the residence of the Rev. M. Magill (Third street) between Madison and Scott streets. We would further say that the Charter Oak has fully complied with our State law and is duly and legally authorized to operate.

Congressional. In the Senate on Wednesday, Mr. Brown gave notice of his intention to introduce a bill providing for the construction of a railroad between the Atlantic and Pacific coasts.

In the House, Mr. Campbell, of Ohio, from the Committee on Ways and Means, reported various Indian, Civil and Army Appropriation Bills, which were referred to the Committee of the Whole on the State of the Union.

A resolution declaring it unwise, inexpedient and impolitic, to repeal the laws prohibiting the African slave trade, was agreed to in the House by 93 majority—only 8 voted in the negative.

Important Cases. The case of Dred Scott, plaintiff, vs. F. A. Sandford, is being argued before the Supreme Court of the United States. The plaintiff, a man of color, brought suit to try his right to freedom. He claims to have been emancipated by his master in which act is declared by the Constitution of that State, to emancipate him. The Circuit Court decided against the plaintiff on the ground that by his return to Missouri his master's right, dormant whilst in Illinois, was revived, and that the Constitution of Illinois was a penal law which the Courts of other States were not bound to enforce. The decision of the Court is looked for with much interest.

Foreign Lottery Tickets. The New York Tribune of Monday says: For several days past a case of unusual interest, particularly to the people in the Western States, has been under investigation by Justice Osborne, at the First United Police Court, Hall of Justice, relative to the issuing and circulation of immense quantities of lottery tickets by parties in this city; purporting to be genuine tickets of Messrs. Gregory & Magill, successful managers at Wilmington, D. J. aware.

It seems that this business has been successfully prosecuted for the past three or four months by persons styling themselves "Manchester & Co." They employed printers in this city to print schemes and drawings, and had them extensively distributed to post masters, merchants and others out West, and occasionally a few of these "Manchester & Co." would find their way into the houses of our citizens.

Senator Pugh, of Ohio, has introduced in the U. S. Senate, a proposition for the survey of the Ohio river and its tributaries.

Book Notice. "THE NATURAL HISTORY OF THE HUMAN TEMPERAMENT" is the title of a neat little volume of 246 pages, octavo, which has just issued from the press of Derby & Co., of Cincinnati, from the pen of our fellow-citizen, Professor W. Brad Powell.

The author adopts the generally received classification on this subject, according, however, to the theories of the so-called Melancholic. He claims to have discovered the true anatomical foundation of the four temperaments which the ancients attributed to the spleen and atriality capules, and the moderns very physiologically to a pathological state of the bilious temperament. As the primitive temperaments are rarely seen in the leading powers of the mind, he has endeavored to indicate, define and illustrate the combinations of the temperaments, and to set forth and define the laws of the temperaments as they pertain to marriage. The laboratory of these laws, he holds to be amongst the most important of the age, and it is surprising that they should have escaped the notice of physiologists for so long a time as they have.

The author has to say a valuable acquisition to the medical student is more than we will presume to doubt; but to us it appears that the greatest value of the work relates to marriage alliances. In these relations the author appears to be more than a little discoverer. It has been and now is a very generally received opinion, even amongst physiologists, that good health in both parties is as good a guaranty as either has for a happy progeny; but the Professor has shown that constitutional incompatibility in the parents is certain death to the children, no matter what the health of the mother. He regards constitutional-incompatibility as the source of all the scrofula and consumption that afflicts our land, and also of seventy-five per cent of our juvenile mortality. He holds that the doctrine of the force of the blood is another of his interesting discoveries; that by which the probable chances of life in any individual may be ascertained in a minute. This discovery he has not been able to publish, as the Manhattan has yet paid or even consented to pay under their policy.

At the annual meeting of stockholders of the Covington and Lexington R. Co., held at the office of the Company, in this city, on Thursday last, 13th inst., the following gentlemen were elected Directors for the current year: JOHN T. LEVY, Covington, JOHN B. CABER, " JOHN C. WITHERS, " JOHN W. FOLEY, " JOHN MACKAY, " A. ROBINS, Palmyra; LUCIUS DENNIS, Harrison; JOHN DENNIS, Lexington; Messrs. FOLEY, MACKAY, DENNIS and CUMMINGS, new members, making the places, respectively, of M. B. BENTON, JOHN CHAMBERS, DICK T. GARNETT, and GARRETT SMITH, all of whom we understand, declined further service.

At a subsequent meeting of the Board the following officers were elected: President—JOHN T. LEVY, Superintendent—C. A. WITHERS, Secretary—G. M. CLARK, Treasurer—S. J. WALKER.

We cannot permit the occasion to pass without expressing the deep regret we feel, that Mr. BENTON should have felt constrained to decline a re-election to the Board. He has been an early, faithful and efficient friend to the enterprise, and has labored with unflinching faith and unwavering effort for its success. For about three years past he has been President of the company, and as such has had difficulties to encounter here which a man of less energy or less capacity would have succumbed. For his services Mr. BENTON is entitled to more than the thanks of the friends of the road.

We think the Company have been fortunate in the selection of a successor to Mr. BENTON. JOHN T. LEVY has also been an early and efficient friend of the road; and by his courtesy, business tact, and strict integrity, will at once command the respect and confidence of all with whom he may be brought in contact by his official duties.

The new members of the Board for Covington, Messrs. FOLEY and MACKAY, have the entire confidence of this community. In regard to the Superintendent we may have something to say hereafter.

The New State Bank.—This institution goes into public operation on the 1st of January. Most of the branches have been organized, and will then be prepared for business.

The State Troubles in Tennessee. Nashville, Wednesday, Dec. 10. The City Councils of this city have passed a law directing the employment of the State Police for the purpose of forbidding negro schools and negro preaching; forbidding all assemblages of negroes after sundown; authorizing the arrest of free negroes from other counties, and the arrest of residents of this city in suspicious circumstances. A great deal of uneasiness is felt in the city as well as in the country.

The excitement in regard to the negroes has in a great measure subsided. The Vigilance Committee has been laboriously engaged the greater part of the week, examining those implicated, and in some cases have inflicted well deserved castigation, upon parties implicated.

The report of the execution of the four negroes at Dover, mentioned in our last, transpired though since that time six have been hung at Dover, and one at Dover Furnace.

The Louisville Journal, of Saturday, says: "The Negro Insurrection."—We were shown a letter yesterday from Lafayette, Christian county, which states that six negroes were to be hung there on the day the letter was written. The Nashville and the Louisville papers, however, do not mention a hanging at that place, though it is reported that four male negroes are to be hung at that place, on account of their connection with the slave revolt in the North, in running off a slave property. It is to be hoped that no violence will be done to any unless their guilt is clearly proven.

Baltimore, Dec. 16. The reported slave insurrection in Harrison county, Texas, has been greatly exaggerated. The committee charged with the investigation of the matter reports that there is no evidence of any concert among the slaves, nor any plot to murder whites. The Alexandria Gazette also says that the rumors of an insurrection there have been greatly exaggerated.

A Negro Slave.—We learn from the Louisville Courier, that on Saturday morning, the Rev. Wm. Anderson, a tall, slender man, dressed in a dark coat, full of documents, was captured on the main boat Telegraph, No. 3, by two officers of that city. They took him the next day to Carrollton, where a reward of five hundred dollars had been offered for his apprehension by the citizens of that place. The Courier adds: "This ebony reverend has been engaged for some time in the employ of his white abolition brethren at Carrollton and in his possession were found several documents implicating Anderson as a close dealer and a shouting clergyman in the Methodist Episcopal Church, North, and chief of the abolitionists in that city. In his possession were found several documents implicating distinguished persons in the cause of negro slavery. When proper we shall make such exposures as may be necessary. It is to be regretted that the papers in his possession were not regularly paid by religious societies at the North to start our slaves and breed insurrectionary feelings among them. It is gratifying to know that he has been arrested in his infamous career."

Mr. E. H. Porter of Memphis, has made a donation of 10,000 acres of land to the Lagrange (Tenn.) College.

DIED. On the 13th inst. in Covington, Ky., Mrs. Mary E. Brown, in the 44th year of her age.

COVINGTON INSURANCE COMPANY. Chartered Capital \$300,000. Authorized Capital \$250,000. Directors: SAMUEL WALKER, President, J. M. DUDLEY, JAMES SOUTHGATE, R. C. W. FENDEL, SAMUEL DAVIS, SAMUEL J. WALKER, R. C. W. FENDEL, J. M. DUDLEY, President. R. C. W. FENDEL, Secretary. Office: No. 4, Upper Block, South street, between Lower Market and Fourth, Covington, Ky.

JANUARY ELECTION—1887. J. F. H. STROT is a candidate for reelection to the office of Wood Measurer, at the ensuing election.

To the Voters of the City. The City Council of this city has the honor to announce that it is a candidate for reelection to the office of City Clerk, those who are favorably disposed to electing to the office for some one else, if they wish.

We are authorized to say that Robert Patton is a candidate for the office of President of the City Council, at the ensuing January 18th, 1887.

The undersigned would respectfully request the voters of Covington that at the January election they will vote for the following candidates: BENJAMIN F. ALLEN, for City Clerk, and J. F. H. STROT, for Wood Measurer, at the ensuing January election.

We are authorized to announce Capt. Robert Patton as a candidate for the office of Commissioner, at the ensuing January election.

**Vegetable Kingdom.**  
Read what Captain Jay writes, in his "Wonderful Adventures," of the Vegetable Kingdom:  
The very vegetable—sometimes pronounced vegetable—is probably derived from the peculiar long pointed form of this description of vegetable, hence originally called wood-cabbages, then vegetables, and now referred to in the present term.

Annual flowering plants resemble whistles, as they come up to blow.  
Flowers are very warlike in their disposition, and are ever armed with darts, darts, and darts.

As the human family, the lower portion of all plants are radices.  
They are migratory in their habits, for wherever they may winter, they are sure to leave in the spring; most of them very prolific and full of loughs.

Like diamonds, the coating of many trees is their most valuable portion. Cork trees and both trees, for instance.  
Grain and seeds are not considered dangerous except when about to shoot. Several trees, like watch-dogs, are valued mostly for their bark.

A little bark will make a pipe, but it takes a large pile of wood for a corch.  
Though there is no vegetable bear, there are a number of pig-iron trees.

Most trees are, respectively, a variety of houses may be found among them.  
It is not a sterile only, but a fertile soil to fruit trees you will find them.

Old fields are full of grass—but not endures any reference to trees.  
Sailors are attached to trees; fishermen to beaches; love sick peasants to pine.

**MASAGE & HERBAGE**—How do you manage your husband, Mrs. Crocker? Such a job as I have of it with Saffron!  
"Easiest thing in the world, my dear," says a "twice married" woman, "I want him to go forward. For instance, you see, to-day I had a lot of cake to make. Well, I, you suppose, because my body is in the party, run that day and don't want to know I have a lot of cake to make. I'm thinking of all sorts of celestial things while."

"Now, Crocker has a way of being good at my heels, and bringing me up down in the middle of the street, and asking me to get out of the way."  
"Well, you see, it drives me frantic, and when I woke up this morning, and saw my fatuous son-in-law, I ran on my hands for the day, unless I managed right; so I told him that I hoped he wouldn't go out to catch his death this morning, that if he wasn't capable of taking care of himself, I should be glad to take care of him for him. It was very expensive days; and I had wanted him to stay at my house and talk with me to stay at the house to go out, and I had his own rubber—well, of course, he was right and up; just as I expected it, and in less than ten minutes was streaking down the street at the rate of fifteen knots an hour."

"You see, there's nothing like understanding human nature; no woman should be married till she is thoroughly posted up in this branch of her education."  
"A skunk once challenged a lion on a snow-combat. The lion declined accepting it."  
"Why," said the skunk, "are you afraid?"  
"Yes," replied the lion, "you would only gain fame by having the honor to fight with a lion, while every one who meets me for a month to come would know I had been in company with a skunk."

**A DISTINCTION**—Many years ago when they sets in New England began to break the good old congregational barrier, and make incursions into the precincts of the regular church, a fervent and eloquent minister, who had at once of infinite eccentricity, good sense and good humor—countered one of these irregular practitioners at the house of one of his flock. "You had a pretty hot discussion on the points of difference, and at length the interloper, finding more at his match at polemics, wound up by saying:  
"Well, doctor, you'd at least allow that it was commanded to preach the Gospel."  
"Did you read yesterday, Michael?"  
"Yes, I did, according to the instructions."  
"An what were the instructions?"  
"Did you hear them? Well, early and often."  
"Severely," the railroads in Wisconsin are blocked with snow to the depth of from six to ten feet.

The Cleveland Leader of Wednesday says that a baby six months old, was taken by his mother on a railroad train at Saybrook recently, and the noise of the engine it that it died.

The wood savers of Albany intend to get up an Annual Bull. It will come out during the first week in January.  
Official advices from Mexico, state that Vidauri has succumbed, and pronounced obituary on the government.

A mixture of honey with the purest charcoal will make the teeth as white as snow.
