The Bavarian Brewing Co.
Covington, Kentucky

The Bavarian Brewing Company, of Covington, Ky., is one of the City's largest and most interesting institutions. It was incorporated in 1889, and re-incorporated in 1914, with Wm. Riedlin, Sr. President, Wm. Riedlin, Jr. Vice-President and J. H. Kruse, Secretary and Treasurer.

This Company does a general brewing and bottling business and also manufactures ice. Its plant is one of the most modern and best equipped in the Country, occupying a space of approximately 6½ acres. It has the largest, most modern and best equipped refrigerating plant in the State of Kentucky.

It is the brewer and bottler of Covington's Favorites, the famous "Bavarian" and "Riedlin's Select" beers. All brands are aged by "Natural Process," which, while being the most expensive, is the better method. The brewing capacity per annum is 216,000 barrels, or 6,756,000 gallons. Capacity of beer storage cellars is 25,000 barrels, or 2,672,200 gallons. Beer is stored in modern glass enameled steel tanks. The bottling capacity is 100 barrels, or 32,400 bottles daily, beer for bottling being pressed direct from Storage Tanks to Automatic Filling Machines. The Refrigerating Plant is a 500 ton capacity. For public use, 200,000 pounds ice is produced daily.
