Simple in her tasts, her atter wan next and becoming, as younan's ever should be. Would that the regular sex know wherein their power, lier. They may dress gaudity, and as they think, he whichingly to catch a beau, as the saying it is but will gilded beauty ever catch a man of, seady. Oh, not It is a mistake thought, Every man; it may be said, lores to low uppa in party, woman 'girthy dirente, but their is a wast difference, between richness and their is a wast difference, between richness and

that make the nichest flowers: But I cours stop. When Mr, Harrington came home, that we plant to itea, he hought with him Mr. Kentor He hat known his father hefore him, for he he does had deared, and therefore he had no he tation in introducing him, at one of the land cancilory of his home—the furth price. July and Mary were already to the partier. The former surveyed in the new development, The former surveyed in the provider of the home had been added, and desired off in the most propreted faultonal attention of great, exertion, had faithed and deviced off in the most propreted faultonal styler the latter attifred imply, and without o nament, in a plain dress of with musin, the first little of implicit he most control in the first flower of the first flower of the first flower of the first flower of the former of the first flower of the first flower of the former of the first flower of the f

'Julia, Mr. Kenton,' said Mr. Harrington, upon antering the parlor with his guestl, 'Miss Lee, Mr. Kenton.'

Mr. Kenton was a fine looking man, apparently be called a "rail gentleman," but he was rather about the suited as "rail gentleman," but he was rather about the middle height, with a form well shaped, and a face marked with intelligence, and embrowned by travel and exposure in foreign climes. He was frank and cordult in the simeners, and be illuded into convention with that gentlemantly was which throws much an engaging chann around its possessor. He was no fore, No hairy exceedence as tupon his upper lip, or wreathed his well termed ching on glass daugled from hiv well, no lings spartled on his forers; and he was simply

They were soon scated around the oplenteous

board,"

It was Mary's custom to dispense as much as
the could with iternate at meals, and to do the
daties of the table heriel. This evening she
did as usual. How beautiful she looked, as she
ast there in her neat white dress, doing the honon of the table. So, at least, thought Mr. Kenton, now, for the first time, attracted toward

... Where bould have been my eyes!! said he lo limited, that I could not see her sweetines before. And yet, he continued, glancing af Julia, I do not wonder; here is a more brilliant star. The magnet that a twe-pic his sight, now, began to look a. little of, iff jover—still; a very little. His eyes would not dwall altogether now upon Julia; but wander sometimes, my, pretty. often to Mary. Again; they would turn to the, former, and then to the latter, as though he was critically contrasting them. Then, too, his conversation was more wouldy divided, and a close observer might easily have discovered, that he

A'you must not be surprised, Mr. Keston, and Mr. Harrington, during the meal, "At the lack of Riccolars by one." You know Linvited you to a family supper, and thus relimit, attended we dines and sup, avery, day. Mary, here, will not have, the serants about her, but chooses to wait upon the stable perself. I added I do, and see why we should keep but one or, two domestics, for abe is in fact, my houseteeper, coak, and all I doubt not but this very bread we are easing, was made by her; and he smalled pipp her as he was made by her; and he smalled pipp her as he

Year paid Miss Julis, thinking to show how refined were her faster, the general contented but when the is doing the servant's work. I do ten tell her how young it jodes, but the will think differently. She is a parfect domestic. "Miss Lee will excuse me if I say she must usely then he this Queen of domestics," and the property them he this Queen of domestics, and the property than he this Queen of domestics, and

Mr. Kenton, Pallantly.

Mary, blushed, and with a good humored smile,
asked, in a mock servant-like tone, if he would

'Certainly,' he replied, 'for I have not enjoyd it so much this long while: whether to attriute it to the agreeablence of the present comany or the seperiority of the tea I do not know.

"Mr. Kenton has not visited Europe for nothing, observed Mary; he has perfectly learned the art of paying compliments. Did I wish to ay him one in return, I should say he wan the

Ahly, said Mr. Harrington, 'you will excushim, Mary, when you recollect that it is custom

With such conversation the meal passed away and when it was unished, they again proceeds

Hers Julia commenced a series of attacks to facta Mr. Kenhon. Soe islance learnedly robbe of their large of literature and the arts; latted fashionally; and one serry 'fashionable; topic showed him (ceridentally, or course, for they were Jring on the label) her drawings; and spoke enthulatatically, of her large of muit. Upon mentioning the last Mr. Kenton: begred her to favor him with a long, accompanied by herself upon the plano. "With a great show of refluctance shacenessned, and sittle down to the instrument, and seconding to be related to the favor him with a from one of the latest opens, and to do her justices have been after the one of the latest opens, and to do her justices have been dear the second of the relation of her hearist. "When he had finished Mr. Kenton requested to be favored with a song by Missi Lek!. Ered ready to bolike, May, took her place at the plans, and said of the second of searchast the following:

An eventual second of the second of the second of the second of searchast the following:

An eventual second of the second of the second of the second of the second of searchast the following:

An eventual second of the second of the second of the plans of the second of the second of the plans of the second of the plans of the second of the second

When she had finished, the tears glistoned in her eyes, for the sad, yet wireful remembrancer? of other daysinal circuit which is the cert of the sad, yet wireful remembrancer? of other daysinal circuit high sad her cert of the property of the fortion were also ministened; for he was a man of uplet sandlifer feeling.—Mr. Harrington's eyes too, were slamed. But Julis—her, we are man of the word of the sooi called up receivedings of her mother; and were ther darknone or is batted in tears? Mr. Kenton expected to yet when the word of the sooi called up receivedings of her mother; and were ther darknone or is batted in tears? Mr. Kenton expected to yet when yet will be the word of the sooi called up. yet when yet diding, gently reader? But that ye would precede in a "William you for the first wind in the war did yet yet will be yet." He was a sooi of the precedent of the precedent of the first word yet will be feet with yet yet all you. She then glisted wary will be feet when yet will be feet with a precedent yet with the rest were yet like in a wind in the same in the developing page of the way had been the developing page of the a value shad little similarly. But you was be without yet with the set with yet yet with the pleasure be seen, and the phulon passed found in a single yell yet were were too, and Mr. Kenton, was in such you yell with your were too, and Mr. Kenton, was in such you yell we will be with yell yet we were the policy in creater. Her from unpecking that he was your in a fair way to extra here.

"". Well, what do, you think of Mr. Kenton 9" and an to Mary on they were retiring for the night, "even you, particular as you are; can find nothing to object to in him. "What a fine lobe," ing man, he it—a pith he dou't dress more.—He is rather plato for a beau of mine, but; no matter he is rich.

"I think he is indeed a fine man," naweror.
Mary, "far different from the perfumed exquisites that you will have dangling about you, Ju
lia, in defiance of all I can say."

"Oh! if you have such a good opinion of him he certainly must be something extraordinary. I will surely have to accept him. Would'nt you, Sir?!

This was rather a home question, though not meant for such, and was accordingly left juna-swereds 'TE could be taken in two senses.—Firstly,—If Mary was in her Quila'by place, whether sie would not accept him. Secondly, "Whether Mary would accept him for herself,—Now the fart she would not have been alloyed her willing to anywer in the affirmative, and the second the would have been much motor ready to answer in the argative, for be it known, Mr.

As to the gentleman in question, the reads will surmbe, that his heart was not unintersicial when we inform his not hear, that in the cours of some two or three weeks from his fart later duction, he became a regular visiter at the hold of Mr. Harrington. Still his infentions to hold indicate week or heart of the hold of the still have been a second to be, and Julia, who more dreamed of her "old feathone Sits," as the called the," being a his for trial her was, in section, at the increase from his rists, that we was, in section, at the increase from his rists, that her certainty would be. "Thus at every first their doubled her excitons to please him, sink share the said was a proved of by her, and at was truly wonder him had been a supported by her, and at was truly wonder him had been a supported of by her, and at was truly wonder him had been a supported of by her, and at was truly wonder him had been a supported of the him when he came and if he the hophy hill ferently romain upon his public the firmly, jet goully, expressed herself is subsettled.

Time rolled on.

Two mouths had passed, when one evenling. Mr. Kenton stopped as usual of Mr. Harring there's door, and, having rang the bell, was death ited. Miss Julia had gone with her father to the Theatre, and he found Mary sented in the patie alone, engaged with her needle. What passes that evening runtle vieted, if Mr. Harrington's part of the wear, good resoon, we done known there being but one witness on, we done known there being but one witness on the transactions, manely, will till Confident Counting regue!—whom they say it is blind, and who, also, it correctionity domes—to teast he never fells the particulars of lovery declarations.

Kext day when Mr. Harrington took his sea beside Mary at dines; he kept for some moment; casting arch looks at that young lady, which she asturned with numerous suffusions of counts nance, commonly called blurkes. At length his

"And to I am going to love my little blotic Respir," hald be smilling and bothing at Mary I wasder what I'll do. It was bad nighty wold by sie, when I introduced a certain gentleman to the queen of domestics; wasta't it, Maryy." But Mary had found an exceedingly lingly plees of tender fowt to cut, and was too built engaged to head his questlem. Jollas, however, was not to dulf of hearing just then.

Number Thirteen.

Irtsen numbers of the Licking Valley Re
have been presented to our subscriber

Thirteen numbers of the lifeting Valley Regiates his year prehented to we subscriber;
making use quarter of a year. It was under the
most unbromble surplose, the undertaking was
compassived; rather as an reportment them with
any thing like a condeduce in its success.
In the first place, the public had been imposed
upon by several abortive attempts at establishing
a paper in this Gifty, they had paid their mone;
in advance, and shortly the paper was discontinued, but to money returned. Here was an
obstacle bard to overcome; the people had but
connidence, and sist sky of being again descired.
Secondly, the hardenes of the limits—currency
deranged, and monetary prospects of the dullest
wast. They could not do without food and raimant for the body, but they could ruffer the lartiment for the body, but they could ruffer, the lartimet of survey-been we have, had to wide
through dark and muddy waters to the present
time. But our prospects begin to brighten, and But'our prospecte begin to brighten, an

to oder.

to than three months have passed over, and the our readers we have received but twelve on account of subscription to the Registropers.

Our encouragement has not been pufficient to justify a semi-weekly publication at present. There are a few who would be gratified to have a semi-weekly paper, but by far the greater, portion of our publication of our subscriben prefer it weekly, particularly those residing at a distance in the country.

Register, equal to our neighbors' across the river.

Assekse Editor geom.

Marjiand japen bring us the melanchoft tidings of the death of Writisis D. Bris., Esq. of
Hagentown, for many years park, Seliter of the
Torit Light. He was one of those nean over
whosi stery good man will mourn at his departover from this world.—Truly it may be said of
him, "He was one of nature's noblemen." Notwithstanding his long and latimate connexion
with the political press, no man had fewer perconal cannies among his opponents. His writings, though strong and nervous, were so fampcred that year his matterials were often compilled to school of the pressure of a pressure of the pressure of the conpilled to school of the pressure of a process of the pressure of the pressure of the conconal anging lapses with his, and the stake this
operation to achieve on a come years ago, whilst
from the conferred on an come years ago, whilst
paning through Maryland, a simperior sixtends occasion to acmowings, with gratitude, a tignal favor he conferred on us come years ago, whilst passing through Maryland, a stranger to a strange hand. May God console the heart of the widow and the orphan, with the happy prospect of a re-unity in heaven.

Monaldée.

An Irisman by the name of John D. Dermott, some three weeks since, in a drunten pure, stable another irisman named Barray Kentry.
Although not fatal at the time, Kelley has since died of the wound. He was taken to the Cincinnat; Hospital, and after lingering, in much pain, he was released from his earthly suffering on Wedmedy lats. The verdicted the coroner's in quest was, that he came to his death by violatice injust was, that he came to his death by violatice injust was, that he came to his death by violatice injust was, that he came to his death by violatice injust was, that he came to his death by violatice. indicted by a man named John D. Dermott, wit a dirk knife, in Covington, Ky., on the 24th

Seplember.

It is to be regretted that Dermott has been suffered to escape. Had he stolen a perso or it borne, or even a watch, he would instantly have been arrested, but for butchering a countryman has is permitted quietly to depart.

## McLeed's Trial.

We have though it would be gratifying to our readers to have thought it would be gratifying to our readers to have before them at full length the trial of Alexander McLeod, for the muster of Anos. Ourion. The subject has created much continue to the trial of it is was jurnised might be argundered a war between the two countries. For the present was apprehend no such result.

The testimony in this case was closed on Saturday, the 9th. The general impression is that an allot has been conclusively proven, and that the jury will acquit the prisoner at once.

the jury will acquit the prisoner at once.

ELECTIONS.

The recent elections which have been held in Ohio, Peninythanie, Maryland and Georgia, have not been as deverable to the variety of the desired with the forest ucceeded by about 300 majority—the State, however, has carried the Whig ticket. So that petting the Whig ticket. So that petting a station from which he should never have been taken.

Whenever,

We have by the way of St. Louis, news from this State, which appears to render it quite certain that the Whigh have carried the election and made Mr. Arnold Governor over Governo Dodge.

sette, and ther appears to us constitue grounders and it. Firt, Wisconan is not a State yet, and next Mr. Arnold, is elected a Delegate to represent the features of the territory in Congress, and George.

A new National Steam Frigate is about to be commenced at New York, and is to be propelled by Hunter's horizontal propellers. Her construc-tion is a sort of an experiment on a large scale.

sent for the United States, highly advicould have been selected better fitted and quali-fied for this inportant duty. Long and inti-mately acquainted with the Indians, their hab-its and character, and they with him, they had condidence in his integrity and fair dealing! and were satisfied that he would, in all things, be greened by the principles of equity and junker. With the character of an able negotiator, he blends that of a frue christian; and in inita-tion of his Divine Matter, he sains to do by others as he would that they should do unto him.

lonce. We have been led to make these remarks i relation to Col. Johnston, from principles of justice, beckuse we have heard some of his loce for opponents speak of him disparagingly and unjust ly—they have accessed him of ambitious view. to a beloved companion, whose plusteres, and christian labors on earth in the assurance that she is now num the saints in Heaven, with the just me
