Beautiful Extract.

The glory of numer is gone by—the beautidisprenness has become withered and dead—
Were the all—were there no associations of
grand cessibilition—of fairle bepos—of hearts
withering in the bassom of the living—connected
with the decrying easiers amound as we would
har triduigs in "a measure" manistribely. The
leasan of flowers will come again—the stream
will flow as gracefully as before—the trees will
again tess their cumbrous bread of prenances to
the multipht—and by mony atons and winding
refuelt the centing bletten will fairl up as it be
bidding of their guardian. But the human heart
han an chings like that of nature. It has no
ferrige time. Once tilghted in the hour of freshber, it is for ever the mask of the spoiler. The
bewor of-melticule may full, and they gentle rails
if hympathy be fairhed upon—but the grace roll
the fair of the control of the problem. The
bewor of-melticule will never again waken into
the man the crushed flowers of hope blowen with
the important party.

MORAL DEPARTMENT

Saturday Regulage: Camban a Maddide and Incident is breathe, and page of the fact, some flowing property.

The stack, whose, much an elver he has passed.

The stack, whose, much an elver he has passed.

There read somewhere of an allegary in which was represented an imaginary elevation which which commanded a prospect of time and ateratry, from which the eye could not only survey the hour scene of homes existence, but extend, a practicing ighance beyond the gates of deatherman and the stack of the

we unwisely deny our bearts the most preclous of all joys, those of cheerful and adoralise gratitude.

To those who have been borne through the security of the preceding year as on the bosom of an annufact stream, whom this day finds with un-

of their effection and count the 'number fall, whose pates no crust disease has larvaded, but force passions, married—how and they receive unto fifth enterord, and hope to be forgiven!—For example, of the third to the lot of all. "To many a calleder the events of the past method have been described in the past method of the past in the total high world of the ancient past.

On party had been in hylen, we all tascened cost? for many a parent weeps over 60 wire plucked as prime of princip, how many an upban beat as been left tubelletered with no stay, ware inconners and heaven. Some whom the part ound buopant with health and hope, it leaves with hister farmer and prospects darkneed by the shadow of coming death. But alth more oblest, if server has not loosed from earth in one degree our grate of fond deathre, and induced reflection and numbrailets. Yet thus it is — see and companion fall at our side, we bear, no 'loved and benuiful to early' there have no 'loved and benuiful to early' to be gain wounded, until shaking ourselves, we are 'loved and benuiful the and such we consider the second and the such to force, to be gain wounded, until shaking ourselves, we are 'loved' and benuiful to be acquired, we have the second and the such to be a second and the se

any now, appears the annous extes for the future which harmond our mind, with what an undue weight did we suffer trilling vexation to oppores use. Har hope been faine to ber promise—the past may ware us how we surreservedly confide in her fullacions dreinn again—that the friend we trusted deceived us, as we wounded evan by the hand we obvord; jet us turn from man, not in bitterness, but in wise distrust, and when not lime on whom Archargies longs. "If disappointeness, the work of the surface is thinkly have dogged our steps and unde our way thorns, we would not be the surface in thickly surface in thinkly lowed with sould of wearting negative and the surface in thickly surface in the surface in thickly surface in the surface in thinkly surface in the surface in thickly surface in the surface in thickly surface in the surface in thinkly surface in the surface in thickly surface in the surface in thickly surface in the surface in thickly surface in the surface in the surface in the surface in thickly surface in the sur

have dogged our steps and unde our way shown, we need not wonder, earthar with surface is the highyaowed with societ of westellon requiring of us watchful persevenies. But error when high wrought expectation has been fully realized, and we have fourher than been fully realized, and we have fourher the goal of our "hopes, we must be conscious in the very moments of supportent, of a latest feeling of disappointment, the dissatisfied spirit axis is this sail. On earth, alter transitory in thy pleasures and griefly, when will thy children cesses to think the try yloring evan-

billion sick beneath its solemn import. What matter how much abondwince the past year has poured into our basons, if it has not conferred sell approbation, and with what eleaficity of spirit may we resist, the pressure of calmity, if in humble confidence we can bear our immost souls to Heaven's impection, anhamed of their imperfections, but, constinue of obedience and sincerity. If sorrow, and equalantamenthy has met with us, not unvertecems if she has kept us humble or node our thoughtful better to look back upon a year madeesed by grief, and interpried by Calmity, yee filled with virtuous actions, than to behold the apertacle of time destroyed, that worst of sucidest, though falled with setting the strength of the property, another in the true that our deeds age irrepreading and their memory never oblitected, should it be only probable that an hour is approached when stripped of every spectious plan with which we now extensivation with the strength of the strength of the strength of the should we reflect whether the record of the past months which have now completed their anomat circle, will appear in our favor—in their cannot circle, will appear in our favor—in the remedied crisis, when the awed spirit will feel is need of remy spectional thereinly, as a friend.

The windom of the Creator, age a distinguished anatomist, is in outling seen more glorously than in the bast. And how well does it perform its office? An anatomist who un lestands in the state of the structure, might any beforehand that it would play; but from the complexity of its mechanism and delicacy of many of its patts, he must be apprehensive that it would always he liable to derangement and that it would soon work its root. The structure of the structure. While it dept the without structure is not structure of the structure. While it dept the without structure of the structure. While it dept the without structure of the structure. While it dept the without structure of the structure. While it dept the without structure of the structure. It is no made, and the poeter of the Creatorie no constituting its an innuffling be exceeded but in Ilis wis-

When the heart is corrupt, there will naturally follow an incredulity respecting religiour affairs. We see not over analous to credit that which will overturn favorite pursuits; and we would rather encourage out crimical passions

"Alexander, Cessar, Chaitesangne, and my mil founded empires, but upon what did we see the creation of our genins! "Doon force," le rus Christ alone founded his empire upon force, and af this hour, millions of men would die fe him.

"If was not a day or a battle which ackleved to triomph of the Childtain right on in the world, o, it was a long war, a content for three centares, begun by the aportles, the secutions by the mod of Christifa generations. "Ge the war, all he lings and potentiates of the earth ways on neadles on the other I was no way, but a my rights from the world, and who have no other all parts of the world, and who have no other liping point than a common fault in the mystees of the trees.

"I die before my time, and my bedy will begien back to the earthy fo become foul for worm given back to the earthy fo become foul for worm galled the great Mepoleon. What me had been galled the great Mepoleon. What me had been galled the great Mepoleon. What me had been galled the great Mepoleon of the strendly highest of Christ which is prelatinely loved and above and which is extending over the whole math?—Call you this dying?—Le fir not tirelage rather?—The death of Christ is the death of God?

Napoleon whost at these last words; but general Bertrand making no reply, the Emperor add: "If you do not perceive that Jesus-Christ is God, I did wrong to appoint you general."

If this language was really uttered by Napoleon, it forms a fine chapter in defonce of Christianity, for which we are indebted to the greatest wanter of modern times. Non-Rec.

Doctor's prescription to a Dyspept Fire years ago, Mr. _____ who keeps

in punhot of our office, found his health felling. For Ser. off only he had have from it his posses uning such means, as were recommended, by he friends, but all to me purpose; if you a not, how rere, that is after much previously by his anxiety from that a medical and there was called in. His case in a fair that a medical and their was called in. His case in a fair to be seen to be very harty in making up his mind, but "prime to send him something which would up, don't care bim.

cure him. Hour after hour elapsed, and no messenger acrived. In fact there had been but only up at the front door, during the foremon, and at he by an awkward boy, who was represented for briging a wood saw, howe and san to the front door, and directed to take them. around "to ke

The Doctor was again sent for.
"Well," says the Doctor, "how does the mod-

leine work ?"

"The medicine, my dear sir, I have seen nione."

"Ab, I see you don't know how to take it?"

"But sir, there is some error—I have receive

medicine whatever."
"Didn't a boy bring you a saw and accompaments?"

There was, Doctor, something of the kin brought to the door but if that is your prescrip tion, how under the suo can a sick man tak such lidigastible articles I don't understand, Doc

"Well, then, I will tell-you," and the Doctor and in a low voice slowly, processed," the point own moning about ten pelock, put do your are tout, go into the wood-loose, plane a 'titch wood on the horse, and ply the saw as slowly e you please, for an hour. Than go to your rose and without removing your outer garment, "i by the for unit your perspiration subsides; follow this daily, and you will soon be your own man

The prescription was strictly followed. It was hard job at drift but werey day the medicine was taken with a better reliab. Givength and owners of digestion returned. The medicine as been continued to the present day, and also hough the graftleman is engaged in an exterior butter with the relief was the strictle when the present the present of the present and the present white it is not the present and the pres
