"German Catholics and their Traducers."
This is the outloo of an acticle which oppered under the "attorial hand" of the "Catholic
In reply to some strictures in reference to caliporderly conduct on the part of some "German Catholics" in this place, and se we upposed in "Ginclimath, also." Our article was braded, "German Roman Gatholics." That we may not be
charged with lillberality, and to give to the publight be bended for the article in the Telegraph, we
publish it arties in the "Gatholics," accompaisied with next by may of Illustration. As, respectful mention has been imade of my brother of
Chicabachijt is buyl doing in act of justice to
him to my, that backets time we have him, after
the publication of the article complained of, he
serpressed his "egert inta we had published it him to any, that the first tune we are min, atter the publication of the article complained of, he expressed his "egret that we had published it. —that a large portion of the Catholics' were orderly and well-disposed citizens, and would as almorally regret any departure from the good order of society, and of the law, on the part of the members of their church, as any other portion of the commanity." To this we give a full assent; and in reply said, that we had no reference to any others, but those whom we regarded as haring acted disorderly at a stack. He replied, "the remarks were too general in their character, and thought they would be regarded by the Catholics as upplicable to them, all." His supposition send to have been correct. Intended only to the 'German Catholics' who were engaged in the disturbances referred to. If, some of them were concerned in the "late" ristor."

Cincinnati, we are glad to know it. "We wou ts, we are giad to know.it. "We would corned in the recent frontier disturbances and insurrections, without any exceptions.—Jo." belong to the church of Omiser, and triving to do vight, eithers the first of the corned with our own. We perform that the control of the Royal Engineers, has triving to do vight, eithers the first of constructions without any exceptions.—Jo. Captain CnawLev, of the Royal Engineers, has triving to do vight, eithers the construction of a Canal which shall unite the very the Line of a Canal which shall unite the construction of the Captain of the St. Lawrance with the Bay to one who are members of the Catholic Fundy.—Jo.

an others relation to those sensors, and whose out to give a to the conduct of the several instruction, and the discipline and course of instruction in each, the series of the several instruction, and the discipline and course of instruction in each, the series of the several instruction in each, the several course of the several instruction in each, the several course of the several instruction in each several manufacture. The several instruction in the several course of the Trustees from any quarter or to the critic coin, plained of I for so, we have never sent or heard of them.

In the annual report of the School Trustees, presented to the City Council, June 29, 1841, the Trustees say,

"It has been the unceasing effort of the Trustees, to make the course of instruction uniform in all the schools, and to inform in the several course of instruction uniform in all the schools, and to inform in the several course of the strongest props in the pointers of the several course of

as this if faund necessary. We have supposed they were enthently useful, and justife print of all the citizens of Cheinanti, not excepting the Catholice, and with this feeling and belief have refered to them.

the rising of the committee, which was agreed to, and the whole subject of course ind over till codeny.

No ma cair say what will come of it. Poinings our winten deceive in: But, really, it seems now to be possible that some bill to supply the present pairing obtained in the revenue system may yet pass Congress.—Nat. Int. Aug. 30.

The Government of Canada, with bation of Queen Vioronia, intend to unqualified amuesty to all persons who cerned in the robnif frontier disturbinaurrections, without any exceptions.

church, and we are never backward in their defence when we think they are unjustly assalled, as we had, not long since, occasion to feitify. We had a do nog since, occasion to feitify. We had a do nog since, occasion to feitify. We had a do night respect every denomination of Christian worthings: We only desire them to its up to their professions—to make the Biblo their up to their professions—to make the Biblo their level of action: Let the legislator and the political and religious presser, ou cate of action: Let the scienter and upon this domestic and respectable portion of our fell this reason to the control of the control of the science when the political and religious presser, our cate of action is Let the register and the political and religious presser, our cate of a control of the science when the political control of the science when the political that the science when we publish them are our territories, and the control of the science when the publish them are our territories. In this acting ray we would not, if we control that the brister of our respected deports of the science of the benefit of the science when the publish them are our territories.
