THE TALES OF THE PART OF THE P

is the mun to enter upon and earry out mehimproments in the culture of wheat; as circumstances may suggest:

General Harmin's principal crop is of the vasiety he calls the Improved Finst, which had its origin in the cammon white that wheat, introduced into Western. New-York not far from 1820. This wheat is so well known as to need no description. It is hardy, not very inhab, to truly more than the internal production of the from 1820. This more abelian; cathering, and weight Well. This most so-rious objection formerly made to the western was the difficulty of utershing; it by inned, at difficulty do no way. by the introduction of the threshing machine. On favorable, soils its jeld is form 20 to 25 bashed per ease—By careful cultivation and solection, and not allowing any other kinds a tome in contact with his wheat, either in the, field or the granary, Genoral Harmon, has brought the Improved Fintto a purity and uniformity of quality, we have near reserved incalled. This wheat is much sength after for sood, and much hag greater portion of his crop is always used for this purpose: The darvaces have been a superior of the principal contact the makes on the price, over ordinary wheat has been and consequently catenities. We had the pleasance of soling at the hisse of a farming friend of ours in Onondayz co. last full, 20 barrets of this wheat had his piece, and all who have examined the seccliment procured for seed, and a beautiful sample it way, as all who have examined the seccliment procured for seed, and a beautiful sample it way, as all who have examined the seccliment procured for seed, and a beautiful sample it way, as all who have cannied the seccliment procured for seed, and a beautiful sample it way, as all who have examined the seccliment procured for seed, and a beautiful sample it way.

In sowing wheat, Ord. Harmon portues the coirse long since recommended in the Genese Farmer and in the Califrator, of the coirse long since recommended in the Genese Farmer and in the Califrator, of the coirse long since recommended in the Genese Farmer and in the Califrator, of the coirse long since recommended in the Genese Farmer and in the Califrator, of the coirse long since the coirse long since recommended in the Genese Farmer and in the Califrator, of the coirse long since the coirse long sinc

Washington, ren. 21, 2000.
To the House of Representatives:
In compliance with the resolution of the House of Representatives of the 22d instant requesting me to communicate to the House of Representatives of the Continuous of the House of Republic Continuous Cont

Everett's lottor of the 23d December, in re-ply thereto, and attracts from several lotters of Mr. Everett to the Socrolary of Sinto, I cannot forgo the expression of my re-gret at the apparent purport of a part of Lord Aberdeen's desprath to Mr. Fox. I had Aberdeen's desprath to Mr. Fox. I had the control of the control of the con-trol of the control of the control and the second of the treaty leady concluded issuedent Great Britain and the United States, was procluded by the oblain and well visible. issueers Great Dilats and the United States, was precluded by the plain and the United States, was precluded by the plain and well weighted language in which it is expressive. The desire of both Governments is to pert a need it is a property of the desire of trade, and has desire, I need cancerly add; in a strongly and as sincerely felt by the United States as it can be by Great Britain. Yet it must not be forgotten that the trade, though now universally probated, was up to a flat portion, the contract of to their own citizens, and to visit its perpeturion by thom with condign punishment.

I may safely affirm that it nover occurred in the Government that any new maritime right accrued to it from the position. It had thus assumed in regard to the slave trade. If, before our leave for its suppression, the flag of overy nation might traverse the occumulation of the control of the co

was not, in the opinion, it is in a said ubridged by our municipal legislation.

Any other doctrine, it is plain, would subject to an arbitrary and ever varying system of maritime police, adopted at will by the great near Power for the time belon, the trade of the world in any places or the strain articles which such Power might 'noe fit to prohibit to its own subjects or citizens the provided of the world in the problem of the world in the world in

prohibit to us or principle of this kind couns a principle of this kind couns a principle of this kind couns a principle of this kind couns as the risk of constant and harrassing vexasions.

The attempt to justify such a pretension it from the right to visit and detain shipsupon if reasonable suspicion of piracy, would dedent of the proposed to universal condemnation, since it would be an attempt to courset it an established rule of marijume law incorporated as a principle into the international code by the consent of all nations, and an imprinciple adopted by a single nation, and and principle adopted by a single nation, and and principle adopted by a single nation, and and principle adopted by a single nation, and an abig open assignment of the principle adopted by a single nation, and a principle adopted by a single nation and a principle and a principle and a principle adopted by a single nation and a principle a These declarations may were the whether the apparent difference between the two Governments is not rather one of definition than of principle. Not only is the control of t

norate estimate led was embodied this article of the treaty-were my viewsat the time of nego sat treaty, and such, in my opinion a and fair interpretation. I regar ighth article as removing all peasi

preventing any such abuse by stipulating to furnish an armed force or egarded by both the high contracting parties as sufficient is accomplish that object.

Earthquakes.

Rierence, Alabama Feb. 18.

At about half-past 11 o'glock, on Thursday night hat we full the shock of an earthquake which was almost if not equally as sorero as those file on the evening of the Oth ullimo. So severe was the quaking, of the earth hat it aroused many of our citizens from their slumbers. The vibrations, from what we learn from those who felt the quake when it womenced, must have continued about a minute. The noise caused by the dashing and ratling of our doors, charts, tables, dee, whe our whom we employed the shock was severest. When we would be a subject of the carth at the time was calculated to produce quite a pleasant sensition, had not the mind been filled with the withness and grandeur of the power of Illm who can then "shake useribly the earth." sensation, had not now mine over after the awfilness and grandeur of the power of Him who can thus "shake terribly the earth." —Enquirer. The above carthquake was also felt at St. Lovis, Missouri, and Nashville, Tenn.

Destruction of the town of Point Petre SEVERAL THOUSAND LIVES LOST.

Capt. Thompsen, of the Brig Frances I sake, at this port yesterday, from St. Johns; D. R.; reports the occurrence, at that place, of a severe shock of an earthquake on the Shof February, which leaded about two minutes, but did no espocial damage. Intelligence of the distructive affects of the earthquake in rations other-blands in given in the Tenness Jano:

Sr. Jouns, F. R.; Feb. 14, 1843.

We had a severe-abock of an earthquake on the Sh in fit, but it was not so severe us the one least year, though it leated a longer time. In St. Thomps. It was very severe, and is said to have leafed over two minutes. All persons all of from their houses, but most fortunately no one was burt, and no material damage was done there. A vessel arrived at St. Thomps from Antigon, reports that all the boxes were down in that Island, and damage was done there. A vessel arrived in St. Thomas from Antigun, reports that all the houses were down in that Island, and the windmills were either down or so much injured that they cannot be worked. In Nevis, Also, every thing (except the Bath Bows) is down, that the steamer passing

does allowed covered with a dama cloud of dies.

No accounts have yet been received from any other latad, but we fair we shall hear of great distruction of property and loss of life in all the Vindaward Islands. We cannot riguest for the truth-of-the above, but we give it as we receive it from a creditable source in St. Thomas.

St. Jones, P. R., Feb. 15, 1843.

We yesterday received advices from the first heard. St. the crathquake of the 8th inst. have been syful indeed. The town of Point Petre, Guadaliope, is anticely designed, and ten theusand personal of property is immesse. At Astigna there has also been a great loss of property, though put few lives were distributed. All the mills and sugar works are more or less injured, and the great part of the crop will be leaf.

of property is a many control of property in the sales being great loss of promise of the individual of the Wirds were distributed. All the mitts and engar works are more or dess injured, and the greater part of the crop will be lost. Norse, domisaria, Barbadons, &c., are all said to have milleded much, but to what verticate its not known here yet. Let it soot known here yet. Co. The earthquake whose effects have been so fearfully experienced in the West India Islands on the Six February, was indicated by the slight shocks which were followed to the same day at Washington City, Norse when same day at Washington City, Norse was the same day at

than at last new-year's day, and ulty we have about 7,000 seemen ing line-of-battle ships, being seen an last year, 32 frigates, for easy year; 30 sloops, one less; 36 small four additional; 21 surveying year

The English papers say that the Marqu he scanty inhabitants can hardly mainta hemselves. The latest humbug is the forgery of a tent coins, a trade which is carried on e

The latest humbur is the forgery. of ancient coin, a trade which is carried on exist existivity numbers are palmed off as originals on the collection of currolities. Some of these ingenious forgeries, it is stated, have on more than one occasion furnished lengthened disquisitions for that peculiar section of the British Association to which the auximination of these matters is assigned.

—Reviews in Cirixa.—Captain Bligham, in his work on China, just published in England, as yet the Cirixa is a constant of the Cozan, is one of the mort entensive rivers in the world, second only to the Missishippi and Amazon. It takes its rise in Thibet, and, one reaching the sea, passes over an extent of 2,700 miles of country in its circulous route, relieving the Lakes Toongting and Poyang of their superfluous waters. When passing Nankin, it runs with a continued obb, and with nead force as to require a strong breeze to sail egainst it. In its downward course, numerous islands are formed, which are constantly increasing from the quantity of soil suprended in its waters.

Counterprinters Taken. The St. Fraucisville La. Chronicle, of the 12th ult., state that five. or six unwashed villions made dash into that place from offa flat boat, where the counterprinters are the counterprinters. usad into that piace riomy one at a cost, was had in their possession any quantity of counterfeit ten dollar bills on the Louisians State Bank, which were simultaneously of fered at various extablishments in payment of small purchases, but without success.—
These men disappeared from the landing in quick time, and little was thought of the matter until Thurnday, when it was discovered. l brought back committed by n, which was

100, where he was a reracted and brought heek to St. Franciswille. He was committed by a magistrate for examination, which was to have been goes into so Saturday morning before Justice Hinch.

The same paper says that place is flooded with \$5 counterfeit bills of the State Bank of Indians, the greatest portion, of which are made payable at the branch of said Bank at Vincenner. They are signed S. Morill, President, and John Ross, Cashler. The counterfeit bills falluded to can be easily deciced, if scruthinged. On the left hand comer is the bust of Washington, and on the right that of Layfactte, at the tap a ship at sea, and at the bottom, between the names of the President and cashior, a small cagle. The genuine bills have Ladycette of full length in front, an Indian standing close by—on the right a monument, marked Washington, Layfactte, Yorktown, 1781.—On the 16th, Use American coat of arms. The left, corner has a bust of William Penn—the right a figure 5. At the left end of the greatine bill is the word "Fire," and on the right to figure 5. At the left end of the gradule of the counter feel bills are famile figures between two fires.

right two a war series of the conditions of the condition of the rumored revolution, received by way of the brig Joseph Aldien, at Helmes's Hole which put to sea at Aux Cayeson account of the insurrection. He states that on the ore of the 20th ult, a body of mek, far or eight thousand strong, were reported to be quartered on the plain, and, it consequences, the general in command ordered out his force, about two thousand men, and attitioned them at their posts. The next day, the condition were all armed and formed in the public square. From the condition of the ism, and the establishment of a form of proment similar to that of the United St Phese conditions being complied with, were ready to lay down their arms."

were ready to are nown tone mus-Licking Valley Dank.

A bill is before the Koniucky Legislature to incorporate the Licking Valley Bank, a Corington. The object of this is said to be to revive and invite the Franklin Bank, law of this city, across the river. The Louis ville Journal of Monday says: "It is gon crally thought that this measure will say cood. As banking capital is driven from Ohio by Locofocolam; it may he a question whether are acritically in the control of the control y Locolocciam, it may ho a question or any evil can result from inviting it a State, and making it a source of rev — Oh.
