POETICAL.

For the Register. LINES ON THE DEATH OF GENERAL WILLIAM HENRY HARRISON.

BY JOHN H. WILSON, M. D. A Nation mourns in "weeds of woe," And though high Heaven has dealt the blow, Each heart responds to grief.

O, honored, lov'd, illustrious one, A stranger sighs for thee,
And back to earth could'st thou be won, His heart would bound with glee.

Thine was a bright, a glorious life, 'From youth to hoary age,' A hero in the battle strife. A patriot, statesman, sage.

No richer gem could earth unfold, To deck, adorn mankind,
And with the great, the good enroll'd,
Thy name shall be entwined.

With Washington, the Statesman pure, History shall blend thy name; Thy deeds like his, shall last, endure, And pass to endless fame.

Thy name still shines in brighter gloss, And gives a lustre new, 'Thou shon'st a "soldier of the cross,"

A christian firm and true. How grand, sublime, beyond compare, How noble was thy death! Thy country was thy dying prayer,

Thy last expiring breath. We'll build the tomb, raise high the spire. Where thy dear relicts rest,

Twill cheer the heart, the soul inspire

And warm the patriot's breast. On Ohio's fair, majestic stream, Twill strike the view afar, And in the distance brightly gleam,

Like some sweet lovely star. And as the traveler passes by. Borne on the liquid wave, Here fondly here he'll rest the eye,

And weep o'er glory's grave. North Bend, through the long lapse of time

And Freedom's sons from every clime, Will to this Mecca throng. Farewell! farewell! departed one 'Tis vain thee to deplere,

A nobler life is now begun, And bliss for ever more.

TWO WAYS WITH DOMESTICS.

BY T. S. ARTHUR. "Ah, good morning, dear! I am really glad to see you," said Helen Armitage to her young

friend, Fanny Milnor, as the latter came in to sit an hour with her. "I just wanted a little sunshine." "There ought to be plenty of sun shine

here," returned Fanny, smiling. "You always seem happy, and so does your mother and sister Mary, whenever I meet you abroad."

"Abroad or at home, makes quite a difference, Fanny. Precious little sunshine have we here. Not a day passes over our heads that we are not thrown into hot water about something or other, with our abominable servants. I declare! I never saw the like, and it grows worse and worse every day."
"Indeed! That is bad, sure enough. But

can't you remedy this defect in some way?" "We try hard enough, dear knows! I believe we have had no less than six cooks, and as many chambermaids, in the last three months. But change only makes the matter worse. Sometimes they are so idle and dirty that we cannot tolerate them for a week. And then again they are so ill-natured, and downright saucy, that no one can venture to speak to them.

As Helen Armitage said this, she arose from her chair, and walking deliberately across the room, rang the parlor bell, and then quietly walked back and resumed her seat, continuing her remarks as she did so, upon the exhaustless theme she had introduced. In a little time a domestic entered.

"That door has been left open by some one," the young lady said, in a half vexed tone of authority, and with a glance of reproof, as she pointed to the door of the back parlor leading into the passage.

The servant turned quickly away, muttering as she did so, and left the parlor, slamming the door after her, with a sudden, indignant ierk.

"You see that!" remarked Helen, the color deepening in her cheek, and her voice indicating a good deal of inward disturbance. "That's just the way we are served by nine out of ten of the people we get about us. They neglect every thing, and then, when reminded of their duty, flirt, and grumble, and fling about just as you see that girl do this moment. "I'll ring for her again, and make her shut that door as she ought to do, the inolent creature! '

Helen was rising, when Fanny laid her hand on her arm, and said, in a quiet, persuasive tone— "No, no; don't Helen. She is out of

temper, and will only retort angrily at fur-ther reproof. The better way is to pass these things as if you did not notice them." "And let them ride over us rough shod as

they most certainly will! The fact is, with all our efforts to make them know and keep their places, we find it impossible to gain any true subordination in the house."
"We never have any trouble or this kind, said Fanny.

"You must be very fortunate then." "I don't know as to that. I never recollect an instance in which a domestic opposed my mother, or failed to obey, cheerfully, any house, within my recollection. At least half a dozen."

"Half a dozen! Oh, dear! We have half a dozen a month sometimes! But come, let us go up to my room; I have some new prints to show you. They are exquisite. My fa-ther bought them for me last week."

The two young ladies assembled to Helen's chamber, in the third story. But the book of prints was not to be found there. "It is in the parlor, I recollect now," said Helen, ringing the bell as she spoke, with a quick, strono jerk.

In about three or four minutes, and just as the young lady's patience were exhausted and her fingers were beginning to itch for another pull at the bell rope, the tardy waiting woman appeared.

"Hannah, go down into the parlor and bring me off the piano a book you will find there. It is a broad flat book with loose

This was said in a tone of authority. The domestic turned away without speaking, and went down stairs; in a little while she came back, and handed Helen a book, answering the description given. But it was a port folio of music.
"Oh, no! not this!" she said with a curl

of the lip, and an impatient tossing of the head. "How stupid you are, Hannah! The book I want contains prints, and this is only a music book. There, take it back, and bring me the book of prints."

Hannah took the book, and muttering as she went out, returned to the parlor, down two long flights of stairs, and laid it upon "Ol

"If you want the pictures, you may get them yourself, Miss; you've got more time to run up and down stairs than I have."

As she said this, Hannah left the parlor, and the book of prints lying on the piano, and went back to the chamber she had been engaged in cleaning up when called away by Helen's bell. It was not long after she had resumed her occupation, before the bell sounded loudly through the passages. Hannah smiled bitterly, and with an air of resolution, as she listened to the iron summons.

"Pull away to your heart's content, Miss," she said, half audibly, "When you call me again take care you know what you want me for. attended to. "That's just the way we are constantly served by these abominable creatures."

Two or three heavy jerks at the bell rope followed the remarks.

"Pull away, it's good exercise for you!" muttered Hannah to herself. And this was half reprovingly, 'why didn't you call me to stairs. POLITICAL.

From the National Intelligencer. A Few Serious Thoughts.

We have reached a crisis in the condition of our country that demands the serious reflection of every one that properly appreciates the supremacy of law, of good order, and the stability of our institutions. It is not to be denied that for many years past there has been a great falling off in the moral tone of society, and particularly in that portion connected with the administration of the Government. We have seen whole communities convulsed by reckless associations of individuals, taking the law into their own hands, to the extreme of putting to death cit-izens of the country in the most summary and shameful manner, as lately in the case of the Mormon, Joe Smith, and his brother. We have seen a district of country rise up against the ministers of the law, and with brute force drive them from the performance of their duties; as in the case with the "Patroon Maron" in the State of New York .-We have seen mobs, again and again, put all the authorities of a city at defiance, and conflagrate churches and destroy property; and, more recently, we have seen a mob in its fury resisting the civil and military authorities with all the dread consequences of civic strife. We have seen the highest functionseen States, unmindful of every high and solemn moral and just obligation, repudiate their debts and beggar their creditors; we have seen numbers of the officers of the General Government violate their oaths of office, and by speculation, peculation, and fraud, become defaulters to the amount of millions of dollars. Under the eye and sanction of the Executive we have seen a party press appeal to the worst passions of the masses to divide society into two great parties, the rich and the poor, as antagonists in all their objects, and urging the latter class to redress their grievances by the power of their numerical superiority. We have seen some in high places stepping above and beyond the

It is very evident that these transgressions which diversity of opinio years, for a great part of which time the Govthe supremacy of their party, than in obedi-ence to the great interests of the country?— During that period, the cardinal principles of the fathers of the Republic have been repudi-ated. In selections for office, it is no longer inquired "Is he honest? is he capable?" new code of ethics has been introduced in the memorable maxim "to the victors belong the spoils;" and, in consonance with this piratical creed, the only question that has been asked, is, "What has he done for our party?" The consequence has been that profli-gate and unqualified persons have been invested with office, who when they have not rob bed it where they should have protected it, have, from ignorance and indulgence, left undone what they should have done. This principle of rewarding the "rabble followers of the camp" has raised up an army of mercenaries that hover around the Government ike vultures over a carcase; and, for what they can do not less than they have done, legion in number they get access to the ear of power, and poison it with false and pestiential suggestions. It is thus that they virtually administer the Government by their dictation, corrupt it by their profligacy, and

weaken it by their ignorance.

We appeal to the candid, even among the true friends of the administration referred to, to say whether these evils have not been seen and felt for some years past.

We had no such doings in the days of Jef-

ferson and Madison and Monroe and Adams. The prosperity and the honor of the country were the great objects to which they looked They too were party men, but it was party tempered with justice, and party regulated by patriotism. There was a moral power in the virtue and grandeur of these men that was felt in every member of their administrations and in the pulse of the whole country. There was to be seen, with such exceptions only as indicated the infant strucgles of the new party which afterwards ob-

Not that I supposed or believed they would, all at once, or from the same impulses, reach that ground. But that the progress of events would surely bring them there, and they would assume it cheerfully. That conummation has come. All that is dear to the Whigs of the United States, in regard to policy, to principle, and to administration, is now in-volved with your own favorite cause in the present issue upon the admission of Texas to the Union. You have now this great, generous and triumphant party on the very ground to which you have invited them, and for not assuming which, prematurely, you have so often denounced them. But you will say that Henry Clay is a slave-holder. So he is. I regret it as deeply as you do. I wish it were otherwise. But our conflict is not with one slave-holder, or with many, but with slavery. Henry Clay is our representative. You are opposed to the admis sion of Texas, and you admit and assert the duty of resisting it by the right of suffrage.
Will you resist it by voting for James G. Birney? Your votes would be just as effectual if

To increase the slaveholding power is to subvert the Constitution, to give a fearful preponderance which may, and probably will, be speedily followed by demands to which the democratic free-labor States canno yield, and the demand of which will be made the ground for secession, nullification, and disunion.

Paris, Ky., August 2, 1844. GENTLEMEN: This letter will reach you when all motive for misrepresenting the probable re-sults of our State elections will be unavailing. The results of our elections, from years ago, an calculated to mislead our friends across the mountains, and I will give you from the most reliable sources, my judgment of the vote of Ken-tucky for Governor. If I miscalculate, detection 424

There is, perhaps, no State in the Union where political principles are more firmly fixed than in this: and, from full information, deep reflection. and the most confirmed judgment of the political principles which divide the parties of our country, our friends may confidently expect that our majority for Governor will be at least 6,000, and it may reach as high as 12,000 votes. We have ten Congressional districts, one of which is decidedly Democratic, and will give a majority against us of from 2,000 to 2,500 votes, and there are two others that will be about equally divided. The first is Boyd's district, and the two last are French's and Tibbatts'; the former of which will probably give a small majority for the Democrats, and the latter about the same

will give majorities which will over balance that of Boyd's district; thus leaving six Whig districts, each of which will give an average major-ity of from one to two thousand votes. Judge Owsley, the Whig candidate for Gover-nor, is one of the purest men of our State, of 342

strong reasoning powers, and of the most reliable principles. He was for about fifteen years one of the Judges of our Supreme Court, and the period of his judicial career is generally admitted to be the golden judicial era in Kentucky. It was during this service that we weathered one of the most perilous experiments of free Governments. An interested majority enacted stay, relief, and replevin laws, in violation of the Constitution, and finding that our Supreme Court stood in the way of their mad career, they 1082 by an ordinary act of legislation, subverted the judiciary.

During all this reign of locofocoism and agrarianism Judge Ows-ley, with Chief Justice Boyle and Justice Mills, vere unwavering defenders of the Constitution, and their conduct deserved more praise than a hundred battles fought in the ranks of the army.

It pains me to reflect that our people are slow 386 o bestow due rewards on civil services, and es-

gerated and bloated consequence. Colonel Butler, the Democratic candidate for 1116 Governor, behaved handsomely during the last war, and is esteemed as a gentleman in private 575 life. His military services are blazoned forth in the most attractive forms, and he has a wide cir cle of friends and relatives who would oblige him 594 but for his political opinions on the tariff, the currency, &c. He was a decided opponent of relief laws, disorganizers, and judge breakers.— The Texas question has carried off a few to his aid, and, more than all this, the Democrats are exerting themselves to the utmost to reduce ma-jorities, so as to have it said that Mr. Clay is 580 not as strong in his own State as was Gen. MIGHTY WHIG PROCESSION AT LEXINGTON. paragraph from the Commonwealth of the 30th

urday last, was the most imposing pageant ever seen or heard of in Kentucky. The morning opened with rain, which fell in torrents nearly all day. The Locos here were rubbing their bands with great gusto and looking at the clouds with a most amiable leer. They pointed the Whigs to the skies, and talked about providendispensations. But the mighty mass o Whigs at Lexington, estimated at from twenty to twenty-five thousand enthusiastic spirits, embraced the omen of the rain as auspicious It was fuel for their fire and more agreeable than sun-shine. They turned out with banners and emblems. Mechanics of all kinds, borne in cars, were seen moving in the procession, working at their trades. The scene, as we learn from those who witnessed it, baffles all powers

the Tariff, etc. From these publications you will perceive that the Colonel is dead out against Protection, and particularly opposed to the distribution of the proceeds of the Public Lands; because, he says, it is a Tariff measure. It sounds, he says, it is a farm measure. It sounds strangely to us who have been accustomed to hear Col. Polk, to hear it stated that he is met him on more than one hundred and fifty fields, and I never heard him make a speech in my canvass with him, that he did not denounce the main ground on which he and his friends re-lied, to defeat me. I was for Protretion:—He against it. I for Distribution :- he against it.

The case of the United States vs Oliver Newberry, as surety on the official bond of HENRY S. COLCRAFT, late Superintendent of Indian Affairs, was tried in the Circuit Court at Detroit last week. The jury returned a verdict of \$9,965 25 agianst the defendant. A motion for a new trial was made.—Ib.

A NEW WAY TO PAY OLD DEBTS .- A lady called a day or two ago upon one of her husbands creditors to inform him that his debt would be a total loss, for which says she, "I am extremely sorry;" "but," she naively added, "I have christened my last boy after you." A literal fact,—N. Y. Journal of Commerce.

Whig Prize Song.

The Boston Clay Club, some months ago offered a prize of fifty dollars for the best song in the honor of Henry Clay, which should be written to the tune of "The Brave old Oak." It has been awarded to John H. Warland, formerly editor of the Claremont Eagle, and subsequently of the American, a daily paper printed in Boston.-The New York Tribune furnishes the following

copy of this song. It is entitled THE WHIG CHIEF.

BY J. H. WARLAND, ESQ. Tune-" The Brave old Oak." A song for the Chief the brave Whig Chief Who hath reigned in our hearts so long, Let the welkin ring as his name we sing, And around his banner throng;

n the darkest day, when the bold gave way, He upreared his noble form, And his voice was heard, like our mountain bird Swelling high above the storm. Then gathered we all, at our country's call, And marched in battle array; Let the song and the shout, ring gaily out,

As we swell the ranks for CLAY!

Chorus-Then gather we all, at our country's call And march in battle array; Let the song and the shout ring gaily out As we swell the ranks for CLAY.

When the foeman came with sword and flame. Sounded forth his voice that day, From the council hall, like the trumpet's call, When it summons to the fray Like the drum's loud beat when armies meet, It roused our gallant tars; As a banner of light in the dark midnight, They unfurled the stripes and stars.
Then gather we all, &c.

In his tone's sublime, Bolivia's clime Heard the chant of Liberty. As, with outstreatched hand, he bade her stan With the nations of the free; And Greece, with her isle, and vine-clad hills Where his band Bozzars led.

At his voice awoke, as if had spoke One of her glorious dead. Then gather we all, &c. Oh. merry and free should our voices be,

As we pledge our Chieftain true, Whose deathless name hears a nation's fame O'er the land of the waters blue! On the ocean's foam, on the mountain home, Let each heart the call obey. As swelleth the shout, and the song rings out, For our Chief who wins the day!

Then gather we all, &c. In the chair of State, due none but the great, The world shall our Chieftain see; For triumph we must for our cause is just, And perfect our union be;

Every eye is bright, every heart is light, And the song and the shout are gay; For the victor comes mid the roll of drums With his glorious Whig array. Then gather we all, &c.

A HARD CASE.

Rev. C Spear attended the recent hanging o Hall, the murderer, at Middletown, Conn. Here is a part of his report:

"I went out to make observations during the scene; and the better to effect my object, I appeared entirely ignorant of what was going on. "What are they doing there?" said I, pointing towards the pen. "They are hanging a man," was the ready reply. "What!" said I, "hanging a man, in this age of civilization an refine-ment!" "Yes," said the fellow, "and if you are not in favor of hanging you ought to be hung yourself?" "And I suppose," said I "you would like to do it." "Yes, I should." One fellow was swearing away most lustily: "It is too bad, said be: "here I pay taxes to support the Govern ment, and can't have the privilege of seeing th

The New Orleans Custom House.

Mr. Thomas BARRETT, the newly appointed Collector for the port of Orleans, entered upon the duties of his office on the 25th ult. and signalized the event by the removal of about thirty employes of the Custom House, many of them Whigs, and a majority old and faithful servants, who for years past have performed their duties to the satisfaction of the public and his predecessor in office.-Amongst the appointees, the Bee says that the "corps editorial—Tyler and Democratic of course-have come in for a large share of the loaves and fishes. No less than five of these have forsaken the 'tripod' for the fleet ing joys of public functionaries. They are C. W. Duhy, of the Age, L. A. Besancon, of the Courier; R. Consumption Arrested! NOTHER cure performed by Dr. Duncan's Expectorant Remedy! Mr. Phineas Tomlinson, near Adamsville Muskingum county, Ohio, certifies that his son aged sixteen years, was seriously afflicted with a disease of the lungs for three or four years; his symptoms were, slight cough, hectic fever, and night sweats, attended with a general dene determined to try the virtues of Dr. Duncan'

bilitated state of the system, showing all symptoms of going into a decline. Having used various medicines, but to no effect, as a last resort Expectorant Remedy, which he procured of the Agent in Zanesville; and Mr. T. says he is happy to state to the public, that the medicine actually did remove all disease from the lungs and finally restored his son to perfect health it now being upwards of nine months, and his lungs appear to be perfectly healthy. Cincinnati, March 15, '43.

Dr. Dancan-Health, the greatest blessing-

O, but eleven months ago, this all important comfort was far distant from me. I was taken down with a severe cold last spring, which set fled upon my lungs, and at length rendered my health so delicate that my physician lost all hope of my recovery. In this precarious situation I remained for seven months, without obtaining any relief; ut the same time I was using all the medicines that it was in the power of my physician to obtain, but to no effect. My father happened to notice a publication of your valu-Expectorant Remedy, and immediately procured three bottles for me. I commenced using the medicine on the third day of last November, and continued its use for sixteen weeks. The first bottle gave me much ease, and caused a considerable discharge of thick viscid phlegm and matter: after using the second bottle, the discharge became so great, that I was alarmed; but having so much confidence in the medicine I continued to use it until it entirely removed every symptom of disease from my lungs. I am now enjoying perfect health, and feel ever grateful to you as a public benefactor. Yours, with gratitude and thanks. MARY PREBLE.
Having been acquainted with Mrs. Preble for several years, and knowing her delicate situation I feel no hesitation in endorsing the above, see-

ing her now as usual in our meetings: hoping Daniel Fisher's Heirs, etc. that others laboring under afflictions of the lungs may restore themselves by the same med-S. M. McDowell, of the Methodist society, Cin. Principal Office, 19 North 8th st. Phil.

PROSPECTUS

FOURTH VOLUME, ENLARGED, WITHOUT INCREASE OF PRICE.

Published weekly, in the City of Covington, Kenton County, Kentucky. THE LICKING VALLEY REGISTER, will be continued on the same general principles by which it has heretofore been governed. Becoming terers, Painters, &c., to work the above materials into 20 or more tenements, or buildings. For each, every, all, or any of the above items, eligible building lots are offered in exchange, at active part in public affairs. We intend to the lowest cash prices; and for each, every, all give the proceedings of the State Legislature, or any, proposals are solicited by the subscriber, and of Congress, in an extensive summary form; also Intelligence of a general character, For

Kentucky being an agricultural State, a goodly portion of the REGISTER shall be allotted to the immediate interests of the Farmer, in enumerated, shall pay a rent of 10 per cent. the selection of such articles for publication per annum, for ten years, from the day they are are directly adapted to our soil, climate, and agricultural pursuits. Information of this kind, at a suitable season of the year, is, to the husbandman matter of vast importonce, should be regarded as worthy of consideration.

The columns of the REGISTER will be open to an honest discussion of political principles whether Whig or Democratic. Whilst we avor Whig doctrines, we shall abuse no party for differing with us in opinion—the right of opinion should be held sacred to all.

We need not urge upon people of common intelligence, the public utility and importance of a well conducted newspaper. Its advantages are too apparent. No town, village or city, can ever rise into note without this necessary appendage, to give it character and consequence The property of every man owning real estate in town, is increased in value double the amount of subscription, by the lication of a good NEWS PAPER. It invites immigration: people at a distance are able to form an opinion of the advantages our location present to the enterprising merchant, manufacturer, professional or business man. things are sought for by persons at a distance more than by those among us, and they can never, arrive at a thorough knowledge of our true position, in any other way than through the medium of the Press, and without which a city can have no legitimate claim to respectable a matter of duty, for every honest man to give a matter of duty, for every honest man 10 give it his hearty support; it is, in fact, an evidence of a lack of intelligence, or want of taste for knowledge, for a man not to take a newspaper, he appears willing to remain in ignorance of those very things which most deeply concern his best interests. Look to the families of those who subscribe for a paper their children are who subscribe for a paper, their children are who sunscribe for a paper, their children are intelligent, they have a general knowledge of passing events, and the history of the times, that others do not possess.

In fine, the REGISTER will be made a useful

FAMILY PAPER, useful to the husbandman and to the mechanic, and a welcome visiter to the Ladies' Parlor. The Literary department will be blended with moral and instructive tales. essays, &c. With this brief exposition of our course we ask for public patronage.

DR. DUNCAN'S

EXPECTORANT REMEDY. FOR CONSUMPTION.

OLDS, Coughs, Spitting of blood, Bronchitis Difficulty of Breathing, Asthma, Pain in the Side, Breast, and Chest, Whooping Cough, Croup, and all diseases of the Liver and Lungs-We are all alike liable to disease—and death is the certain lot of all that live and have a being, and although the latter cannot be averted, still the former may by the power of medicine, be removed, or rendered less painful to the af-flicted. There is one disease however, which seems for ages to have defied the power of the healing art—the learned faculty have in vain attempted to arrest its fatal progress, by the ap-plication of remedies within their reach, or known in their practice—but CONSUMPTION has lefied their united skill. It has stalked forth with impunity, gathering in its cheerless embrace a friend from every circle, and a member from every family, casting gloom and darkness over the place of its visitation. He then, whose labors have brought forth a medicine which in many cases; will arrest the progress of this disease, and which will also AFFORD RELIEF in the most stubborn and hopeless should be regarded in the light of a public benefactor. It is confiin the light of a public benefactor. It is confidentally believed that DUNCAN'S EXPECTORANT REMEDY will do this. Hence it is presented and recommended to the community. This medicine immediately pulliates and relieves the disstressing cough causing a free and leave expectantian; stopping the heatin force and lieves the disstressing cough causing a free and easy expectoration; stopping the hectic fever and night sweats, healing the ulcerated lungs, and arresting the fatal progress of Consomption, at the same time, strengthening the weak and debilitated regulating the bowels and producing quiet rest and sweet repose. This "REMEDY" can be relied upon, to do all that lays in the power of medical aid, being used in the private practice of the late Dr. Duncan, Professor in the Injurgity of Edinburg. for unwards of sighteen University of Edinburg, for upwards of eighteen years, by which thousands have been restored to perfect health. It is not to be understood that the "EXPECTORANT REMEDY" will cure all cases of Consumption; this it will not do. But while there is life there is hope, we would therefore advise all to use this medicine. When the case is incurable, it still proves a blessing to the sufferer; by giving him ease and strength, relieving the cough, and choaking of phlegm, to This alone is a consolation to the patient, which thousands do not experience.

The 10th District.

We flattered ourselves, before the election, know a great deal may be attributed to Colonel said that we would say this of course. It remains still to be seen whether Lynn Boyd's speeches and the "tracts" can carry this district against Mr. Clay. We may be allowed here, to pay a Just compliment to the Whigs of Old Mason, and Bracken, Gallatin and Grant, who came to the work, without thinking that it would do as well in November. We cannot choose, but add a word of regret for the condition of Old Boone May she be herself again in the fall. We have faith, that when they have an opportunity of voting for Henry Clay, she will be among the foremost. In every other county in the district, the Whig vote has been larger than usual; it would seem therefore unjust to complain of them.

This is the laguage of the Old North State. Our next door neighbors of the Hoosier State, too, have wheeled into the Clay line, in a manner, exceeding our fondest hopes, saying to Kentucky, you may do as you please; but we are for Clay and the United States. From the Cincinnati Gazette. Licking Valley Register. If I am not mistaken our city papers have

been very remiss in extending the courtesy to a neighboring print.
The Licking Valley Register published in our sister city Covington, Ky., has recently been enlarged and presents an appearance not in the least behind any of our own. R. C. Langdon, Esq., the brother of our very estimable fellowcitizen, E. P. Langdon, deserves much credit for his industry and perseverance, in bringing this paper to its present position, against many difficulties. Aside from mere personal considerations, the high and moral character of the "Register," and the ability with which it is conduc-ted, claim for it an extended circulation.

To our business men it affords means of extending condmunication with the interior of Kentucky, by way of advertising, which should be better improved. I hope this brief notice may attract the attention of some who perhaps are ignorant of the existence of a paper of A FRIEND TO MERIT. so much value:

We plead guilty. Our friend Langdon has improved the Register in every way, and we should have noticed it long since. Better late than never. culation of the Register, for it is an able defender of whatever may strengthen morality or elevate the character of the people. A paper of this kind may be an educational help-mate at the hearth of any family. It will do good wherever read.—Editor Cin. Gaz.

To whom we are indebted for the above kind and friendly notice, contained in the above comnunication to the Cincinnati Gazette, we know not. Such a notice was as unexpected to us as it was cheering to our feelings—and gratefully do we acknowledge the favor: at the same time we would return our sincere thanks to our estimable friends of the Gazette for their approbatory remarks. The good opinion of our Editorial brethren we hold in no light esteem.

The suggestion made to the advertising ommunity, we hope will not be lost on our thriing merchants of Covington.

But here is the letter, read for yourselves.

From the N. Y. Evening Post. [CONFIDENTIAL.]

Sir: You will doubtless agree with us that the late Baltimore Convention placed the Democratic party at the North in a position of great difficulty. We are consequently reminded that it rejected Mr. Van Buren and nominated Mr. Polk, for reasons connected with the immediate annexation of Texas; reasons which had no relation to the principles of the party. Nor was that all. The Convention went beyond the authority delegated to its members, and adopted a resolution on the sul ject of Texas, (a sub- back." ject not before the country when they were elected, upon which, therefore, they were not instructed,) which seeks to interpolate into the party code a new doctrine, hitherto that Judge Owsley would get a majority in this unknown among us, at war with some of our District. We are disappointed however. We established principles, and abhorrent to the pinions and feelings of a great majority of Butler's popularity in this region; but it will be Northern freemen. In this position what was the party at the North to do? Was it to reject the nominations and abandon the contest, or should it support the nominations, rejecting the untenable doctrine interpolated at the Convention, and taking care that May Day.

The citizens who now come up to the work, J Hathaway. their support should be accompanied with such an expression of their opinion, as to prealternative has been preferred, and we think wise'y; for we conceive that a proper expression of their opinions will save their votes from misconstruction, and that proper efforts will secure the nomination of such members of Congress as will reject the unwarrantable scheme now pressed upon the country.

on this subject as we do, we have been desired to address you, and to invite the cooperation of yourself and other friends

The Convention of dic tators thought it important to concede something to the Southern democracy. Polk was known to them as a Texas, and a Free Trade man. READ WHAT SHERMAN'S LOZENGES HAVE DONE.

R. DAY, boot maker, No 28 Tillary street,
Brooklyn, suffered greatly for eighteen
months with emaciation, debility, sickness of the stomach, loss of appetite, shooting pains in the bowels, his stomach, rejected almost all kind of food, except sugar. He had been attended by various physicians, and for two months by the professors of the University, and all to no pur-

On reading Dr. Sherman's Book descriptive of the symptoms of worms, he thought they met his case; so he purchased a box of Sherman's Lozenges. A few doses brought away, as he judged, about two quarts of worms, and entirely cured him. A multitude of similar cases migh be mentioned where children and adults had suffered all but death from worms, and nothing gave relief but Sherman's Lozenges.

Coughs, Colds, Asthma, Whooping-cough, and even Consumption, are all sooner cured by Sherman's cough Lozenges, than any other known remedy. They allay the tickling in a few se-conds, and enable those afflicted with the most harrassing coughs to sleep whole nights. The Rev. Dr. Bunbar, Rev. Mr. Forrest, Rev. Dr. Eastmond and hundreds, thousands can attest to their happ / virtues.

Thousands can testify to the virtue of Shertation, lowness of spirits, sea-sickness and las-situde, from bodily or mental exertions, and for the wonderful properties of Sherman's Poor Plaster, which costs but 12 1-2 cents, and is a warranted cure for rheumatism and lumbago, pain or weakness in the breast, side, back, or any part of the body. Ask for Sherman's Poor Man,s Plaster, and see that the name and his fac simile with directions for use on the back. There are a great many worthless imitations hawked about. Remember to get Sherman's Lozenges and Plasters and Truss—none others, or you will be deceived.

TAIR TONIC .- Every human hair is a per fect tube, with innumerable ramifications the arteries branching along its inner surface, Through these vessels the blood, which imparts vitality to the hair, circulates, and when from instructions in pores of the scalp, the supply of lood and moisture is cut off, and the hair loses its gloss, becomes dry and harsh, and falls off .-- Now it is obvious that unless the pores of the scalp be opened, the capillary action of the blood restored, and the scalp and dandruff proceeding from suppressed perspiration removed, baldness must speedily ensue. Jayne's Hair Tonic will produce all these effects—nay more, it will re-clothe the bald places with vigorous and luxuri-ant tresses, and ensure a healthful and redundant growth of hair, as long as it is used in conf formity with the printed directions which accom pany each bottle, and to which are appended no nerous testimonials of its efficacy, from some o the most distinguished clergymen and physicians For sale at the Comb Store, No. 125 Main st Cincinnati, J. Also Chronic Constitutional Disorders will be Removed by this Preparation.

SAŇDS'S ŜARSAPARILLA. There are few persons in this reading country of ours who are not to some extent acquainted with the virtues of the Extract of Sarsaparilla. It has been prepared by very many persons, some quacks, and some not; but it seems now to be a well-admitted fact that the preparation put up by the Messrs. Sands of New York is altogether the most salutary one that has yet made its appearance before the public. Messrs Sands have devoted much attention to the subject for many years, and it is hardly to be doubted that they have brought their preparations as near perfection as can be achieved. We are glad to hear that they are reaping the reward which patient study and industry almost always secure. Their Sarsapa-rilla is now-eagerly sought after in every quarter of our country, carrying health to thousands.— This is the senson when Sassaparilla is used to

the best advantage, and we hear of numerous extensive sales for country use.
(New Orleans Weekly Tropic, June 3, 1843.) This universal preparation has performed some of the most astonishing cures of diseases that are recorded in the annuls of history, thus pro-ving conclusively it is capable of fulfilling the high aim and purpose for which it is designed.

Patient suffering for years from various chronic constitutional disorders, after trying different remedies, spending thousands of dollars in travel-ling and doctoring, and suffering all that human nature is capable of enduring, have, by the use of a few bottles, entirely recovered their health. Chronic Rheumatism, Scrofula or King's Evil, Salt Rheum and Ringworm, Ulcers and painful affection of the bones, Ulcerated Throat and Nostrils, Scorvy, Biles, Chronic Sore Eyes, Blotches and various cutaneous eruptions, are effec-tually cured by its use. Diseases having their origin in an impure state of the blood and fluids ebted for the restoration to health of my wife generally will be speedily and effectually removed by this invaluable medicine, as its operation is peculiar, and consists in removing the cause of diseases by entering into the circulation and pasremoved as it passes along the alimentary canal; hence the nationt will feel and know the sensible operation of the Sarsaparilla from its curative

Sands—Gent;—My daughter, aged six years, was attacked with the hip disease when two years old, and then since then she has been growing gradually worse until recently, and her suffering at intervals was most painful to behold, and baffles all description. The head of the hip bone was thrown entirely out of place, after which matter or puss formed in the socket of the joint, and for many months in succession she was entirely deprived of all natural rest. She was reduced to a mere skeleton and very often exclaimed, "Oh, mether! I wish it might please the good Man above to take me to himself." It

Though His bles-sing and your instrumentality, my child livesyes, is restored to perfect health, and is a living monument of the efficacy of your health restorwithin our reach, had the bone once set, had it blistered and purged, without effect.
