Pointless their arrows upon their bow, I've nothing to fly or to fear, For God-let the envious archers know-Will save me and succor me here!

The deep foundations in Zion laid Are fix'd, the defence of the pure; And here are the hopes of the righteous stay? And all their estate is secure. In his own Temple the Lord they hymn Though heaven itself is his throne; He shines from between the cherubim In words of salvation made known

To the blest House of the Lord below That holds his free Spirit within,
How mournfully joyful the pilgrims go
Forsaking the kingdom of sin!
To prove their faith and their love to try They labor in sorrow and pain,
Till pure and immortal they mount on high, And never shall sorrow again.

Amidst the darkness of Providence, The deep and unknowable ways, God lighteth his face on all his saints, And guardeth their passage by grace But on the rebels his snares shall fall And bind them in lasting dismay, And storms of his wrath pursue them all, And drive them forever away!

IMMORTALITY. BY J. B. THOMAS. Immortal?-aye, within that frame Thou hast a deathless soul, That can defy devouring flame,

Which death cannot control,

That scoffs at desolation's power, And triumphs in destruction's hour. Immortal ?-Oh! to reason bark! That light within thine eye
Tells of an heaven—enkindled spark, Duration can't destroy; Those aspirations in thy breast,

Shall not within the grave find rest. Immortal ?- ah! to Nature look, Go learn a lesson there, Pore o'er the pages of her book, The truth is written there.

Could He who gives the vernal skies Ordain that man for ever dies? Immortal?—yes, immortal youth Comes at the trumpet's call: It is this vast momentous truth Strange import gives to all We do, or say, we think, or know,

While in this transient scene below. Thou heir of everlasting life! Though doomed on earth to roam The child of sin, and toil and strife, Death shall conduct thee home,

And thou shalt from the grave arise, To claim thy birth-right in the skies SABBATH.

Hark! the temple's solemn chime! 'Tis the holy Sabbath time! 'Tis the day forever blest As the Christian's time of rest. Hark! the gentle invitation To repose and adoration! Something in the Sabbath toll Soothes the mind and wins the soul; Telling men of Heaven's care, And attuning hearts to prayer.

Hark! the sounds go up to Heaven, Whence came down the precious leaven, E'en as happy earth should try Songs responsive to the sky. Softer seem the winds to blow. Calmer seems the earth to grow, Balmier the breath of day, Holier the sunny ray, Brighter seem the arched skies, As the sounds of prayer arise

'Tis the rapt and solemn pause Of the Great First-guiding Cause !-Who from mighty labor staid, When the beauteous world was made When the land, in verdant pride, Rose the waters to divide, When the Light broke at "The Word," And first life in Eden stirred, Then He spoke, as there he stood, "It is done, and it is good!"

Holy Sabbath! Let us pray New returnings of the day,
From the ills of carking care
Saddened thought and dark despair,
Mortal things that fret the soul Till it sinks in their control, From the blight of stubborn will, Holy Sabbath save us still! Hark! the temple's solemn chime!
"Tis the holy Sabbath time.

OUR HOPES ARE BRIGHT. BY G. F. BARSTOW.

Music-"To Greece we give our shining blades." Our hopes are bright, our prospect fair, And our hearts are bounding full and free; Our flowing songs shall fill the air, In praise of Clay and Liberty. We come!-We come! As swells in storms the rushing tide,

So beat our hearts for the nation's pride. The sun is bright in summer's sky,-So shines his genius' sparkling ray; His noble heart, his spirits high, Mark him a man of purest Clay. We come! &c.

His name, on History's brightest page, With honored men shall ever shine: Shall fire our youth, shall charm our age,

And live through all the years of time.
We come! &c. When the weak infant's hand can snatch From you blue heavens the orb of day, And bats the Eagle's flight can match, Then, slander's breath can injure Clay!

He stands—He stands, Firm as the rock against the tide, The nation's love, the nation's pride. SELECT TALES.

MRS. HEMANS. "Sie kennen mich Zar Halfte nur-ich habe muth."

SCHILLER. It was a warm yet damp evening in the middle of July, IS32; the morning had been wet, but some hours after noon the rain gradually subsided; the clouds parted, and allowed, here and there, a patch of blue sky to become visible, and now and then the sun become visible, and now and then the sun the shone out with summer brightness and summer heat; but its rays were partial, steeping in amber light the numerous rich green islands which seem as if they floated on the glossy bosom of Loch Gilly, yet leaving thick mists hanging gracefully, but heavily around the summits of Knocknarea and Benbalben. The tinkling of a bell came sweetly on the air. "Six o'clock! and she is not we taken a summit of the wealth that had placed you there—I was a bandon, to forget you! Herbert! Herbert bert, men worship gold more than they are themselves aware!"

"True, true—humiliating truth!" replied ly on the air. "Six o'clock! and she is not yet come," muttered Herbert Bayley, mending his sauntering pace. He had scarcely uttered the words when a small doorway, leading into the grounds of one of the many fine seats that are situate on Loch Gilly's delicious banks, was opened, and the next instant he held the hand of Ellen Trevor in

his.

"Have you waited long?" she whispered.

"Very long it appeared to me," he replied, smiling, "yet, if counted, I dare say not more than a quarter of an hour."

"Hush, dear Herbert, hush!—something."

He drew her arm within his, and, after walking to a little distance in earnest converter the face of our fortunes," whispered the

"You are far away from the sort of courage I speak of," said Ellen. But what I mean is, the defend ourselves. But what I mean is, the only courage that befits a woman—the conrelation of the desired as the conrelation of the c age that enables her to 'dare and to suffer,' to face danger, and it may be death, not for wreath, nor victory, nor spoil, but for the

sake of those whom her heart loves. "And do you say that all women are gifted with this attribute?" questioned Herbert. "That I cannot answer for: but I would in return, ask you, 'Do you doubt that it is possessed by any of us?'

"Danger and death, Ellen, these are awestriking words, and do they not bring awestriking pictures to your fancy? I can scarcely believe that the most fond hearted woman could brave them, for, as I said before, woman is, by nature, timid and hopeless;" and he looked at the feminine race of his companion-a face pale as marble with the dread of being detected holding an interview with a discarded lover, and felt convinced that he had spoken justly. He little knew how wholly woman's love can conquer woman's weakness; he had yet to learn

"What marvels can be done By strong affection."

"If you have this courage," he resumed "why were you so agitated when we met? Why does your hand tremble even now in mine, and the slightest sound send the blood from your cheek? For my sake you are here Ellen?"

"But, Herbert, you are in no danger," she said, impressively. "My presence this evening may give you happiness, but it is of no actual consequence or service to you, therefore I am not sufficiently absorbed to be able to put away my selfish fears; but were you in danger, every thought of self would be lost in all-engrossing thoughts of you."

The merchant's son gazed with deep and

grateful tenderness on the face of the ingeniuous and trustful girl as she thus undisguisedly expressed the true sentiments of her

Why should I remember what all others have so well forgotten? 'Tis nothing now, that he was a little while ago the trusted of thousands— that his richly freighted argosies swept the sea-that his son was smiled upon by Mr. Trevor, even thy haught sire! Whilst the lovers conversed, the sky had gradually resumed the sombre hues of mornning, without its rains; the sun again hid his face, and the mists rested heavier and heavier bove you, because my father is wealthy and yours now poor? True, these stealthy meet the last words we have recorded, a flash of lightening streamed vividly forth, kindling up the lake for an instant into the appearance of a sheet of flame.

Ellen clung to Herbert with at once the tenderness and dependence of a fond-hearted woman, instinctively clasping her delicate arm around him as if to shield him from the fiery tempest, yet seeking shelter for herself under his. Nevertheless, she was not the one to be terrified beyond herself by a circumstance of the kind, for she was of a trustpossessing those attributes. It is as much ful and up-looking nature, and never lost woman's nature to fear as it is man's to be sight of the calming conviction that not a fearless; if both were equally brave, we hair of our heads can be scathed, save by would see women girding on the sword, and Divine permission. The interruption to their striping us of half our laurels; and dream discourse had been so startling and so awful,

"Awful signs in the heavens, master," he such a storm: Sligo is a 'city of the dead' in the time of contagion."

The progress of the Asiatic pestilence. since its first appearance in Ireland, had been tremblingly noted by the inhabitants of Sligo, as its situation in the midst of low and unhealthy marshes rendered it a "lazar house" of disease when visited by any dis-temper. Herbert and Ellen had sometimes poken of the improbability of its being left nmolested by this awful visitation, but the subject was so painful to the latter, owing to the town of Sligo being Herbert's only place of abode, that he lately endeavored to avoid the superstition of his craft. Satisfied with tened forward. Though the subject of the cholera, as I have just observed, was latterly forgotten by one of them. Though Ellen spoke not of it—for it is horrible to hear oneself speak of an apprehended evil-yet she thought of it in her sleep, on her awakening—and in her earnest prayers; and, whilst the sailor was speaking, Herbert felt her steps linger, and her arm cling closer to his, as if she fancied the dreaded contagion save when the dead-cart rolled through them, had already reached hapless Sligo, and that fraught with danger.

"Go now, Ellen, hasten," said the merthe park. my own. my - Go, go, it is dangerous "To-morrow evening at the same hour,"

parted. "It is come!-the dreadful enemy has arrived!" said the bankrupt merchant's son, as he drew Ellen Trevor's arm within his own had witnessed their interview the preceding evening. The stolen hour passed rapidly away, more rapidly than it had ever passed before, though laden with agony. "Twere vain to tell the fervent vows that were exchanged, or the contending passions that tore the breast of Herbert, as, one moment, he condemned himself as unmanly and unprincipled in thus stealing a child from her duty; and the next he exclaimed, in strange contra diction, "But such is the weakness of the poor human heart, Ellen, it is a wild and wayward thought, when I ought, yet cannot restrain, but I think I could not die in peace unblessed by you, unblessed by your pres-

from, would you fear me?" The maiden spoke not: to such a query the heart, not the lips can reply; and Herbert

held-it seemed to say,

"Fear you? there dwells no fear with love!" Her mute eloquence was only half comprehended by her lover, and even had he understood it in all its feeling and fervor, he would still have remained unconvinced, still have doubted her power to act up to her professions, if the trial came. Men are slow to believe, until they have had a living example before them, that "the starlight of woman's devotion shines brightest in the midnight of adversity.'

brow, how dared I longer cherish the dream "Forgive me, Ellen! I am a fool and a madman!" exclaimed Herbert Bayley: "forive my wild thoughts! You have been a pattern of fidelity to a ruined man, but I should not forget that you are still a woman, -a timid, helpless woman. Nay, dearest, look not thus! I doubt you not, your truth and constancy I doubt not, but I have talked to you as if I expected that you should be as brave as you are true!"

Herbert was wrong in thus separating affection and courage; strong affection produ-

ces strong courage. Evening after evening thus met the lovers, but each interview became gradually more brief and hurried than the last, as the pestilence rapidly increased, and there were new predautions daily taken to keep it within the walls of the devoted town, around which, at length, there was a line drawn, in order to cut off all communication with the country; and, in the words of an accomplished tourist, "those who attempted to fly were driven back as if into a grave." This was a fear-ful blow to Ellen Trevor—to see Herbert even for a few moments every evening-to hear him say, "I am still untouched, I am still safe," was a strong consolation, notwithstanding the intense anguish of each parting, for, although neither of them expressed their sentiments, both felt that perhaps they were taking their last farewell! They had now recourse to written communication, but this was of short duration; one letter, full of tenderness, courage, and hope, was pressed to the grateful heart of the maiden, and no more! An agonizing silence followed, which brought the dreadful conviction that Herbert was at length numbered amongst the victims of the fatal visitation. We may not dwell upon the horrors that accompanied this idea; incy portrayed the beloved one dying, and perhaps deserted! And this was by no means an improbable conjecture; the appalng accounts that had already reached her ally sanctioned it; friend perished after

riend, and the hireling fled from his employ-

Death alone seemed to exact universal obedience! It is not in the heart of a truly loving and devoted woman to stand back willingly from an object of her affection in the hour of danger and distress. Ellen had said she had courage for such an hour, and she said right. "In the sacred presence of God and our hearts," she mmurmured, "we promised to love and cling to each other till death; my vow is broken if I desert him

The strong man's heart was touched by this moving appeal. Still, he considered it his duty to resist it, and to endeavor to impress upon the maiden the risk she would t; and now, in reply to the sailor's remark, run by entering such a sepulchre. But he reallied him with affected cheerfulness on reasoned in vain, for when did such reasoning ever avail? She thanked him for the kindhaving made his observation, the man has- ness of his motives, but she urged him with passionate earnestness, to think not of her danger, for she had no fear, but to think of seldom alluded to by the lovers, it was not her dying friend. "The heart is wise," says some poet, and it is eloquent, too. The hear of the young maiden pleaded in its own fer-vid eloquence against the cool calculations which the head-wisdom of her opposer put forth to discourage her: and need we say she conquered? With eager and trembling steps she traversed the desolate streets-desolate, or a couple of pallid beings hurried past, she would fain detain him from a spot so bearing a newly-made coffin on their shoulders. MORAL DEPARTMENT.

From the Courier and Enquirer. THE SABBATH.

The venerable Dr. Nott, of Union College, recently delivered an eloquent address of an hour's length, to an audience of four or five thousand, in the N. Y. Broadway Tabernacle: his subject, the institution of the are called into exercise. Here all is hushed Sabbath, as adapted to the physical, intellectual, and political condition of man. He said, tual, and political condition of man. He said, equality. All distinctions except those of the wide field of nature, from the loftiest virtue and vice are unknown; and every asntellect to the poorest laborer,-nay, to the last dray horse on the canal, were interroga-ted on this subject, it would return no equivted on this subject, it would return no equivocal answer. To each of these without the influences entirely abolished, the moral world rest of the Sabbath, life would be materially shortened; and while it lasted would be a curse rather than a blessing. Even pagan nations have learned the necessity of stated intervals from labor; we find from history, intervals from labor; we find from history, that very many of them divided time into periods of seven days, making the seventh a day of rest.

Misery never sprung from obedience to the physical or moral laws of our being. It always follows disobedience; and whenever misery does exist, it is sure evidence, that some law of God has been violated. Apart from that one act, which brought death into the world, suffering is be accounted for, that animals in a wild state enjoy life and health, till they have filled up the measure of their existence while only moiety of the human race arrive at maturity It is manifestly not owing to the greater perfection of their constitution. The organiza-

tion of man is more perfect than that of any other creature on the globe; still one fourth of the human family die under two; one third under three; and one half under five years of age. This is not owing to the apostacy. Before the flood men lived many hundred years; and in the time of Moses, more than a hundred; but the period has since been greatly diminished, in consequence of the violation of nature's laws. Intemperance for example, shortens the age of man eleven years. But this is only one of the

THE VITAL ADVANTAGE OF A DEFECT!--Mons. Beriot, being an eye-witness of an Indian battle, caught the general spirit of the affray, and, as he afterwards said of himself, "fought like a famished lion!" when, unluckily, his pistol snaped in the face of a Sioux warrior, who struck nim a blow that felled him to the earth. Stepping lightly over the form of his prostrate foe, the savage grasped a knife in his right hand, and seizing the luckless Frenchman's hair with his seizing the tuchies a comment petrified with astonishment and horror. POLITICAL.

From the National Intelligencer. Mr. James K. Polk.

As an American, influenced by the interests of my country rather than by party feeling, it does appear to me most strange that any portion of the people of the United States should for an instant hesitate between such a statesman as HENRY CLAY and so ordinary an individual as A good conscience in keeping the Sabbath, and so university acknowly acknowledged, to take up one said the speaker, elevates the character of who has given no evidence of political sagacity.

The patriot would not rejoice in the result? whom his party worshipped as an idel. One of ternal improvements. Let us see what were the opinions of this obscure candidate for the presidency on this subject—of him who has him-self said, "I challenge the newspaper press to pick out the act, the single act, upon which I

In a speech delivered by Mr. Polk in the Legislature of Tennessee in 1824, on a bill to incorporate the Murfreesborough Turnpike Company, "he spoke of the propriety of such works being constructed by the State or the General Government, and said that the question with regard to the powers of the Government to make internal improvements had been settled at the last session of Congress," &c., In his circular to his constituents, dated 10th of May, 1825, he says: "It (the power to make internal improvements by the Government) has been a question long and ably controverted by our wisest votes in Congress on questions of internal improvements from 1827 to 1835 he is recorded as being in the negative, or in opposition to the appropriations and bills for internal improvements with one solitary exception, which was a bill granting lands to Alabama to aid in constructing a canal round the Muscle Shoals, on which he voted on the affirmative, because this work was near the district he represented, and he feared the displeasure of his constituents. Thus on internal improvements he has been pro and con. according to the changing opinions of his party, or as his personal interests led him. But his political inconsistencies are not confined to this nestion alone. On almost every other measure f policy his principles, or rather his opinions, for principles he does not seem to be influenced by, he is equally unsteady and fluctuating. The State Bank Deposite system was at one

time a test of his "democracy," and he advo-crted it with all the ability he possessed. In his report as chairman of the Committee of Ways and Means of the House in 1834, he declares that "the State Banks are fully competent to perform all the services which the General Government ought to require in the collection day of rest.

The experience of the French nation, during the short but frightful triumph of Infidelity, when the Sabbath with all its hallowand associations was abalished and when to the Sabbath with all its hallowbanks "are as safe as any other description of a-gency could be;" and "as regards the alleged in-competency of these banks as fiscal agents, the manner in which they have performed and are performing is these duties must remove all doubti. It e no longer (he observes) a question of doubt wh ther they can with facility and tive on this subject. The folly of this at-tempt to change the ordinance of Heaven, that convenience may be purchased at too choed in thunder throughout that bleeding dear a rate!—God is the Supreme Ruler.— all other duties which, as fiscal agents, they may be required to perform." Now, what says this very consistent politician in 1839, of the very banks whose safety and competency he had pre-viously lauded so highly? In an address published in that year he asserts that the Bank of the United States had been tried and proved faithless. The State Banks had been tried and provhe not then assuredly avenge the desecration ed faithless." "It has," he says, on another or he not then assuredly avenge the desecration of the Sabbath, and visit the nation for this national sin? What reflecting man can doubt that our destruction is drawing near, unless, as a nation, we repent of this iniquity, and turn to the Lord with our whole heart?

he has never changed. These tergiversations not only prove an absence of principle, but a lamentable want of that penetration, fore-thought and sagacity, which characterize the profound statesman, and the man of deep searching intel-lect. It is not the nature of a great mind or candidate for the Presidency, whom his political friends are endeavoring to palm upon the people as one entitled to their suffrages, from his uniform and consistent adherance to principle, and the splendor, of his talents and services.

I examining and comparing the various revenue bills, I have become convinced that the doctrine of discrimination for the protection to American industry is not only equitable and just, but that it is the true policy of this Governmen and the only policy by which this Government is to maintain a high and independent stand in the great family of nations. The benefit resulting from the tariff of 1842 is my strongest argument on this point, and, in my opinion, ought to convince every candid and unprejudiced man. I have become convinced of the necessity and expediency of a National bank, by taking a retrospective view of the times while a National Bank was in existence, and contrasting them with the times we have experienced for the last five years; and I am candid in saying that I think every man that will look back for the last six years, and bring to mind the bank failures and shinplaster speculations, will be forced to all party legislation while good laws received the the same conclusion that I have been. In reference to the constitutionality of a National hank, I have concluded that Washington, Jefferson, Madison, Monroe, Marshall, (and a host of others,) are sufficient authority for me to yield

On examination of the deeds of cession of the different States of their wild lands to the General Government, for the purpose of paying the expenses of the Revolutionary war, I have also become convinced of the propriety and constitutionality of distributing among the States the proceeds of the saies of the public lands. I have formed my notions of the propriety of this measure from the terms of the deeds of session; and my views of its constitutionality have been formed from the reasoning found in the messages of General Jackson and Mr. Van Buren, both of whom, I confess, are much better qualified to judge of its constitutionality than myself, and usands of others.

These, with some other public measures, are my reasons for renouncing modern Democracy, and joining the Whigs in support of Mr. Clay and Whig principles. It will be remembered by some, perhaps all, that on the passage of the bankrupt law, the modern Democrats were loudest in its condensation, yet it is notorious that they were in the front rank in availing them-selves of its benefits, and I am confident that in this part of the State the beneficiaries of that law are two to one among the Democrats. In publishing this my renunciation of Democracy I wish to be understood that I have nothing in expectancy by way of office, for my policy is that when you get a new scholar, always to put him foot, and let him spell up. In accordance with that policy, should I be so fortunate as to spell id, and thereby be elevated among my fil low-citizens, I shall always be thankful that there lived such a man as Henry Clay; for I am free to acknowledge that the discussion of his measures is perhaps the only thing that could have opened my eyes to the true interests of my country-being, like Ephraim of old, joined to my idols-i. e., the idol of Democracy WM. H. KIMBLE.

P. S. Among the prominent reasons which have operated on my mind, and influenced me to a renunciation of my adhesion to modern democracy, I will add, that Mr. Polk's course in reference to the pension laws has had great weight with me. It is charged against him that he has voted five times against giving old Revo lutionary soldiers a reasonable compensation for the blood and toil expended by them in the contest for independence; and this charge is met on the part of the Democratic press, by silence. I call on my Democratic friends to notice this-to pronounce on the Republicanism of Mr. Polk's course—on its justice and its honesty.

Duplicity on The Tariff.

Now to show the knavery of this Ryerson, and the infamous fraud he was perpetrating on the Mechanics and Laborers of Newark, the Daily Advertiser simply turned the debates in the late Constitutional Convention of New Jersey, wherein this very same distinguished Democrat thus argued in favor of a Senatorial check on the nonular will of the moment.

Mr. RYERSON. "It is always safe to refer to the lights of experience: and that teaches u that this arrangement of the Senate is a salutar power, and tends to prevent hasty and unstable Legislation, and prevents any sudden changes by

a political revolution.
"Look at New York in 1837, when the Whigs swept the State like a tornado, and had a ver-large majority in the Assembly. How stood the Senate? Every Senator elected was a Whig but the previous Democratic majority maintained the ascendency of that party, and prevented

support of all.
"So in Congress. By a sudden change, a large majority of members returned to the House of Representatives last winter was Democratic, while the Whig Senate still remained; and the people of New Jersey already see and feel the beneficial results of it in the continuance of the Tariff -although I do not wish to be understood as entirely approving of the present Tariff. There are many objections to it: but, instead of being laid on the table by the party in the majorit of the House it should have been swent by the boars f they had had a majority in both Houses. and if had not been for a Whig Senate." Can such cheats as this prosper? Ought they to do so? Think of it, Working Men!

TARIFF-The rule of three. It is recently stated, and stands uncontradic ted, that the State of Massachusetts consumer nnually products of other States to the extent of forty millions of dollars, of which seven mil lions of dollars are paid for breadstuffs. Now, if one of the New England States takes of Southern and Western produce to the extent of forty millions of dollars, what do all the New England States take per annum? I have no means before me of knowing, but, as the manufacturing business is carried on to some extent in Connecticut, Rhode Island, and Vermont, I guess that all the New England States take at least sixty millions of dollars' worth per annum and we all know the quantities are regularly in-creasing. Well, if the New England States take at least sixty millions of the products of the soil under a productive tariff, what amount vill they require under an opposite policy? have no means of knowing precisely, but I should say that under the latter disastrous policy they would not require more than about twenty mil ions worth of the products of the West and South, because from one-half to two-thirds o the operatives would be thrown out of employ. and consequently be without the means of pur chasing. In view of these things, it behoove the planters and farmers of the South and West

to investigate the subject of the tariff before they again go to the polls to vote for member of the next Congress; and if they will do i without prejudice, they will, I doubt not, arrive at the conclusion that the protective policy enhances the value of their estates. From the Baltimore Patriot. Shocking Depravity.

The Locofoco Convention held in Cumberland (Md.) on last Saturday week, was disgraced by banner, which was carried in it by the delegation from Hampshire county, Va. Although all who contenanced this exhibition are in some degree involved in the disgrace attached to the authors of it, yet we feel some satisfaction even in knowing that it was not projected by the Locofocos of our own State. A writer in the Cumberland Civilian thus notices this banner, which must have excited the scorn and indignation of

every bonorable man who saw it:

Let the Prople know it!—That in the Loofoco convention, held in this town, on Saturday last, the party in their procession had a banter representing Henry Clay upon one side o it playing cards and drinking liquor, in other words, both gambler and drunkard. Upon the other side, in mockery of religion and religious things, there was a represenation of Theodore Frelinghuysen, with a Bible in his hand and up-I tain principles bought by the blood of men whose I

The locofocos dare not say any thing against Mr. Frelinghuysen; because they fear the indignation of the religious portion of the people; but they speak in their banners; and by them attempt to ridicule and sneer at the piety and life of one of the best and purest men that ever lived. We ask the people, they can calmly look on and see the best men in the country held up to scorn and sneers, because they possess all the virtues which the christian character? To the religious of all denominations we appeal, and ask them to say whether they will permit our Holy Religion thus to be derided and sneered at by a set o men, whose only aim is to get into power, by any means however unboly? From the days of the Grecian and Roman re publics, down to the present, there has been a constant inquiry in regard to the right of opinon; the right of equal liberties. I speak of the Grecian and Roman republics because, previous to their commencement, tyrannical power was at its highest pitch. Then there were but few that appreciated the rights and liberties which nature and justice granted them, and those that did appreciate them were educated and more enlightened than the mass, and it was their interest to keep it among themselves. But as edacation has been disseminated among the mass bought by the blood of heroes, whose names and of the people, and as they have become more enlightened to their own interests, it has created n the breast of every individual a constant inquiry in regard to his inalienable rights. There, numbers of her citizens were killed and wounded. Can it be disputed that this was occasion- treat, and the innocent indulgence of those was sown by a political society called the Native Americans. And no individual will hesitate to say, that if such disgraceful excesses be permitted to invade our happy land, they will not only cause the destruction of property and life, but will deluge our land with anarchy and dismay. What reflecting American will not strive for the honor of his country, rather than see it sink in disgrace? Let us consider—yes, on our own

by honorable means, and not by such disgraceful and dishonorable actions. Let us recollect that had it not been for that noble Washington's disinterested devotion to the welfare of his country, we might this day have been bowed down under the yoke of a tyrant. Let us reflect as did this noble patriot, that, on our course, in regard to the success of the republican policy, depends the welfare of future ages. Let us therefore, banish from our land all unworthy and disgraceful principles.

Is it an honor to our parties, our country, or our patriotic forefathers who gained our inde pendence, to disgrace our principles with riots, coon-skins, poke-stalks, and many other such unworthy additions which seem at first to rally us in the strife for our party; but are ever a dishonor, and often the cause of a defeat? Let us look forward to the time when this our happy country will produce the fruits for which it was created, when all evil will be met and crushed in the bud; and when this our independent nation will shine brighter than any other on the face of the inhabited Globe. And as the time is near at hand when the prosperity of our nation, for a number of years to come, will be trusted to the care and protection of one of our most noble citizens, may each individual strive for the success of his party; and may he, to whom this care is to be entrusted, carry out and maintain those principles which will accord with that Constitution which we so highly honor and revere, and which will be for the welfare of our country. Then should they prove to the interest, prosperity and happiness of our country, his party will and can but follow him whether his views of our policy are the same or not.

Now, I ask, can you not see, as I said in the outset of my remarks, that on party spirit, when not carried to too great an extent, depends the permanency of our government. Let us, then, sustain it. Let every citizen honorably strive for his party, and when it shall be the will of one party to rule and conduct the affairs of government, may the weaker be constrained and converted to the support of the opposite by its honorable and just motives, proved by its actions in protecting our principles of liberty and freedom. Then all can rally round the standard of liberty and shout victory over tyrants, kings, and lords, and protect our brilliant nation, memory are stamped upon the hearts of all lovers of liberty and happiness.

That Great Victory!!

Our democratic friends are crowing in a manner that threatens their health, about the victory they are a going to win at the Presidential election. They seem chiefly elated by the nomination of Silas Wright in New York for Governor. Some ninnies have told them that Silas Wright has strength enough personally to overcome the certain Whig majority in that State. This idea will lead them into sad disappointment, if they are carried away by it. The State election in Maine is encouraging to them, and as far as that State is concerned they have a right to feel encouraged. It will probably go for Polk-but it is by no means certain, seeing that a large portion of their vote was not cast in the recent election for Governor. In regard to the four largest States, New York, Pennsylvania, Virginia and Ohio, our Whig friends, and exultant Democratic friends, may set it down as cetain that the Whigs are doing-have been doing-and intend from this out to do, as much as the importance of their success demands at their hands, that is, all that's in their power, and that their efforts as to Ohio, and New York, will be crowned with success, they have not the slightest doubt. In Virginia the Whigs will succeed-and in Pensyuania, if they carry it for Polk, it will be because the Whigs couldn't heln it; for they are doing their very best. Don't crow so loud, so soon, brother democrats: your great victory will punish us enough after you win it. If Kentucky was as active as Ohio, there is no telling how far we would run ahead.

"Our neighbor of the 'Register' may prate tain it himself.

respect, nor to place ourselves upon the level of his long established fame."

matter how much more desirable it would be to from every part of the United States. contend with "gentlemen." Our Government must stand with the Whig system triumphant, or it must decline with these "gentlemen" triumphant. We may not be competent to tell a gentlemen when we see him; but this does not render us incompetent to see that our neighbor is greatly wanting, and, perhaps, might be improved and elevated from his present position by obtaining the "level" of any, even the lowest.

"All the Whigs are alarmed." The "Rally" says we are all frightened, he can see it in our countenances, &c. We rejoice that our countenances, without giving us the slightest trouble, can afford our democratic this source of rejoicing is left them. They cannot argue our alarm from any demonstrations which the people make. We confess that we are rather timid; but our timidity arises from the importance we attach to the success of our cause, and it will not have the least effect, be assured Mr. Rally, towards making us fight less energetically. The elections do not afford any reason why we should be alarmed, and we think our countenances are slandered, or misconstrued. They suppose we are alarmed at what they supposed would be the effect of the standers and personal abuse they have heaped upon Mr. rulers of the people is exhibited, beyond contradiction.

There have been regular sales of City were not in repair he must proceed immetricing. Clay. They proceed upon the principle that diction. nothing is too absurd for the people. Their motto is, never despair of making them believe or do anything, on account of its baseness; and, acting upon this motto, they have fought shy of the which, to circulate in the south, it assails the whole reliance upon denouncing Mr. Clay as a black-leg, sabbath-breaker, profane swearer, perjured man, and a murderer. We have a higher the other which is distributed through Pennsylland and the other which is distributed through Pennsylland and the interference of England —the facilities she has furnished, and the rapid movements of Mexico, a question has been prejured man, and a murderer. We have a higher opinion of the people. We rely upon convin and support the Government here in dafiance sented to the cabinet at Washington, what steps

States-because base demagogues stigmatize the the benefit of the overgrown capitalists, likely to great champion of that system as a "murderer." They hope to carry Kentucky, simply because They hope to carry Kentucky, simply because public domain, provided by our Revolutionary they believe the people of Kentucky ignorant, fathers as a sacred fund for the defence of our malignant and vicious; and if Whig counte- Republic, and gradually to be extended as homes nances furnish them any ground for hoping to carry Kentucky, after the election they will have to say, the "double-faced" rascals deceived them. We know there is a generous indignation burning in the bosoms of Kentuckians, produced by the unjustifiable means employed to defeat Henry Clay. We have seen this indignation, and the democracy will feel it, as sure as the sun sets. They avoid public discussion, because public discussion would show their want of principle, and they could not deal out these slanders-cut off from which the democratic leaders have nothing to say. Their course is disgusting and humiliating, but not alarming; it could not inspire hope on the one side, nor give alarm on the other, without considering the people base enough to do any thing; a sentiment which we repudiate, but which we believe is the sentiment of the democratic leaders.

Torch Light Procession.

The Whig Meeting and procession in Cincinnati, on Tuesday evening last was a most candidate for Governor. They must look elsesplendid and brilliant affair. From our side the city appeared to be on fire, and the streets not furnish enough by 20,000. lined with flames. The Straightout says, "A friend who counted the torches in procession, asserts that there were two thousand three hundred and ten, and there was not half the number that held lights. They extended five or six squares, ten, fifteen, and even twenty abreast. Long before the procession reached the Pearl Street House, the streets to the speaker's stand were completely blocked up; the houses in the neighborhood, including the Assembly Rooms and the Pearl Street House, were brilliantly illuminated, and densely thronged with the beauty It requires a majority to elect in that State. and fashion of the city, while at least a thousand ladies were in the balconies of the houses dnd the streets, listening to the eloquent discourses of Gen. Collins, of Maysville, and Mr. Telford, who addressed them and the whigs, from two separate stands at the same time.

"The sight was truly a splendid one-flags, banners, transparancies, flaming torches, and the cheerful countenances of thousands of whigs, give the surest indications of the heartfelt enthusiasm of the friends of Mr. Clay: and their determination to shake its very foundation, this heretofore strong hold of hard money, free trade and "progressive" locofocoism.

"The Glee Club interspersed their songs through the proceedings, and added, as they always do, greatly to the interests of the meet-

Great Mass Meeting of the Democracy.

It is a source of amusement sometimes to look over the Kentucky Yeoman, to see accounts they are to have one on the 5th of October: where, by a resolution of the Democracy of Scott, the President of the United States, and all HIS CABINET, AND EVERY DISTINGUISHED DEMO-CRAT IN the LAND is invited; to say nothing of resolution they speak of "our splendid, though incomplete victory"-which, they say, inspires them with the hope of carrying Kentucky for Polk and Dallas! Happy men! these democrats, whose powers of hoping affords them the enjoyment of anticipation upon such very slight grounds. Prudent men could not enjoy themabout 'decency,' but there is no decency in deception. The Mum Candidate. - Double Faces.

Surely nothing is too gross, in the way of in position, for those who direct the self styled democracy. They affect to disapprove of Mr Clay's frankness and freedom in publishing his views to the country; and when he writes two letters not at all inconsistent the one with the other; he is charged with exhibiting two faces. one for the North the other for the South. But when Mr. Polk, writes to Dr. Kane, of Pennsylvania, a letter clearly inconsistent, with all the recorded evidences of his political life, it does not occur to them that he is any thing but a candid politician. A committee in Pennsylvania friends so much pleasure. It delights us that and a committee of gentlemen in Mississippi have written to Mr. Polk for a distinct answer to the question whether or no he is in favor o leading objection to it. Sufficient time has elapsed; for these letters to have received an swers, but answers are not forthcoming. The game must be so played as to make Polk a protectionist in the North, and a most violent enemy of the present Tariff in the South. New York.

Our democratic friends seem to derive hope of carrying the State of New York from the fact that Silas Wright is the candidate of democra cy for Governor in that State. The party in New York do not calculate a great deal on this circumstance. The People of N. York are for the Tariff and against Texas, and have no special objection to Millard Fillmore, the Whig their present duty, and fortified themselves for where for votes to elect Polk. New York will

Vermont.

In this State the Whig cause is more trium phant than usual. The Whig candidate for Governor, is elected by about 6,500 over the democrat, and about 1500 over all opponents.-The Abolitionists have cast 5,000 votes and upwards—a large vote, more than ever before—and gressmen, and no choice in the Fourth district. The democrat receiving 500 less than a majority.

Maine. The democrats elected their Governor, it eems, by a considerable majority over the Whigs. and a small majority over all opponents. As far as heard from the democrats have gotten but in 1849. It may be, that more Whigs will be at the polls in November.

We have also a letter from one of the most respectable and worthy men of Kentucky, detailing an affair of Clay's that came off at the Blue Licks with a play actress. Mr. Clay's con duct with her was so open and outrageous, that the proprietor of the house had to send her off on Sunday morning, to prevent the ladies at the Springs leaving. A fit character this, for the idelatry of "all the morals and decency."-Ohio Statesman.

This "affair," has been the subject of much days. If Mr. Clay had to depend upon the ladies, who were then visiters at the Springs, and witnesses of his peculiar gallantry, for a certifi cate of good character, he would be very likely of expected Democratic meetings. In Scott to come out at the little end of the horn.—Cin. Enquirer and Message.

This is perhaps a bowshot in absurdity beyond any thing the slanderers have said before. Mr. Clay's "affair with the play actress," that the proprietor at the Blue Lick Springs was compelled the "noble democracy of Owen." In another to send her off! or the ladies at the Springs knows better whether this charge is true than one of "the most worthy and respectable men of Kentucky." What does be say? The Enquirer thinks Mr. Clay would fare badly in an attempt to obtain certificates of character' from the ladies of Cincinnati. How does the Enquirer know any thing about the ladies of Cincinnati? This beautiful story, we suppose is the most re-

A Happy Omen.

During the speech of Gen. Combs at New Haven, on the 4th a most pleasing incident occurred, which is thus alluded to in the report of the New Haven Courier;

"If we fail to elect Clay now [continued Gen. ted over a man like Henry Clay, there is no use in talking hereafter of rewarding public services. Look at the Pedestals upon which all the Presidents rose to power. George Washington, Tho's Jefferson, all of them down to Van Buren, whom the Democrats lately called from Lindenwald to New York to be pall bearer at his own funeral. Tyler we will not mention. But oh, where will Polk's pedestal be found? I tell you that the Democrats who may vote for him now will be ashamed to acknowledge it to their posterity, and He learns full late, the adage old, that "what they'il deny they were at home or voted at all; rather than confess to their indignant offspring that they voted for James K. Polk. Now look at the pedestal of Henry Clay, rising higher and higher for the last forty years. Aye, see him like an eagle with untiring pinion, soaring against the sun. (Here the audience were startled by the cry of "An Eagle, An Eagle," Every eye was raised towards the Heavens, and there, with outspread wings, the proud bird of our country seemed to pause as if delighted Rereiving kicks and promises, alter with the scene beneath him. Gen. Combs looked up and exclaimed—"Oh, proud bird of my country's banner, I accept the omen. Long, long may you soar in majesty above those banners waving over the land of the free and the home of the brave!") Gentlemen, I have said that these things did not come accidently. That bird did not come by accident to take the sentence from my mouth. I hail it as a happy omen.

The effect of this occurrence, as may well be supposed, was electrical, and the air resounded with the sudden and simultaneous shouts of the

The Green Mountain Triumph.

The Whig victory in VERMONT is overwhelm The whigs elect their Governor by a handsome majority over all opposing candidates -The returns received place Mr. SLADE more than three thou and votes ahead, nearly all of which is a gain upon the vote of 1843. The Whigs also elect two thirds of the State Senate, and, so far as heard from, have one hun-

dred and three members of the General Assem-

bly against thirty-four Democrats. The Senate is represented in the present Congress by three Whigs and one Democrat. Messrs. FOOT, COLLAMER, and MARSH, all good and true Whigs, representing the first, second, and third districts, are re-elected; and Mr. Dillingham from the fourth district, is certainly defeatedthere being no choice—his vote thus far exhibi-ting a loss of upwards of six hundred votes since

the last election, when he succeeded by a majority of less than three hundred. The vote now cast for Governor in one hun dred and forty seven towns of the State, compared with the vote of last year, presents the

following result. 1843. - 18,524 20,453 Locofoco - - 15.835 14,240 Abolition - - 2,378 3,293 This shows a Whig gain of 2,609, an Aboli-

FOURTH VOLUME. ENLARGED, WITHOUT INCREASE OF PRICE Published weekly, in the City of Covington,

Kenton County, Kentucky. THE LICKING VALLEY REGISTER, will be conit has heretofore been governed. Becoming more familiar with the people of Kentucky, and better acquainted with their local policy, and general interests, we shall take a still more active part in public affairs. We intend to give the proceedings of the State Legislature, and of Congress, in an extensive summary form also Intelligence of a general character, Foreign and Domestic.

Kentucky being an agricultural State, goodly portion of the REGISTER shall be allotted to the immediate interests of the Farmer, in the selection of such articles for publication as are directly adapted to our soil, climate, and agricultural pursuits. Information of this kind, at a suitable season of the year, is, to the husbandman matter of vast importance, and should be regarded as worthy of consideration.

The columns of the REGISTER will be open to an honest discussion of political principles whether Whig or Democratic. Whilst we arow Whig doctrines, we shall abuse no party for difwith us in opinion-the right of opinion should be held sacred to all.

We need not urge upon people of common intelligence, the public utility and importance of a well conducted newspaper. Its advantages are too apparent. No town, village or city, can ever rise into note without this necessary appendage, to give it character and conse The property of every man owning real estate in town, is increased in value more than double the amount of subscription, by the publication of a good NEWS PAPER. It invites immigration: people at a distance are able to form an opinion of the advantages our location present to the enterprising merchant, manufacturer, professional or business man. These re sought for by persons at a distance more than by those among us, and they can never, arrive at a thorough knowledge of our true position, in any other way than through the medium of the Press, and without which a city can have no legitimate claim to respectable tanding among cities. It becomes, therefore, a matter of duty, for every honest man to give it his hearty support; it is, in fact, an evidence of a lack of intelligence, or want of taste for knowledge, for a man not to take a newspaper, he appears willing to remain in ignorance of those very things which most deeply concern his best interests. Look to the families of those who subscribe for a paper, their children are intelligent, they have a general knowledge of passing events, and the history of the times, that others do not possess.

In fine, the REGISTER will be made a useful FAMILY PAPER, useful to the husbandman and to the mechanic, and a welcome visiter to the Ladies' Parlor. The Literary department will be blended with moral and instructive tales, essays, &c. With this brief exposition of our course we ask for public patronage.

On reading Dr. Sherman's Book descriptive of the symptoms of worms, he thought they me his case; so he purchased a box of Sherman's Lozenges. A few doses brought away, as he judged, about two quarts of worms, and entirely cured him. A multitude of similar cases migh be mentioned where children and adults had suffered all but death from worms, and nothing gave

relief but Sherman's Lozenges.
Coughs, Colds, Asthma, Whooping cough, and even Consumption, are all sooner cured by Sherman's cough Lozenges, than any other known remedy. They allay the tickling in a few se-conds, and enable those afflicted with the most harrassing coughs to sleep whole nights. The Rev. Dr. Bunbar, Rev. Mr. Forrest, Rev. Dr. Eastmond and hundreds, thousands can attest to

BENNETT'S ANTI-BILLIOUS PILLS, (a remedy which he has used in extensive practice for upwards of twenty years,) the subscribers have been induced to offer them in this way, not as a calch-penny nostrum, but as the best purgative preparation in the whole range of the Materia Medica.

If it was deemed necessary for the purpose of bringing these pills into more general use, numerous certificates of *Physicians*, and others of the most respectable citizens of the City and surrounding country, could at any moment be obtained, attesting their great superiority over most of the purgative preparations in common

These Pills are mild, though effectual in their operation. They act upon the secretions of the Liver. Kidneys and Skin.

They are alterative in their tendency, purifying the Blood, and correcting those morbid conditions of the system, which if not arrested, often terminates in serious disease. They are speedy in their effect, and in cases, where the bowels require immediate evacuation,

may be relied on with the greatest certainty. DIRECTIONS :-- As a mild purgative in Dys pepsia, or in habitual costiveness, take one pill on going to bed, and if it produces no effect, take another before breakfast the following morning-For a moderately active purge, take one every

hour, until the bowels are move For an active and speedy effect, take 4 pills at For children, pulverize a pill or two, and give

Consumption Arrested! NOTHER cure performed by Dr. Duncan's Experiorant Reproduct

Expectorant Remedy!

Mr. Phineas Tomlinson, near Adamsville Muskingum county, Ohio, certifies that his son aged sixteen years, was seriously afflicted with a disease of the lungs for three or four years; his symptoms were, slight cough, hectic fever, and night sweats, attended with a general debilitated state of the system, showing all symp-toms of going into a decline. Having used various medicines, but to no effect, as a last resort he determined to fry the virtues of Dr. Duncan' Expectorant Remedy, which he procured of the Agent in Zanesville; and Mr. T. says he is happy to state to the public, that the medicine actually did remove all disease from the lungs, and finally restored his son to perfect health; it now being upwards of nine months, and his

lungs appear to be perfectly healthy. Cincinnati, March 15, 243. Dr. Duncan-Health, the greatest blessing-O, but eleven months ago, this all important comfort was far distant from me. . I was taken down with a severe cold last 'pring, which set tled upon my lungs, and at length rendered my health so delicate that my physician lost all hope of my recovery. In this precarious situation I remained for seven months, without obtaining any relief; et the same time I was using all the and continued its use for sixteen weeks. The first bottle gave me much ease, and caused a but having so much confidence in the medicine Iscontinued to use it until it entirely removed every symptom of disease from my lungs. I am now enjoying perfect health, and feel ever grateful to you as a public benefactor. Yours, with gratitude and thanks. MARY PREBLE.

Tetters, Salt Rheum, Scald Head, Ringworms, pimples on the face, obstinate old sores, Barber's Itch, and all eruptions of the

ly according to directions.

GRIDLEY'S SALT RHEUM (or Tetter) OINTMENT. This article continues to attract the deepest atlention among all investigating minds, who take an interest in the advancement of medical cience. It is now universally admitted by the undreds who have witnessed its healing powers, that this admirable ointment will invariably cure all kinds of Tetter, Ringworm, Scald Head,

and cutaneous diseases generally.

The Dry Tetter. This disease appears indiscriminately in the different parts of the body, but most commonly on the face, neck, arms and wrists, in pretty broad spots and small pimples. These are gene-rally very itchy, though not otherwise troublesome; and they at last fall off in the form of white powder, and again return in the form of a red offlorescence, when they fall off and are re-

newed as before. newed as belore.

The Corroding Teller

Appears commonly, at first, in the form of several painful though small ulcerations, all collected into larger spots of different sizes and of various figures, with always more or less of inflammation. These ulcers discharge a thin, sharp, serous matter, which sometimes forms into small thin crusts that in a short time fall off; but most frequently the discharge is so thin and acrid as to spread along the neighboring parts, where it soon pro-duces the same kind of sores. Sometimes the lischarge is so very penetrating and corrosive as to destroy the skin, and on some occasions ever the muscles themselves.

There is another kind of tetter, occurring mos commonly among children. This species appears in the form of pustules, which originally are separate and distinct, but afterwards run together in clusters. At first, they seem to conain nothing but a thin watery serum, which afterwards turns yellow, exuding over the whole surface of the part affected, and at last dries into a thick crust or scab; when this falls off the skin appears red and sometimes broken, caused by the acrid matter.

The Ringworm.

This species of cutaneous disease generally appears in clusters, though sometimes in distinct rings or circles of very minute pimples, which at first, though small, are perfectly separate, and contain nothing but a clear lump, which, in the course of this disease, is excreted upon the surface, and there forms into small and distinct scales; these at last fall off and leave a considerable states of influencial states. erable degree of inflammation below-it stil continuing to exude fresh matter, which likewise forms into cakes, and falls off as before. The itching in this species of complaint is very troublesome, and the matter discharged from the

pimples is tough and viscid. Scald Head Is a cutaneous disease, thus characterized by small ulcers which appear at the root of the hair of the head, and produce a friable white crust.

No Injury.

The tendency of Gridley's Ointment is to bring out the disease from the system. It does not drive the disorder in, like many injurious arti-

fully applied, that in future we will warrant every bottle. Price, 75 cents a bottle. For sale in Cincinnati, only by SANFORD & PARK,

TOf all the cures that have yet been recorded. there are certainly none equal to the one mentioned, which plainly show the curability of Consumption, even in some of its worst forms: MRS. WIMER.

COR ANOTHER PROOF ADDED The cures performed by Wistar's Balsam of Wild Cherry, are really astonishing to the world. The following we have just received from Messrs. Joslin and Rowe, Druggists, in Newark in this State, to whom it was communicated by John Wimer, Esq. a citizen of Burlington, Lick-

ing county, Onio. Burlington, O. Dec. 1, 1843. Messrs. Joslin & Rowe-At your request I herewith transmit to you a statement of the case of Mrs. Wimer and child, as near as I am able to communicate, which you are at liberty to publish if you see fit, as I feel a desire to inform the world of the effects of the invaluable medicine called Wastar's Balsam of Wild Cherry, to which, by the Divine blessing, I am in-debted for the restoration to health of my wife

About five years ago Mrs Wimer was attacked with a violent cough, pain in the chest and side and symptoms of approaching consumption. During the interval from that time to some time in February last, she had been treated by eminent physicians from Utica, Sylvania, Homer, Cha-tham and Newark, and with only partial relie. of the most urgent symptoms. About one year medicines that it was in the power of my physician to obtain, but to no effect. My father the lungs, producing an alarming aggravation of happened to notice a publication of your valu-ble Expectorant Remedy, and immediately pro-cured three bottles for me. I commenced with a go one caught a violent cold, which seated upon the lungs, producing an alarming aggravation of all her previous symptoms. Her physician was sent for, and despite his best efforts the cured three bottles for me. I commenced using the medicine on the third day of last November, rant, and heetic, together with night sweats. rant, and hectic, together with night sweats, soon reduced her to a complete skeleton. In February last her attending physician deemed considerable discharge of thick viscid phlegm and matter: after using the second bottle, the discharge became so great, that I was alarmed; unanimously pronounced her to be beyond the called, and after deliberating upon her case unanimously pronounced her to be beyond the reach of means, and expressed their opinion that she could survive but a short time, one or two weeks at furthest. She was at this time entirely confined to her bed, and scarcely able to articulate, except in a whisper. Her daily paroxysms of coughing would last uninterruptedly from three to five hours, and so severe that we expected every paroxysm would be her last. The physicians in council pronounced her

> If the stomach to be incurably diseased. It was at this last extremity that we happen ed to obtain a pamphlet describing Dr. Wistar's Balsam of Wild Cherry, as applicable to lung affections. We immediately sent to you and procured a bottle, and commenced its use at eveing by giving her one taaspoon full, and such was the surprising effect that she was able to pass comfortable night without experiencing any paroxysm of coughing: and such was its ultimate effect, that, after taking five bottles, she was, contrary to the expectations of her physicians

of her sickness. JOHN WIMER. Yours truly, We regret the necessity which exists in cautioning the public against the many counter-feit preparations of Wild Cherry, which are fast overspreading the country, through the instru-mentality of a few unprincipled dealers, who, for the paltry gain of a few dollars, would palm off upon suffering humanity a miserable substitute of their own stewing, or some worthless article which they had bought for a trifle, to the manifest injury, and perhaps loss of life, to the per-son using it. SANDS'S SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF

THE SYSTEM, NAMELY: Scrofula, or King's Evil, Rheumalism, Obstinate Cutaneous Eruptions, Pimples, or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlarge-ment and Pain of the Bones and Joints, Slub-born Ulcers, Syphilitic Symptoms, Sciatica, or Lumbago, and Diseases Arising from an Injudicious use of the Mercury, Ascites, or Dropsy, Exposure or Imprudence in Life. Also Chronic Constitutional Disorders will be Re-

moved by this Preparation. SANDS'S SARSAPARILLA. There are few persons in this reading country of ours who are not to some extent acquainted with the virtues of the Extract of Sarsaparilla. It has been prepared by very many persons, some quacks, and some not; but it seem efficacy; nor will we hold any hope to suffering well-admitted fact that the preparation put up by humanity which facts will not warrant. THE the Messrs. Sans of New York is altogether the PROOFS ARE HERE GIVEN—and we solicit most salutary one that has yet made its appearance before the public. Messrs Sands have devo-ted much attention to the subject for many years, and it is hardly to be doubted that they have brought their preparations as near perfection as can be achieved. We are glad to hear that they are reaping the reward which patient study and industry almost always secure. Their Sarsaparilla is now eagerly sought after in every quarter of our country, carrying health to thousands.— This is the season when Sarsaparilla is used to the best advantage, and we hear of numerous

extensive sales for country use.
(New Orleans Weekly Tropic, June 3, 1843.)
This universal preparation has performed some of the most astonishing cures of diseases that are recorded in the annals of history, thus proring conclusively it is capable of fulfilling the igh aim and purpose for which it is designed.-Patient suffering for years from various chronic constitutional disorders, after trying different remedies, spending thousands of dollars in traveling and doctoring, and suffering all that human nature is capable of enduring, have, by the use of a few bottles, entirely recovered their health. Chronic Rheumatism, Scrofula or King's Evil, Salt Rheum and Ringworm, Ulcers and painful affection of the bones, Ulcerated Throat and Nostrils, Scurvy, Biles, Chronic Sore Eyes, Blotches and various cutaneous eruptions, are effectually cured by its use. Diseases having their origin in an impure state of the blood and fluids generally will be speedily and effectually removed by this invaluable medicine, as its operation is neculiar, and consists in removing the cause of diseases by entering into the circulation and passing through the general system. Where obstructions to its favorable operation exists, they are removed as it passes along the alimentary canal; hence the patient will feel and know the sensible operation of the Sarsaparilla from its curative

powers. The proprietors are daily receiving from the medical profession, the clergy, officers of justice, and numerous private citizens, ample and wilsuperior value and efficacy of this preparation .-To the poor it is furnished gratuitously, on sufficient proof being furnished of their worthiness. The following certificates from individuals who have suffered with Scrofula, in its severest form.

REMARKABIE CURE OF HIP DISEASE. New- York, July 26th, 1843. Messrs. Sands—Gent;—My daughter, aged six years, was attacked with the hip disease when two years old, and then since then she has been growing gradually worse until recently, and her suffering at intervals was most painful to behold, and baffles all description. The head of the hip bone was thrown entirely out of place, after which matter or puss formed in the socket of the joint, and for many months in succession she was entirely deprived of all natural rest. She was reduced to a mere skeleton and very often ex-

claimed, "Oh, mother! I wish it might please the good Man above to take me to himself." It

was my fervent prayer her sufferings might be terminated and my auxious fears removed. The Almighty has promised to be with us in six troubles, and in the seventh he will not leave us nor forsake us, if we put our trust and confidence in Him; and truly I can say it has been verified in the present case. Though and every one who saw her, entirely ressored to sing and your instrumentality, my child lives—health, and since last summer has done the enves, is restored to perfect health, and is a living monument of the efficacy of your health restorng Sarsaparila. We had tried all the remedies within our reach, had the bone once set, had it blistered and purged, without effect. She cor menced the use of the Sarsaparilla in April last happy effects in the case of the mother, we were disposed to make a trial of it for the child, and improvement; a discharge came on from the hip joint, and in a few days it commenced healing, and in less than two weeks it was entirely closed During the time of using the Sarsaparilla, she passed large quantities of worms, which aided materially in hastening the cure. She rapidly improved in health and strength, her appetite increased, and she is now entirely restored, and

wholly so by the use of your Sarsaparilla.
With the grateful feelings of a mother's heart and father's joy, we subscribe ourselves your friend. WILLIAM S. BAILEY, SARAH BAILEY.

We, the subscribers, being neighbors to William and Sarah Bailey, know the above statement in relation to their child, and the cure performed by Sands's Sarsaparilla, to be strictly true.

WILLIAM POWERS,

JOHN MYERS. SCROFULA CURED OF SIX YEARS STANDING.

PHILADELPHIA, July 23, 1843.

Messrs. Sands: Gent —In the month of June. 1837, I was attacked with cramp in the stomach induced by a sudden check of perspiration. By timely remedies I was relieved, but my system had received a shock from which I did not recover. About two months after this, a scrofulous lump appeared on my breast, which gradually increased to the size of a hen's egg, and then be-came excessively painful. I tried different Pan-aceas without deriving any benefit whatever, and continuing to grow worse, applied to a ho-nocopathic physician, who left me suffering more than he found me. The scrofula now appeared in my right knee and ancle; my leg swelled to four times its natural size, and threatened ex-tensive ulceration, rendering me for years a help less cripple, the greater part of the time suffering "excruciating anguish. I now had recourse to the old practice, was cupped and blistered very severely, but all to no purpose.

I then tried the Thompsonian practice with

the same result, and now I despaired of ever being cured. My appetite entirely faile, and bed I came a mere skeleton; for months I could not sleep in bed, but passed the night limping about the room; the moment I laid down the came insupportable. Iodine was used internat-ly and externally, but all in vain; and now, to add to the horrors of my situation; a large tumor appeared on the lower part of the spine, which became excessively painful and tender, rendering it almost impossible to sit down, and I des-

paired of ever getting well.

Hearing of the wonderful cures performed by one more trial which I did, scarcely daring to hope for relief.

Your agent, S. P. Thompson, furnished me with the Sarsaparilla, and what was my aston-ishment and delight, after taking a few bottles, to find I was getting well. A few more completed the cure, and now I can say I am well. Yes, after six years of indiscribable suffering, I can say I am well, and entirely owe my restoration to health, through the blessing of Providence, to your Sarsaparilla—a medicine whose virtues sho'd be known throughout the world. I return my sincere thanks, and shall always be happy to give any farther information to the afflicted by applying to me at my residence, No. 39 Newmarket
