VOLUME IV.

COVINGTON, KENTUCKY, SATURDAY, NOVEMBER 23, 1844.

NUMBER 18

PRINTED AND PUBLISHED BY
R. C. LANGDON & W. C. MUNGER.

SELECT TALES.

From the Philadelphia Saturday Courier.

THE BACHELOR OF COTTINGEN.

A Tale of the last Century.

A free Translation from the French.

By B. S. BARCLAY.

The last rays of the setting sun were re-

deceded from the golden, arrowy spires of

the principal church of Cottingen, when

Doctor Fornarius, a professor in its ancient

University, having taken leave of a group

of his pupils, entered his mansion, and re-

turned into his cabinet. A stove placed in

the centre of the room diffused an agreeable

warmth; for it was now the month of De-

cember. A thick falling snow was fast

covering the ground—the streets were nearly

deserted—the north wind blew furiously,

causing to rattle the old cuspings of the

gothic mansion inhabited by this venerable

scholar, situated at the extremity of the

faubourg, was completely isolated. A

high wall girdled, at the same time, the

building, and a little garden entirely en-

shadowed by dark evergreens. The eyes of

passers by were thus prevented from

penetrating its interior. The casements

were, moreover, always closed—many

wild and extravagant rumors were circu-

lated regarding this mysterious abode, and

its learned master. True also was it, that

the door seldom opened, but to admit a few

chosen companions. This lonely existence

—the extreme austerity of his manners—

the profoundness of his learning—caused

to extend very widely the reputation of

Fornarius. He was said to be versed in the

dark mysterious sciences, and initiated in

all the secrets of the cabal.

We have said the Doctor retired into his

cabinet. Scarcely had he installed himself

within a capacious leather fauteuil, placed

in front of the stove, holding open on his

knives a favorite volume, when a light knock

was given at the door.

"Enter," cried Fornarius, imperiously;

"who disturbs me at this hour? Ah! is it

you, Frank?" added he, in a more subdued

tone, at the sight of a young man who ad-

vanced timidly. "Sit down and warm your

benumbed hands—you will tell me after-

wards what has led you here."

Speaking thus, the Doctor pointed to a

low seat placed near his fauteuil.

The young visitor took off his mantle and

hat, both whitened with snow, and was not

able to conceal an embarrassment which

agitated him, for he perceived the small

piercing eyes of the Doctor fixed scrutini-

ously upon his countenance. The gaze,

however, relaxed into an expression of

kindness, and Frank became assured.

The appearance of this youth was irresist-

ibly prepossessing. Features of regularity,

crowned by a lofty forehead, shaded by

flowing blonde locks, were animated with

a noble and candid expression. His eyes

of brilliant blue were at one moment dream-

ing and languid, the next, lighted up as

with a burning thought. Fornarius caressed

him more than any other of his pupils,

because of his wonderful aptitude and zeal

for study.

"Master," suddenly exclaimed the youth,

"your lesson of to-day has deeply interest-

ed me. I would know more—pardon, I

pray you, my venerable teacher, to search

in your cause and effect, evince a supe-

rior and subtle discrimination which nothing

escapes, which knows equally to explore

the hidden principle of all things, and to

distinguish the visible chain which unites

them."

"My son," interrupted Fornarius, there is

nothing beneath these philosophical investiga-

tions—a powerful attraction—an aim worthy of a

sole ambition. Yes, I believe there exists

under the unknown veils of all created

things, the essence of eternal truth—

detached by the Divine Intelligence—

but very few have been permitted to pen-

etrate these solemn mysteries—the cause of

all things; their perpetuity; their reproduc-

tion! God preserve me from imagining

myself one of these fortunate spirits."

"Oh! master," cried Frank, with enthusi-

asm, you have said, 'The truth is a noble

aim.' To seek, is life? To know, is the

end? And I burn to know; dear master,

permit me to open my heart to you."

"Speak, my son," said Fornarius, deeply

interested; "speak in all confidence."

"I will declare to you, then," responded

Frank, "that of all the advantages you have

derived from profound study, and long in-

vestigation, the most precious in my eyes

—the most to be desired—is the power to

predict and explain the future—to lift aside

that veil of darkness which hides from mor-

tal view the unknown path of life which

we tread so blindly—oh, my venerable

master, deign to receive me as your pupil,

here in this apartment, sacred to the sub-

lime mysteries of science."

"But, do you not know, my son," replied

the Doctor, "that there is terrible conse-

quence for this bold desire? That knowl-

edge is more frequently denied than grant-

ed."

"Whatever may be the penalties, I fear

not, to seek, to know, to lift aside that

veil of darkness which hides from mor-

tal view the unknown path of life which

we tread so blindly—oh, my venerable

master, deign to receive me as your pupil,

here in this apartment, sacred to the sub-

lime mysteries of science."

"But, do you not know, my son," replied

the Doctor, "that there is terrible conse-

quence for this bold desire? That knowl-

edge is more frequently denied than grant-

Cox's Packet.

Those of our subscribers whose papers are sent in the above packet might unite together, and bring us down a Boat load of Wood, or Corn or Pork, all of which we will allow cash prices for in payment of what may be due us.

Miss Mary Jane Nowell's School.

Will commence its second quarter on Monday next. This accomplished young lady richly deserves the patronage of the public. Suddenly deprived of both parents by death, who left a large family of children, she, as an older sister, has taken upon herself the care and education of the younger branch of the family, and, also, the general instruction of children. She is well qualified for the business, and her manner of teaching, and kindness of disposition, render her a favorite with her pupils. Her terms are low.

Covington Classical Academy.

This Institution, now under the care of Rev. Mr. MORRISON and J. L. PRICE, held its first examination on Wednesday last. We were present at the afternoon session. It appeared that the students had made good progress in their several branches. It is but justice to the Principals to say, that their constant and unremitting attention to their charge, and their determination to equal, or even to excel others, in the same honorable avocation, deserves all praise. They have had to contend with formidable opposition and several unpropitious circumstances; but the fact, as now manifest, that their pupils are brought on with no ordinary rapidity, evinces their merits as teachers, and will entitle them, we hope, to a more liberal patronage. Most respectfully, therefore, do we call the attention of our readers to this Institution. We refer them for other particulars to the advertisement of the Committee in another column of to-day's paper.

We cannot deny ourselves the pleasure of saying through this medium, that *Focal Music* is successfully taught in this Institution. We heard several pieces performed with general correctness by a class that had had no more than about eight weeks' tuition. We are sensible that a very considerable acquaintance with the grounds of music is necessary to so good a performance. Without wishing to depreciate others, we would again say that we believe the above named gentlemen are determined to do, and will do, ample justice to all who will give them patronage.

Kentucky River Packet, Isaac Shelby.

This new steamer left our wharf yesterday morning, for Frankfort, Mundy's Landing, and intermediate ports, on her first trip in the new trade between Cincinnati and the interior of Kentucky. She is a very beautiful boat, and does honor to the skill of our mechanics, and the taste and enterprise of her owners. Her length is 154 feet, beam 25 feet, hold 54 feet, and carrying capacity 235 tons.

The Isaac Shelby was built by the following persons: viz. Hull by Gordon & Templeton; Engines by Yeatman & Shields; and Cabin by A. Weigert. She was painted by J. Owen, and fitted out with Mattresses, Carpets, etc., by B. Knight. Her model is fine, her motive power great for her size, and all her work done in a plain, tasteful, and substantial style. Her cabin is a very fine one—her means for the accommodation of passengers of the first order—and her state-rooms, which are unusually large for the size of the boat, those of the ladies' cabin being 7 feet, are supplied with double mattresses, abundant covering, and all other things necessary for comfort in traveling.

The Shelby is under the command of Capt. J. T. Washington. R. A. Clay, Clerk; L. Worden & Brother, Engineers; Wesley Brown, Pilot. In this organization there is a guarantee of carefulness and safety. It is expected that the whole week will be taken up with the present trip, after which it is contemplated to make 3 trips a week between this city and Frankfort.

Advertisements.

To Speculators.

I CAN sell a beautiful range of lots in New-
port, at prices which will repay the purchaser a handsome profit. For particulars apply to HENRY H. GOODMAN,
Trustee, 103 Main, between 3d and 4th sts.
Nov. 23, 1844. 181f

Coal Hods.

12 DOZ Coal Hods, assorted from No 12 to 18 on hand and for sale by
J. K. OGDEN & CO.,
No 163 Main st., sign of the Old Padlock.
Cincinnati, Nov. 23, 1844. 18

Wood! Wood!!

PERSONS wishing WOOD, can be supplied, during the winter, with good seasoned wood on application to WM. H. WOOD. Orders left with Cooper, Berry & Co., will be promptly attended to.
Nov. 23, 1844. 181f

Texas Lands.

THE subscriber has four sections of 640 acres each, in Harris county, Texas. These lands were acquired by actual advances in cash, before the battle of the Alamo—for the necessities of the Texas Government. They are parchment titles, signed by the President and Secretary of the State of Texas, and were located for cotton land by a special agent. The subscriber will sell them for cash, or exchange them for City Property in Cincinnati, Louisville, St. Louis, and Covington, or for any good Farms in the vicinity of Cincinnati. The title can be examined by any person wishing to buy or exchange, at my house on 4th st. Cincinnati. Most of the valuable lands for cotton in Texas are already covered. This property will be valuable to any settler.

Election Returns.

Our readers must excuse us, for having but little now-days, for publishing election returns. They are for the most part of a rather disagreeable character. We will however give the complete results in each State, when they are known, and the official vote of Kentucky. The principles which we have advocated in common with the Whigs, are departed for the present. Our successful opponents, may adopt their or reject them as they please. Leaving the matter entirely with them, only taking notes occasionally of their movements. We will hereafter devote more of our paper to miscellaneous matter. We have no doubt, but that, the successful party will make many departures from the positions they have assumed, before the election. We will observe their course for the purpose of seeing, how far we are mistaken in this prediction.

Ladies' Repository.

This beautiful monthly holds the even tenor of its way, with, if possible an increase of talent and interest. Cincinnati, published at the Methodist Book Concern, at \$2 per annum.

Arthur's Ladies' Magazine.

Edited by T. S. ARTHUR, and published by E. FENNER & CO., Philadelphia, monthly at \$3.00, per annum in advance. This work, whether taken in its Literary or Moral character, or for beauty of mechanical execution, may well challenge competition. The third volume commencing Jan. 1845, will, we are informed surpass any of its predecessors. Those fond of choice literature and interesting sketches will be pleased with this Magazine. We shall publish the prospectus next week, but the publishers send us two copies for one of which we will pay.

The American Masonic Register.

The first number of the sixth volume of the above manual has been politely forwarded to us. This work is devoted to the interests of the Masonic fraternity. As far as we have examined it, we consider it an able publication, and recommend it to the patronage of the fraternity. Published in Albany, N. Y. by L. G. HOFFMAN, at one dollar per annum.

The Western Farmer and Gardener.

The November number of this valuable work contains a great variety of useful matter for the practical farmer, to such this work must prove highly serviceable as being the medium through which he may increase his stock of knowledge. Every farmer should take it.

The undersigned were present at part of the public examination of the pupils of Messrs. Morrison and Price, at their Academy, on Wednesday last.

So far as we had the opportunity of judging, the pupils acquitted themselves with credit, and we have no hesitation in saying, that from the specimen we witnessed, and the moral and gentlemanly character of the teachers, we consider the school well worthy of patronage. We do not deem it necessary to remark on all the various sciences of study, but with reference to the practice of singing (by note) at the close of the day, we consider it a useful and interesting embellishment; and in this exercise, the pupils of Messrs. Morrison and Price have rapidly improved. It is not only a pleasant recreation, but qualifies them for the vocal part of religious worship.

R. WALLACE,
ARTHUR CRIBFIELD,
R. C. LANGDON,
Committee.

November 21st, 1844.

Masonic Notice.

Covington Lodge No. 109 will hold its regular meeting on Monday evening next, at 7 o'clock. The members are expected to be punctual in their attendance.
R. C. LANGDON,
Secretary.

RELIGIOUS NOTICE.

Elder ARTHUR CRIBFIELD will preach in the Christian Meeting-House, Covington, to-morrow, at 11 o'clock, A. M.

COVINGTON POLEMIC SOCIETY.

The society will meet on Tuesday, the 23d instant, at 7 o'clock P. M., in the basement of the Presbyterian Church. The public are invited to attend.

Question for discussion—“Ought the present naturalization law, allowing foreigners to become citizens in five years, be altered to twenty-one years?”
G. F. GOODHUE, Pres't.
L. B. BENNETT, Sec'y.

MARRIED.

In Cincinnati, on the 14th inst., by the Rev. Steickland, MR. JAMES HORNICKS, of Covington, to Mrs. MARY EARL, formerly of this City.

On the 14th inst., by the Rev. J. C. Bayless, MR. CHRISTIAN SEIFRED DESBERKATTER, to Miss ANN MARY HUMANN.

MARRIED—At St. Louis, (Mo.) on the 23th ult. Joseph Corley, of St. Louis, to Miss (now Mrs. Mary) CORLEY, of Donna Maria del Refugio Antonio Mucia Isadora Johanna Bernadeta de Jesus Solares Covian, of New Mexico.

The title can be examined by any person wishing to buy or exchange, at my house on 4th st. Cincinnati. Most of the valuable lands for cotton in Texas are already covered. This property will be valuable to any settler.

Tobacco.

A Large and well finished Warehouse FOR the inspection and sales of Tobacco, has just been completed in the city of Covington, Kentucky, where there are about 25 Tobacco Manufacturers, and being immediately opposite the city of Cincinnati, the very extensive manufacturers of that place have only 15 minutes' walk to reach said Warehouse.

The undersigned, lately appointed Inspectors, under the law of the State of Kentucky, are now ready to receive for inspection, storage and sale, consignments of all kinds of Tobacco; for which there is a large and constant demand in this market.

We would particularly advise planters, to cultivate the Summerville Cigar leaf, which in great demand; the same (not a greater) quantity can be raised on an acre of ground, (it being planted only two feet apart and topped to from 12 to 18 leaves), and the present sales are at double the prices of the common Kentucky Tobacco. We feel confident the interest of all sections of the State in this market will be greatly promoted.

BENJAMIN YOUNG, Inspectors.
A. H. JAMISON,
N. B. We are prepared to price leaf Tobacco for those planters who are as yet unprepared.

J. K. OGDEN & CO.,
No 163 Main st., sign of the Old Padlock.
Cincinnati, Nov. 23, 1844.

The Licking Bridge.

It will be gratifying to the Stockholders and others, friendly to this enterprise, to know—notwithstanding the doubts and fears of some, from the commencement, and of others since the fall rains checked the progress of the masonry—that this work will go on to completion, according to contract; that is to say, the Bridge will be done by the first day of October 1845.

The company are daily organized; and are acting under a charter of the most liberal kind—they have made a definite contract, and have ample security, for the prompt and faithful accomplishment of the entire object, within a specified time, and for a definite sum. Hundreds of perch of stone are already on the ground; the balance will be delivered in the course of the winter and early spring. The pine timber, (350,000 feet,) has been contracted for upon the Allegheny River, and will be delivered by the early spring freshets. The cement, lime, sand, &c., are chiefly contracted for; and the following is an assurance that the whole construction, materials and labor, will be paid for as fast as the work is done; and according to the terms of contract.

Notice to Stockholders.

THE President and Directors of the Licking Bridge Company take pleasure in announcing to their associate Stockholders, that a sufficient amount of stock has been subscribed, to warrant the belief, that the bridge will be completed in the course of a few months. They have therefore seen fit to enter into contracts with men of skill and experience, as well as men of known standing and responsibility; who are bound to execute the work with the greatest promptness and fidelity. It is therefore hoped, that none will hesitate to meet the call of one dollar a share, which has been already made, and will be the 10th of October. MARCUS T. C. GOULD, President.

N. B. Charles Goodman, Broker, Cincinnati, as Treasurer of the Company.
Licking Bridge Office, No. 30 East Front St. Cin. Nov. 15th 1844. 171f

WHEN CONSUMPTION MAY BE CLASSED WITH THIS CURABLE DISEASES.

AMONG all the famous medicines for Consumption, none seems to be so effecting with greater success or obtaining a higher reputation than that wonderful article,
WISTARS BALSAM OF WILD CHERRY.

That it stands at the head of other remedies is now universally conceded. It has cured thousands upon thousands of all classes in cases of the most dangerously consumptive character. And physicians of the greatest eminence throughout our whole country unhesitatingly recommend it, as the
MOST POWERFUL CURATIVE

of Pulmonary diseases in the whole range of Pharmacy. The sales in the Western States have so far been unparalleled; and the most gratifying proofs of its efficacy have been received from every place where it has been used. Thousands.

CONSUMPTIVE PATIENTS.

have already tested its exalted virtues, and can testify to its surpassing, excellent and amazing power. The remarkable success of this Balsam is no doubt owing in a great measure to the peculiarly agreeable and powerful nature of its ingredients. It is a

GREAT WESTERN LAND AGENCY.

No. 36, Front Street, CINCINNATI, OHIO.

The undersigned having been heretofore extensively engaged in the selling of REAL ESTATE in the eastern cities, was induced by his numerous friends and acquaintances, to resume that branch of business in the west. He accordingly opened, temporarily, an Office, at his Lecture room, North East Corner of Main and Fifth Streets, Cincinnati, where he has been patronized for the last year, beyond his most sanguine expectations. He has now removed to Front Street, in full view of all the Steam boat arrivals and departures, where he is ready to receive propositions for the purchase and sale of Real Estate, of every variety, in Cities, Towns, or Country.

His extensive and intimate acquaintance in all the Eastern States, and in most of the large cities of the Union for the last twenty-five years, will give him very decided advantages in procuring purchasers from a distance. His Stenographic profession has given unrivaled facilities for correspondence with hundreds of editors and publishers in different parts of the United States, by which means he can more readily make known the relative merits and advantages of property brought within his agency. (As a proof of his facilities, he sold in a single year, within a single county of Pennsylvania, farms and town lots to the amount of \$600,000—thus bringing into the pockets of his immediate neighbors, from the large cities and remote parts of the Union, cash in hand payments, to the amount of \$150,000 within the year.)

As soon as patronage will warrant, he will, in addition to the ordinary duties of a local agent, resume his former practice of visiting the large Eastern Cities, as often as once in six months—to spread his propositions before capitalists, to exhibit and explain maps, charts and descriptions; to organize Manufacturing companies, Land Companies, Joint Stock Societies, Social Communities, etc., etc.—to receive orders, and perform such other functions, as pertain to a general land agency, between the east and the west, the north and the south, or with various countries of Europe.

In the mean time, persons wishing to sell farms, town lots, or other real estate, are respectfully invited to call at the office as above described, where the most satisfactory references will be given, and abundant evidence shown of the numerous facilities which this establishment will possess, over every and all others, in the east or west.

All communications through the Post Office, IF POSTAGE PAID, will receive prompt attention. OFFICE HOURS FROM 9 TO 3 O'CLOCK.
M. T. C. GOULD,
General Land Agent.
Cincinnati, 20, 1844.

NEW PIANO FORTÉ WARE ROOMS.

West 4th St., between Main and Walnut CINCINNATI.

THE subscriber having proved, during several years' experience in this country, and also during a visit to the first manufacturing establishments in Europe, the great superiority in volume of tone, and durability of construction, of the French GRAND ACTION PIANO FORTES, as manufactured by Messrs. Steinhilf, Worcester, and Dunham, of New York, has opened a store expressly for the sale of those Instruments in the new buildings, next door to the Council Chamber, where he desires to keep such a variety of the best specimens of the different classes and patterns, from the plain, sterling square Pianos, to the elegant full-cased corner tables, and to dispose of them on such terms as cannot fail to give perfect satisfaction to purchasers. He has also on hand a large stock of French Grand Actions, and has tested the manufacture, are prepared to give their unqualified approbation of it.

Orders from a distance, addressed as above, will be carefully filled, and the re-packing forwarded to the order, without charge. The excellence of the materials and workmanship warranted.
An approved tuner will attend regularly, to receive orders for tuning or repairing Pianos, either in the city or at a distance. Charges, for Piano Stools, Cantabrethens, Covers, &c. of every description, may be had at the Rooms.
W. NIXON will continue to a limited number of pupils, his instructions in Music, and to act as the Musical Seminary. nov 9

Funk Seminary.

THIS Institution, under the patronage of the Grand Lodge of Kentucky, and located at La Grange, in Ohio, has been established for the purpose of the education of the orphan sons of deceased Masons, but is also designed to serve as a High School, where pupils generally, whether the sons of Masons or not, may be prepared for entrance upon a collegiate course. The studies in the Primary Department, under the care of an experienced teacher, will embrace Reading, Writing, Orthography, Arithmetic, Geography and English Grammar.
In the Senior Department will be taught such branches of science as are necessary to qualify the pupils for the education of the orphan sons of deceased Masons, but is also designed to serve as a High School, where pupils generally, whether the sons of
