

# LICKING VALLEY REGISTER. COVINGTON.

SATURDAY, MARCH 1, 1845.

As we have a new carrier in Covington, some of our subscribers will perhaps be neglected. They will please call and get their papers, and let us know, that they may hereafter get them regularly.

CINCINNATI CORRESPONDENTS will please direct all their communications and advertisements to: *Licking Valley Register, care of Box 315, Cincinnati.*

We are authorized to announce Dr. JOHN BENNETT as a candidate for re-election to the State Senate for this District.

B. W. FOLEY, Esq., has been appointed Mayor of the city of Covington vice M. V. GRANT, Esq., resigned.

**FIRE.**—About 8 o'clock on Wednesday evening last, the old steam grist mill of Maj. M. V. GRANT was discovered to be on fire. The flames increased so rapidly that it was impossible to save any part of it. The loss is estimated at \$8,000—no insurance. It was doubtless the work of an incendiary. An attempt had been made to set it on fire about ten days previous, which proved unsuccessful. The Cincinnati Firemen, with their usual promptness on all such occasions, were over as soon as the ferry boats could raise steam. We are sorry to learn that one man fell over board and was drowned; another was run over by the engine and got his leg broke, and a third was very seriously injured. The Cincinnati Firemen are always ready and prompt to render assistance, at the risk of their legs and lives. Covington Firemen, where is your vote of thanks?

**The Celebration.**  
The birth day of WASHINGTON was celebrated in Covington on last Saturday. A day which always should be held in reverence by every patriot, in memory of a character worthy of the respect, love and imitation of every American citizen. The military, after marching through the principal streets, with a large concourse of citizens, assembled at the Methodist E. Church, at 3 o'clock P. M. An address was delivered by Mr. JOSEPH POWELL, in which he gave a sketch of the life of Washington, and some eloquent remarks. Other ceremonies were had, which rendered it, altogether, very interesting. Mr. SAMPSON and his class deserve much credit for their beautiful singing—it was exceedingly fine; also the spirit-stirring music which immediately followed.

We understand the celebration was continued in the evening, at the Christian Church—a speech from J. A. LEVI, Esq., which is highly spoken of, &c. We do not the pleasure of being present.

**Military.**  
On Saturday last our city presented quite a lively appearance. The citizen soldiers, with measured step to the spirit-stirring fife and drum, were the general attraction. There was a good turn out, the companies looked well, and performed their manoeuvres in a manner that did them much credit, and showed that they were still improving. There appears to have been quite a military spirit aroused in our city during the past year. A short time since we had not a military company, now we have three, none of which we need be ashamed. We think we should "in time of peace prepare for war," and in this country, the citizen soldiers is our main dependence in time of need.

The "boys" have the credit of making the start—they formed the first company: the *Covington Independent Cadets*, and under Captain HULL, they make a very good display; they have a neat uniform, and turn out a good number. Being unable to procure arms from the State, they have showed themselves independent and procured them of their own.

The *Kenton Riflemen*, under Captain WOOD presented a very neat appearance, and performed their evolutions in a soldier-like manner. They still improve. Hold up your heads, Kentons, and persevere, you needn't be ashamed!

The *Covington Artillery Guards*, under Captain JOHNS, made their first appearance, headed by their brilliant field piece. They make a good beginning, and we think, although a new company, they will never appear in the rear.

**Profanity.**  
A man of sense will never swear. The least pardonable of all vices to which the folly or cupidity of man is addicted, is that of swearing.—Could he who so freely and impudently indulges in profanity and indecent language—in fine, could the profane swearer behold himself in a glass, as others behold him, he would shrink from his own image as from a thing of contamination. In other vices, more or less, may be found some kind of excuse: the gratification of some passion or the indulgence of some appetite, may be pleaded as palliation; but in this vice are no mitigating circumstances to be found, no plausible pretext for such folly. How often is the name of the Great Supreme appealed to on the most trivial occasions, to testify the speaker's truth, when, at the same time, his veracity could justly be called in question, and his statement proven false. Suppose he should be taken at his word, with his impious imprecations upon his tongue, what horror would seize his guilty conscience, what sensations of unutterable despair overwhelm him!—and yet, history furnishes many instances of speedy retributive justice being awarded the blasphemer. Such appeals are therefore not only wicked, but absurd—manifesting a great degree of moral depravity. How weak and how wicked are the wild denunciations of man, to revile, to outrage his fellow man is wicked, to revile, to outrage and defy his Creator is horrible.

It is with mingled feelings of pity and abhorrence we are almost daily compelled to hear the sallies of oaths upon the impolite acquirement of swearing. Scarcely can a group of half a dozen boys be found associating together in a city, without their conversation being interlarded with oaths, blaspheming and obscenity. For these abominations parents and guardians will have to render an account. On them devolve the moral character and respectability of those under their charge, and they should remember that no profane or wanton swearer can ever arrive at eminence. How disgusting—how revolting are these branches of common decency and moral propriety. Would parents and guardians take the pains to hold up this detestable vice to the view of their children, and exhibit it to them in its natural deformity, we think they would shrink from its commission as from a pestilential disease. We hope, most sincerely, to see this matter properly weighed and acted upon, that a reformation in this city may ensue.

By a report of Mr. ASHROOK, we learn that as near as can be ascertained, the number of cattle, hogs and sheep, driven to the Cincinnati and Covington markets, from the State of Kentucky, from the first of November, 1844, to the present time is as follows: Hogs, 52,000; Cattle, 5,600; Sheep, 4,400.

Of the hogs, about 12,500 were killed in Covington, and about 3,000 of that number packed. The price of stock in this market is as follows: Cattle, from \$3 to \$4; Hogs, from \$3 to \$3.50; Sheep, from \$2 to \$3.50 per head.

**INQUEST.**—The body of Wm. Henthorn of this vicinity, found dead on Friday, 21st inst. in the open field. The sheriff summoned a jury of inquest, which returned a verdict stating that the deceased came to his death "by a visitation of Providence."

**THE WHEAT CROP OF OHIO.**—The Cincinnati Chronicle estimates the wheat crop of Ohio at eighteen millions, of bushels, and the export at about eight millions, giving satisfactory data for the estimate. So that the export of wheat from that State supplies about one million of persons with bread, and if to the wheat be added the corn and pork exported, there cannot be a doubt that Ohio exports breads and meat enough to feed a population equal to her own.

The Franklin, Tenn., Herald says, on Wednesday, the 19th inst., we observed a number of peach trees in full bloom. The winter throughout has been almost as mild as spring.

Maj. THOMAS ALEXANDER, a soldier of distinction in the Revolutionary war, died in Mecklenburg county, N. C. a few days since, in the 92d year of his age.

JAMES HARPER, Esq., the present Mayor of New York, has been nominated for re-election to that office.

**THE SUPPOSED MURDERER ARRESTED.**—HENRY THOMAS alias Thomas Dean, supposed to be the principal in the murder of Mr. Edwards, at Bourneville, Ohio, near Chillicothe, in October last, has been arrested in Lancaster, Pa. It seems he had been arrested before the receipt of the Governor's proclamation, on suspicion, from murderous instruments in his possession, a bloody shirt, burglar's tools, jewelry, &c. \$1,900 reward was offered for him.

**MANHOOT STEAM BOAT.**—A Steam Boat, called the "MISSOURI," was launched at Cincinnati on the 12th inst., which is 305 feet long, 33 feet beam, and 10 feet hold: total width over the wheel house 73 feet. She is calculated to accommodate 200 cabin passengers, and intended to ply between New Orleans and St. Louis.

A YOUNG MOTHER.—A Hartford paper states that the name of a mother and child, both between the age of four and sixteen, are returned as among the children attending the district school in one of the western towns.

**HOW DID HE MAKE IT?**—The N. Y. Sun states that President TYLER will retire from the Presidency \$300,000 richer than he entered upon the duties of the office. He is the only man that ever made money by the Presidency. He is the sort of a man to do it; but how, we should like to know.

Between wildcats and wolves, Michigan fares hard. The State Auditor of Michigan reports having paid, during the past six years, the sum of \$7,457 for wolf scalps. This is \$8 each, the bounty paid, would give, estimating the whelps at half price, an aggregate of one thousand of these troublesome animals, which have been destroyed within the periods designated. A law is now under consideration to increase the bounty to \$12 a head.

**BORN ROYAL.**—The Washington Globe charges the editor of the Madisonian with getting a portion of certain men's salaries, as a bribe, for aiding them to procure offices. In reply, the Madisonian made charges—and he says she has the proof—that the rogues of the Globe office actually bribed a Government officer to furnish them a job of printing worth \$100,000, giving him \$3,500, as the reward of his corruption!

GUN. LEWIS COMES, one of the most popular of the Kentucky Whigs, whose claims to the seat in Congress now occupied by Hon. Garret Davis, have been warmly advocated by his numerous friends, declines entering upon a political canvass on account of the recent heavy domestic afflictions with which he has been visited.

**A Female Miser.**—An old maid who recently died at Bernay, France, it is said, secluded herself in her chamber for fifteen years, not permitting any one to enter it. After her death it presented a scene of filth and wretchedness, yet, bags of gold and silver were found therein amounting to 163,000 francs.

**GRANHAM'S MAGAZINE.**—The March number of this beautiful Magazine has been laid upon our table. In rich matter, from the most celebrated authors; in neatness of execution, and in splendid engravings, it surpasses all other eastern magazines. This number contains three engravings. It can be had at *Ashton's Literary Head Quarters*, No. 7 Main street, Cincinnati. Other magazines and cheap publications, of the latest issue, kept constantly on hand.

The examination of McNulty before the civil authorities at Washington has disclosed that this defalcation is not more than \$34,000.—N. Y. Tribune.

If a merchant's clerk steals a dollar or so from the desk of his employer, he is sent summarily to the penitentiary, and nobody pities him.—But when a Loco clerk of Congress steals a large fraction of the contingent fund of that body his Loco friends exclaim with the most plying expression of countenance—"His defalcation is only \$24,000."—*Lou. Jour.*

**A NEW REMEDY FOR TOOTHACHE.**—Among the thousand remedies for the Tooth ache, India Rubber is now stated to be a very efficacious one. A piece of it on a wire, then melted at the flame of a candle, and pressed while warm in the hollow tooth, and the pain ceases instantly. The cavity of the tooth should be cleaned out with a piece of cotton. In consequence of the viscosity and adhesiveness of the India Rubber, the air is completely prevented from coming into contact with the denuded nerve, and the cause of the Tooth-ache is destroyed.

The operations of Morse's Telegraph have been suspended.

**General Metcalfe.**  
The following from the Maysville Eagle, will show how the suggestion of Gen. METCALFE as a candidate for Congress, is received in that part of the District:

To the Editors of the Maysville Eagle:  
Messrs. COLLINS & BROWN:  
Your paper of Saturday, containing a short article from the Licking Valley Register, in which was appended some touching remarks of your own, was received in the town of Maysville on the same day about 12 o'clock M.; and in the space of two hours thereafter, a call on General THOMAS METCALFE to become a candidate for Congress in this District was signed by nearly all our citizens, headed by the name of a patriot soldier of the Revolution. If, as you propose, the voice of the Whig party can draw the veteran patriot from his loved "retreat" to the halls of legislation, that voice will soon be heard, if we mistake not the indications of public feeling, "like the sound of many waters."

Yours truly,  
MANY VOTERS.  
SUBSCRIBERS.

To Gen. Thomas Metcalfe.  
The undersigned, citizens of Maysville precinct, in Mason county, with a deep and abiding sense of your important services to your country, and your high qualifications still to be eminent in our citizens, headed by the name of a patriot soldier of the Revolution. If, as you propose, the voice of the Whig party can draw the veteran patriot from his loved "retreat" to the halls of legislation, that voice will soon be heard, if we mistake not the indications of public feeling, "like the sound of many waters."

Yours truly,  
MANY VOTERS.  
SUBSCRIBERS.

The foregoing communication was received on yesterday. The call on Ex-Governor METCALFE is signed by nearly all the Maysville district, among whom we recognize a large proportion of the oldest as well as the most influential citizens of that region of the country. It comprises, indeed, a list of names, so respectable, so intelligent, that no man, however exalted, could be otherwise than gratified by their exhibition. All of them are acquainted with Gen. METCALFE—some have known him from childhood—and all call they have thus made upon him, without concert, and at a moment's warning, evidence not only of the high political worth of the veteran statesman, but of the strong hold he possesses on the affections of the people.

**From the Cincinnati Times of Feb. 27th.**  
SIX FIRES LAST NIGHT.—There were six fires last night, in our city and vicinity. About seven o'clock, the roof of the four story house on Third, between Walnut and Vine streets, formerly the Post Office, was discovered to be on fire; the promptness and energy of the firemen soon conquered the destructive element.—Supposed to have originated from a stove pipe.

By the time this was got under, the heavens were illuminated with a lurid glow, which was soon ascertained to arise from a large frame building in the lower part of Covington formerly used as a mill and distillery. The firemen hurried to the scene of danger, as soon as the ferry boats could get up steam and take them across the Ohio river. We understand that, in the rush to the boat, one fireman was thrown overboard and drowned, and that three others were, during the night, run over and seriously injured by bruises and the breaking of limbs.

The third fire was on Fifth street, west of Race. Mrs. McLean's dwelling took fire; the roof was destroyed, and the goods in the store below were injured by water. This fire was about 10 o'clock.

The fourth fire was on 12th street, near Main. The roof of a brick house was destroyed. The firemen arrested the flames before they could spread further. This was near 11 o'clock.

About half-past eleven, a small stable near Sixth street and the Miami Canal, was consumed.

The sixth fire was near the corner of Spuyne and Butler streets, in the neighborhood of Mr. Longworth's;—two frame houses and a stack of pine lumber were burned. This, after midnight.

Some of these fires, were, no doubt, the work of incendiaries, as seven suspicious looking men and boys were found asleep, this morning, in a stable belonging to Mr. Gest, situated near the corner of Race and Fourth streets;—two men were also arrested, last night, discovered in the act of cutting the hose, and were committed for trial.

Since writing the above, we have learned that two other houses were set on fire, but were saved by the exertions of the immediate neighborhood. The citizens generally, should be on the alert.

**Cheap Postage.**  
The friends of cheap postage in the eastern cities are busy, in mass movement and by petition, in rousing public attention to the necessity of demanding from the House at Washington the passage of the Senate bill. We hope the effort will succeed. It ought to; and it will if that body knows anything about the subject, or the importance attached to it by the whole people.

The New York meeting was a substantial one. The names of the officers are familiar names, and their action shows an earnest business spirit—a spirit influenced no less by a right social feeling than by considerations of enlightened self-interest. Mr. Bates showed by figures how the revenue in Great Britain had increased under the uniform penny postage. He moved the following resolution:

Resolved, That the information just received from England, showing an increase of \$400,000 in the revenue of 1844 over that of the preceding year, which already furnished a net amount of \$4,000,000, proves conclusively the effect of cheap postage there, and furnishing sufficient ground of confidence in regard to its effect in the United States.—*Cin. **MOORFUL TRAGEDY!**—DEATH OF MISS OAKS!  
We are this week, says the Black River Journal, called on to chronicle a most melancholy occurrence, in which a young and amiable lady has been suddenly and unexpectedly torn from society and from life, and two highly respectable families thrown into deep mourning! On Tuesday last, George Brown, son of Mr. Brown, residing in the village of Tylerville, Lewis county, N. Y., had, with two or three other young men, been out on a hunting excursion, and when on an eminence opposite the dwelling of Mr. Simeon Oaks, and about 25 rods distant, saw his daughter, Jane M., enter a small rear building, when one of the company said, "now shoot and frighten her?" upon which young Brown instantly, and without reflection, levelled his gun and fired at the building, and unfortunately with fatal effect, the ball entering the young lady's shoulder, and passing through her body in a transverse direction, pierced her heart and lodged on the opposite side. This was about 2 o'clock P. M., but it was not till 7 o'clock, in the evening that the family were made acquainted with the sad truth of their bereavement.—She was then found dead and frozen. The meeting the next morning of the families of Messrs. Oaks and Brown, who have for many years lived on terms of the strictest friendship, is described as one of deep and terrible anguish. Young

Brown was examined on Saturday before Judge Crittenden, and held to trial for manslaughter. He was admitted to bail in the sum of \$1000.—Miss Oaks was in the 19th year of her age, amiable, accomplished, and the idol of her parents and friends. Her death has clothed a neighborhood in sorrow, the more so that it occurred under circumstances so peculiar heart-rending.

**PERITIC IN RIVER.**—The following petition from the citizens of Knox county, was presented by Mr. Combs, to the Ohio Legislature, last week:

WHEREAS, destruction very great, by day among the sheep of late, And anger that they will do more, As they have often before, Require that something should be done To stop the rascals and their fun; We therefore of your honors pray, That you'll enact without delay, A law that shall impose a fine, On dogs or on their owners' be; Of such amount as may suffice, To make dogs muzzled, just and wise, And well forever and a day, When so inclined, devoutly pray.

HAIR TONIC.—The following communication from the Rev. Professor Eaton, of Hamilton College, N. Y., in addition to hundreds of others equally reliable, should be read by the friends of every reasonable person, of the uniform and singular efficacy of Jayne's Hair Tonic.

DR. JAYNE, Dear Sir—I cannot say that my hair is restored, but I can say that it appears to be rapidly and so restoration as could be reasonably expected. I had not finished the first bottle before a decided change was manifested over the bald part of the head to which it was applied.

I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statement of what it had done for others. When I was much surprised and astonished when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly if not quite an inch long at the time I had it cut, on the part that was nearly destitute of hair.
