## COVINGTON.

SATURDAY, MAY 3, 1845

### NOTICE.

The death of the senior editor of this paper renders it necessary that the business of the establishment should be settled as soon as possible. The undersigned, as surviving partner of the concern is alone authorized, by law, and by pre-contract entered into, on the 4th of February, 1845, with R. C. Langdon, by which he was vested with an interest in the existing debts due him for subscription &c., to make settlement of the business, to whom, or his Agents, all persons indebted to the office for subscription or otherwise, are requested to make immediate payment. The "Register" will continue to be published, as heretofore, by the undersigned, and he trusts that his long experience as an editor, and strict attention to business, will entitle him to the renewed confidence of our patrons, and to increased patronage from the public.

H. B. BROWN.

Covington, March 22, 1845.

V. B. PALMER.—No. 53, Pine street, Philadelphia, No. 14, State street, Boston, S. E. Corner of Baltimore and Calvert streets, Baltimore, is our Agent to procure subscriptions and advertisements for the Register.

MASON & TOWLE.—No. 38, William street, Merchants' Exchange, New York, are our authorized Agents in that city, to receive subscriptions and advertisements for this paper.

LEWIS B. RILEY, is our general Agent for Kentucky and Ohio.

We are authorized to announce Dr. JOHN BENNETT as a candidate for re-election to the State Senate this District.

### OUR PAPER.

To the Whigs of the 10th District.

We are highly gratified in being able to state that since we assumed the control of the Register, its subscription list has been steadily increasing. To those who have thus come forward to aid us in our work, we tender our unfeigned thanks. Still, we must confess, the patronage of our paper is by no means as great as it ought to be. When it is remembered that this is the only Whig paper published in this section of the State—including 10 or 12 of the richest counties of Kentucky—we think that it will be admitted by all that we ought to be more liberally sustained than at present. We flatter ourselves that we furnish our readers with as neat and cheap a paper as they can obtain in the west, and if our friends will exert themselves to increase our circulation we will be the better enabled to increase its usefulness.

To the Whig party of the Tenth District we would most especially appeal. It is certainly desirable to have a Whig organ well sustained in this end of the District. Our opponents are vigorously exerting themselves to build up their press—they have gone at the work with activity and zeal. In this they are guided by the right spirit. If a man really believes that he is in the right, he certainly should use all honorable means to sustain his cause. And experience has long since shown that there is no engine so powerful in shaping public opinion as the press. We say then to the Whigs of this District, if you value those glorious principles for which we have so long struggled together, come forward and liberally patronize the Whig press. Let every subscriber obtain for us one additional name—at least, and while he will be conferring on us a favor for which we will be truly grateful, he will also be aiding in the establishment of the great principles which we profess. In another column will be found a prospectus, which can be circulated with little trouble, and we believe with great success.

Have the Whigs of Harrison forgotten that Maj. Wall, and all others, have been for a mutilation of the Constitution?—*Kentucky Intelligencer.*

We most emphatically deny that Maj. Wall or any other Whig of respectable standing in the party "has been for a mutilation of the Constitution." The Whigs are opposed to the Veto Power—that power which was denounced by the unanimous voice of the good old democrats of the Revolution, but which is so warmly defended by modern democracy. It is Monarchical and not Republican, and the Whig party are in favor of its limitation. This would not be a mutilation—a deprivation of an essential part of the Constitution. It would rather be the removal of a hideous deformity, a dangerous disease, which must ultimately, if not remedied, destroy the vitality of the whole instrument. It is a fundamental principle of the Whig party, that the will of the people, constitutionally expressed, should prevail. But as this never can be the case, while the President is clothed with the Monarchical power of the "veto," which enables One Man to set at naught the WILL OF THE NATION, we are in favor of depriving him of that enormous and truly dangerous power. We go for Privilege in opposition to Privilege—*for Liberty in opposition to Despotism.* And strange to say, we are met and opposed at every step, in this great cause, by men claiming to be the exclusive Democracy of this country!

The last Intelligencer contains a long article in reply to our remarks on the speeches of Messrs McCung and Tibbatts. Our neighbors designate our article as "a lamentation in behalf of the woful condition of Whigery in this district." The Intelligencer has entirely mistaken the tone of our remarks. We are the last man who would utter a lamentation in behalf of any misfortune which might befall our party.

We did express our sympathy for Mr. McCung. It is a sad sight, as we then stated, to see a gallant, noble spirit, capable of the highest usefulness, weighed down by disease and suffering. Had Mr. McCung's health permitted him to run the race, we firmly believe he would have been elected. But still, we do not regard him as the only man who can succeed. Let our neighbors not congratulate themselves too soon. It is always bad policy to "count the chickens before they are hatched." We will have a candidate in due time—a man fully competent to the performance of the task which will be required of him. Col. Tibbatts, we beg leave to say, by no means sits so securely in his saddle that he may not be unseated.

In regard to the speech of Col. Tibbatts, we can only say, that if the Intelligencer is satisfied with it, Heaven knows we have no right to complain. All we ask is, that the Colonel may make the same speech throughout the District, and we shall then have no fears of the result of the contest.

METHODIST CONVENTION.—The Methodist Episcopal Convention to settle the question of Slavery met at Louisville on Tuesday last. Its proceedings will be looked to with much interest.

## The Turnpike Road.

Our readers will find in to-day's paper a communication from Jno. P. Gaines, Esq., on this subject. We hope every one who feels interested in the completion of this Road will give it an attentive perusal. All who look at the matter in a proper spirit, must feel the importance of some speedy action, in order to finish the road, and we are astonished that a single stockholder, who is friendly to the interests of Covington, should hesitate a moment to give his consent to the use of the dividends to effect that object. This road, when completed, cannot fail to add much to the importance and prosperity of our city, and we repeat, that we are astonished to learn from Mr. Gaines, that it meets with opposition from any portion of our citizens. We beg leave, however, to express the opinion that the matter fairly tested, Mr. Gaines would be warmly seconded by the citizens of Covington, in his efforts to carry on this great work.

## Our National Name.

The eastern papers are discussing, with great warmth, the propriety of a change in our national nomenclature. The "United States of America" is considered too general, as it applies alike to the South American States, Mexico, and this nation. Some years since, Mr. Washington Irving raised this controversy, and it has now been revived by the N. Y. Historical Society, which proposes *Allegania* as our name. Other names are advocated among which we notice that of *Winnesepesgia*. A Democratic paper proposes *Tassania*. For ourself we prefer our good old name of "United States." It is halcyon by many a glorious deed in council and in field, and we are for clinging to it in all time to come. It has protected us thus far and we should not, in a whimsical freak, cast it away.

## The News by the Caledonia

Is, beyond doubt, calculated to create most serious apprehensions in the minds of the lovers of peace. It cannot be denied that the debate in the House of Commons on the Oregon question justifies these apprehensions. The tone of the Ministry is decidedly belligerent. Sir Robert Peel asserts the right of Great Britain to the Oregon Territory as fully as our own Country, and expresses the determination of his government to maintain her rights. Negotiation has thus far failed to effect any thing towards the adjustment of this controversy, and unless something is done, and speedily, a rupture between the two countries will be the consequence. Nothing is to be more deeply deprecated than a war between England and the United States. No calamity could befall us so great as this. Still war, with all its dire and lamentable consequences, is always to be preferred to National Dishonor, and after all other means shall have failed, we go for war. Let every thing else however be first tried—negotiation, arbitration, all pacificatory means—before we resort to a conflict of arms.

The New York papers remark upon the news from England as calculated to excite serious apprehensions:

The Courier and Enquirer says—  
The Oregon business seems to have assumed a decided—not to say startling—earnestness on both sides of the British House of Commons. It is not to be concealed, that the remarks of Sir Robert Peel afford grounds for grave apprehensions of serious difficulties. He is sternly and uncompromisingly maintaining the British right to the disputed territory, as our Government, and we may say, the American people, maintain our own undoubted right to that territory. Still we do not believe and we will not permit ourselves to believe that the two countries will suffer this question to involve them in the calamities of actual war. Some mode of settling this question satisfactorily short of an unnatural and needless appeal to arms, must be devised.

The Journal of Commerce says—

The principal matter of interest is the unusual excitement in England by the announcement, in President Polk's inaugural, that our title to the Oregon territory is clear and indisputable. Even the Ministers, on the floor of Parliament, expressed themselves in a tone which they are not accustomed to assume towards this country. They appear to have understood that announcement as in the nature of a threat, which demanded some bullying in return. They also appear to have understood it as in effect a termination of the negotiation for the peaceable adjustment of the question. In both respects, we are persuaded, they have misinterpreted the views of the new President.

The Tribune says—  
"It is now reduced to a moral certainty that the rival claims of the United States and Great Britain respecting Oregon must be settled by Arbitration or by war. We go for Arbitration, and we are for war."—  
A letter from New York says: The foreign news created a considerable degree of excitement this morning, which is now subsiding. The Colton market is a little firmer, and there is some enquiry for the article, although only a moderate business has been done.

## Payment to Newspapers.

The new Post Master General, in his instructions to Postmasters under the new law, provides for the following excellent mode of transmitting subscriptions to newspapers:

Money for newspaper subscriptions not exceeding \$10 in each case, may be paid to a Postmaster for the purpose of being paid to the publisher at any other office. The P. M. is, in such case, to give to the person paying the money, a receipt therefor, and to advise forthwith the Postmaster who is to pay said amount of such deposit. Upon presentation of this receipt, the amount is to be paid over. The Postmaster upon receiving the amount is to debit himself thereon in his account, and the Postmaster paying that amount is to credit himself therewith, in his account of contingent expenses.

## Death of Prof. Sims.

We learn from the Tusculum Monitor, of April 16th, that Rev. Edward Dromgole Sims, late Professor of English Literature in the University of Alabama, died suddenly on the 13th instant.

The AFFAIR AT RIO.—The National Intelligencer says: "We have reason to suppose that the Brazilian Government has not considered the brief misunderstanding between our Minister and its authorities on this occasion [the Porpoise] as of sufficient consequence as to be made a subject of remonstrance to this Government."

DEATHS BY LIGHTNING.—Four men were killed by lightning in Morgan county, Ohio, on Tuesday evening last. Two were killed instantly, and the other two died in a few hours. They were sitting together on a porch in front of a house, when the fatal blow struck among them.

APPOINTMENT.—The Norfolk Beacon says: "We learn that John Y. Mason Jr., was on Thursday last, tendered by the President the appointment of a Purser in the United States Navy, in place of Purser Moore, deceased, and he had accepted the same."

Tobacco fads are coming into fashion in Virginia.

## Bowery Theatre, N. Y. Burned—Supposed Loss of Life.

We learn from the New York Republican, that this doomed building has been once more, and for the fifth time, reduced to masses of smoking ruins. There is a fatality attached to the Bowery Theatre, which is not the less remarkable than deplorable for those engaged in and about it.

On the night of the 25th ult. about half past six o'clock, the carpenter's shop attached to the theatre was discovered to be on fire. As soon as the discovery was made, a number of persons closed the iron door which shut off the theatre from the shed, and it was thought that the fire was subdued, when, as though a train had been fired, the whole interior of the house belched out a dense mass of fire and smoke. At seven o'clock not a stick remained. All was a heated, blazing mass. There are many circumstances which lead one to suppose that the conflagration was designed. At five o'clock the first scene for the opening piece is arranged by the carpenters, and all persons then leave the theatre and do not return until the time to dress arrives. At this period an incendiary can slip in and perpetrate his crime better than at any other.

The loss is great, and we understand that there was little, if any insurance. Several persons are supposed to have lost their lives in the flames.

By this conflagration, about two hundred persons are suddenly thrown out of employment. Many of them have no other method of getting a living. Among them are numerous mechanics. Thus, families are deprived of their bread. The side walls, which have stood the test of four fires, still stand. The rear wall fell, and it is feared, persons were injured.

The houses Nos. 10 and 12 Elizabeth street were slightly damaged. Also Nos. 42, 50 and 52 Bowery.

## Executive Clemency.

At the rate the President is poking members of Congress into office, says the New York Tribune, improving on the example of the illustrious tenor of the Hermitage, it will soon get to be understood that a chair in the House of Representatives is but the one step to Executive favor. It may be curious to make out, however, unavailing it may be to expose, a list of receipts of Executive favor who voted in favor of Annexation, against the known wishes of their constituents; and for whom, he is noted, Mr. Ritchie, the Editor of the "Union and Enquirer," the Washington Organ that is to be, with the Richmond "attachment," has not a single note of reproach for refusing to be "palsied by the will of their constituents."

MAY-DAY.—Thursday last was a great day for the sweet little lassies. Many a benighted Queen was crowned on that day. We were much pleased by the processions in our city and Cincinnati. The youths, however, who have long monopolized the 1st of May, have met with powerful rivals in the Military Companies, who made a "grand display" on Thursday last.

LADIES' REPOSITORY.—The May number of this beautiful magazine is on our table, neatly printed, and with the usual quantity of interesting and useful matter, and a very handsome engraving. It is edited by E. Thompson, and published by Swannestadt & Mitchell, Cincinnati, at \$3 per annum.

April number of the Western Mirror, a Monthly Magazine, published at Cincinnati, by J. B. THOMAS. This is an excellent number, containing much that will instruct and amuse.

THE NEWPORT CHANDLER is the title of a Weekly Literary paper to be published in our sister city, Newport. Our friends G. W. Cutler and L. T. Lacy are to be the editors. They are gentlemen of fine ability, fully competent to the task they have undertaken. We wish them many and punctual subscribers.

CHRISTIAN WORLD.—We have received the first number of the "Quarterly Christian World," edited and published by Rev. F. H. Stockton, Philadelphia. It is embellished with portraits of Revs. Charles and John Wesley, and is filled with a variety of interesting reading matter, price 25 cents per copy.

"THE POLITICIAN" is the title of a weekly Whig Journal recently started in Nashville, Tennessee, by Allen A. Hall Esq. It is ably edited, and bids fair to do good work in the great cause of Whig Principles.

"THE GOLDEN RULE" is the title of a new monthly publication just started, in this city, by Mr. DAVID F. NEWTON. It is devoted to the cause of good morals and deserves the patronage of the public.

FINE CARPETING.—Mr. Ringwalt, Main st. Cin. has a splendid assortment of the latest style of Carpeting. He is a clever gentleman, and we most cheerfully commend his advice to the patronage of the public. See advertisement.

The Madisonian says that Mr. H. Ellmore, of South Carolina, has declined the appointment of Minister to England, "an account of other engagements requiring his personal attention in South Carolina."

Isabella Walker, a young girl of nineteen, was killed at Valley Falls, R. J., on the 12th, by being caught in the machinery of a factory where she was at work.

We refer our readers to the advertisement of Mr. Clark's Ice Cream Saloon. Our devil, who has tried it, says his ice cream is delicious.

At an election in Portland (Maine) on the 17th inst. Greely (V.) was elected Mayor by over 300 majority.

Riot.—A disgraceful riot recently occurred in the Virginia University, growing out of a difference between the students and Prof. Rogers.

BURGLARY.—The Store of Wm. L. McKee, of Hill Grove, was broken open a few nights ago, and \$400 taken therefrom. The Burglar has since been arrested.

The Rev. Mr. Henshaw, an Episcopal minister of Nobles county, (Miss), was drowned on the 7th inst. whilst attempting to cross a swollen stream. He was returning to his home from Mohallack, where he had preached on the previous day.

It is said that Mr. Ellsworth the Commissioner of Patents is about to resign, and will probably be succeeded by T. L. Hamer, of Ohio.

THE PILOT OF THE SWALLOW.—The Commercial Advertiser says that Wm. Burnett, the Pilot of the Swallow, was arrested on Monday week, and admitted to bail in the sum of \$10,000, in the U. S. District Commissioner's office.

The body of John Gordon, recently executed at Providence, was taken on Sunday week to Pawtucket, for interment, followed by four or five thousand people, and about fifty or sixty carriages.

BOSTON BONNET STORE.—See the advertisement of this establishment in another column. The Bostonians are hard to beat in anything they undertake. And from an examination of Mr. Hazeltine's stock of goods, we are enabled to say that it cannot be surpassed either in cheapness or elegance. He invites Kentucky Merchants and traders especially to call and examine his goods.

The fire in the Long Island Wood has destroyed \$300,000 worth of property, including the wood on 30,000 acres, houses, barns, &c.

Too soon.—It is said that Mr. Cushing being asked to dine with Mandarin Lin, discovered something on the table of which he ate exorbitantly, thinking it to be duck. Not speaking Chinese, and wishing to know what it was, he pointed to it, after he had finished, saying to his host interrogatively, "Quack, quack quack?" The mandarin with equal brevity replied, with a shake of his head, "Bow, wow, wow." Mr. Cushing's feelings can easily be imagined.

The name of the Madisonian is to be changed after May 1st, to THE UNITED STATES JOURNAL, and not the "Constellation," as originally intended.

It is ascertained by a recent census, that Russia possesses 63,500,000 inhabitants.—Of this number the serfs are put down at 49,734,000. There are also 300,000 Germans, 2,000,000 Tartars, (Mahomedans,) 2,182,000 Jews, 5,000 foreigners, consisting of Italians, French, or Greeks, and 25,000 Bohemians.

The spirit of John Jones still hovers over the Madisonian. In a recent edition of the new Postmaster General, for his skill in making contracts for carrying the mails, the Madisonian said: "We are satisfied that the contracts at this letting will be given out at a saving of one hundred per cent. upon the former letting."

It was universally conceded that Mr. Johnson would succeed in reducing the pay of the contractors, but that he might be able to get them to do the work for nothing, was never dreamed of till the Madisonian predicted this "saving of one hundred per cent."—*Bald Pat.*

A woman never appears so lovely as when she is at her prayers. A mother's words, a mother's prayers have more power over the soul, than all the homilies of the pulpit. The simplest phrases from her will draw a tear that no eloquence can bring forth.—*Boston Bee.*

## COMMUNICATIONS.

Mr. Brown.—I beg leave, through your paper, to interrogate our candidates for the Senate, in this District, on the subject of the proposed change in the Judicial Districts. The measure which was before the Legislature, last winter, and last, will be up again, and the undersigned, as well as many citizens with whom he has conversed on the subject, will make their votes depend upon the answers made by the candidates on this subject. KANROX.

Covington and Lexington Turnpike.

April 28, 1845.  
Mr. Brown.—A meeting of the Stockholders of the Covington and Lexington Turnpike road company, was, pursuant to notice, held in Covington, on Saturday last, to take into consideration the provisions of an act of the last General Assembly which authorizes the Board of directors to use the dividends hereafter declared, for the term of three years in extending the road, provided a majority of the private Stockholders would give their consent. To obtain that consent, the meeting above mentioned, was held, a little over one hundred and fifty votes were polled, out of some eight or nine hundred to which the Stockholders are entitled, and of that small number a minority of some ten or twelve were found to favor the appropriation of the dividends to the extension of the road.

The smallness of the majority out of so small a number of votes given, and the marked opposition of the Covington City Council who own one hundred shares, also the opposition of most of the private Stockholders in your vicinity, are the causes of my addressing this note.

The power of appropriating the dividends to the object above indicated for three years to come is now with the Board of directors, but by a sanction on the part of the Stockholders so very unequal, as to render the propriety of its exercise extremely questionable.

If the City Council, by opposing this measure have spoken the true sentiments of the people of Covington, I for one would hesitate much, before I would force this dividend from them, or take it to court. For one, the contrary they have mistaken the public voice, it would be some relief to the managers of the board to know it.

What course the board may think proper to take under these circumstances, I know not, having spoken to none of them since the meeting of the stockholders. I know well, that *union and harmony* among the friends of such an undertaking as they are engaged in, is essential to success.

There will be a meeting of the Board at Dudley's on Saturday the 10th of May, for the purpose of taking this subject into consideration.

Yours Respectfully,  
JNO P. GAINES

Brazil.—Mr. Wise.  
A difficulty occurred at Rio de Janeiro in Feb. last between the authorities of Brazil and our Minister Mr. Wise. The facts of the case are thus stated:

The Porpoise, a merchant brig, was chartered for a year by a Brazilian Merchant to sail to any part of the world. He put her in the Slave-trade on the 23d March, on her arrival will arrive she was seized by the United States vessels of war at Rio. This was said to have been done with the consent of the Brazilian Minister of Foreign Affairs.

A correspondence between this Minister and Mr. Wise ensued. While this correspondence was being carried on, the Minister of Justice gave instructions to an armed force, consisting of six hundred men, and one hundred men, to proceed to the Porpoise and demand her release. This the American Commodore refused; but allowed the passengers to go, thereupon the Brazilian Government reinforced the force at the harbor with five hundred men, in order to prevent the American Squadron from proceeding to sea with the Porpoise, which on the 23th ult. it was supposed would be attempted. After this the vessel and her crew were delivered to the Brazilian authorities, who, it was thought, would liberate her. A correspondent of the New York Commercial Advertiser referring to this subject says:

"A few days after the Porpoise was released, as but little could be proved against her, so well was her business hidden, and no law or treaty authorizing Americans to seize in a Brazilian port any vessel without the consent of the Brazilian authorities. They being all in favor of the slave-trade, insisted on their right, and she was given up. She was first held till now on any other subject; but the slave-trade, that is a sore point."

Mr. Wise will no doubt go on with his investigation, and may yet have difficulty with the Brazilians, but the Porpoise case is probably now remembered by few at Rio. At the last date, March 1st, a few appeared to think of it besides those immediately interested, and they feared no difficulty."

The National Intelligencer says that Mr. Wise erred, if at all, in carrying too far his purpose to stop the slave trade in American hands by any power he could use, and expressed the opinion that his conduct will not be made a matter of remonstrance by the Brazilian government, or interrupt the peace now existing between the two nations.

From Washington.  
The correspondent of the New York Evening Post says, that the Government appointments for New York are postponed at Washington on account of the fact that the expectants are loitering about the city.

We are told that the Globe is to be changed to the Washington Enquirer after May, and that Mr. Ritchie will commence his labors on the 1st of May as the official editor. The Post further says:

"Many of Mr. Ritchie's warmest friends express serious misgivings of the success of his new enterprise. They think that he is too old for the arduous duty which will of necessity devolve upon him; and that his ideas of matters and things—of parties and men—are superannuated, and altogether behind the wishes of the ardent 'progressive democracy' of the present day."

**NEW ORLEANS, April 24.**  
The market continues remarkably dull, with an increased stock amounting to near 6,000 bbls on the levee. Since our last it has been impossible to effect sales without submitting to at least 4c per lb on our quotations. We do not, however, alter our figures, as the greater portion of the stock is held in the hands of speculators, and held firm at 5 1/2 a 6c for common; 5 1/2 a 6 1/2c for fair; 6 1/2 a 7c for prime. The sales of the last three days do not exceed 300 bbls, the rates of which range from 6 to 6 1/2c.

**MOLASSES.**—The stock is large. A speculative demand has reduced the stock on the levee. A large quantity is stored for higher rates. We quote 27 a 30 cents.

**COFFEE.**—There has been but little doing in the article, and prices are looking down, and we reduce our figures accordingly. Some sales of Rio have been made at 7 1/2c. We quote Rio 7 1/2 a 7 3/4; Havana 8 a 8 1/2c.

**FLOUR.**—Extreme inactivity characterizes the market since our last report, and though arrivals have been small, the prices have evidently declined. St. Louis choice brands excepted. Ordinary brands have been sold as low as \$3.81 1/2 a 3.90. We now quote choice extra brands \$3.74 1/2 a 4 1/2; common and country brands 3.81 1/2 a 4.

**PORE.**—Arrivals since our last have been very light, and speculators having taken a large portion of what was on the market, prices have again become more firm; Mess \$14, Prime \$12.

**FROM WASHINGTON.**  
A correspondent of the Evening Post, writes that a general council of foreign ministers, according to rumor, is to be held at Washington to discuss the subject of annexation. He says: "The French Charge to Texas, I understand, has just arrived in town yesterday, and it is said he is to be followed by Captain Elliot, the English Charge, and by Mr. Ashbel Smith, the Texas Secretary of State."

"When the royal representatives arrive, I understand the august council will consist of Mons. Paget, the French Minister to the United States; Mr. Pakenham, the English Minister to the French Charge to Texas, the English Charge to the same Republic, and probably by such other Foreign Ministers as they can induce to join the council. Rumor has not yet incorporated Mr. Smith in the royal convocation."

"The cabinet of our own government, I know, is almost daily engaged in protracted councils, it is said, on the Texas matter and on our relations with Mexico."

A New Discovery.—The Mining Journal states that a process has been discovered which will produce cast steel at a cost not exceeding that of pig iron, of a quality suitable for the manufacture of steel. We doubt it.

## FRESH SUPPLY OF THE FOLLOWING VALUABLE MEDICINES.

T. BIRD, Apothecary and Druggist, Covington, Ky. 40-1f

## THE SICK-HEADACHE, EITHER NERVOUS OR BILIOUS.

An attentive perusal of the following will, it is believed, fully repay all classes of readers: HEADACHE.—The disease is one from which every man is liable to suffer, and which is generally supposed, not being directly fatal, it is often neglected, or perhaps even so much the use of purgatives as other medicines, as to impair their general health, and often induce fatal diseases. The article, DR. SPOHN'S HEADACHE REMEDY, from COMPTON'S CHRONIC OFFENSE, does not only overcome the effects of the disease, but it is a powerful and immediate in curing an attack or keeping it off, it is so perfectly mild and innocent as to be used for infants with the greatest effect and safety. This has been now tested by so many of the highest members of this community, as to require no further proof.

"If taken a few times in as many hours, when there are indications of an approaching attack, it is sure in all cases to prevent the attack. If used for a few weeks, the premonitory symptoms gradually disappear, and they wholly disappear, and never, without cause, return, and no predisposing cause, return. If the person neglects to use it till the headache commences, it sometimes cures instantly, but at others it turns will have their cause for two or three times, and then wholly disappear."

## REV. DR. BATHOLICUS'S PINK EXTRACT, OR ANT SYAUP.

An agreeable Cordial, and Effective Remedy for Coughs, Hoarseness, Colds, Pain in the Breast, Asthma, Hard Breathing, and Difficult Expectoration. For Adults and Children in cold climates and warm.

It has remained to a late day to discover an article so admirably fitted to these complaints, so powerful and effective, and yet so perfectly innocent and mild.

Let not the public class the scientific result of a learned Physician and Divine with the numerous of the day. Let them make a careful perusal of the evidence which this article bears; their sagacity, and the decided manner in which they speak, and they cannot without belief to some of its virtues. Let us assure them that a single trial of it will do more to convince of its merits than all they can hear or see on the subject. It is a specific for all the injuries which have been known to arise from its free use.

## Cleanliness of the Head and Hair.

Strangely it is that persons who attend strictly to personal cleanliness, bath, &c. should neglect the head—the hair—the most essential—the most exposed—and the most beautiful, when properly cared for, of all the gifts of the Creator. Perfectly free from all kind of dandruff or scales, with a certainty that the hair will grow out, by the use of the HIRAM NASH CIDER & VINEGAR WAREHOUSE.

Ladies, will you make your toilet without this article? Answer fearlessly, no, if you have once tried and experienced its purifying effects—it is a sweet perfume.

## HAYS' LINIMENT.

NO FUTION.—This extraordinary chemical compound is the result of science, and the invention of a celebrated medical man. It is now used in the principal hospital, and in the private practice in our country, by an immense number of individuals and families, first and most certainly for one of the most, and we respectfully call your attention to its utility, unless where its effects are witnessed.

Externally in the following complaints: Croup and Whooping Cough—External and over the chest.

Acute BRUISES, SPRAINS, and Burns—Curing in a few hours.

SORES and Ulcers—Whether fresh or long standing, and fever sores.

Its operation upon adults and children in relieving rheumatic swellings and morning coughs, and tightness of chest by relaxation of the parts, has been surprising beyond conception. The common remark of those who have used it in the Pains, is, "It acts like a charm."
