POETICAL.

For the Register. THE HOURS THAT WERE. TO MISS ---, OF COVINGTON. BYC. B. HIRST.

I strike my harp to merry hours, The hours of early time,
When gushing rills and fragrant flowers
Draw forth the sportive rhyme,
And dream and hope and sprackling song
Their holiest influence sway,
And love first tunes the prattling tongue, To chant her roundelay;
Of song and love and joys most rare,
I sing the merry hours that were.

And truly many a harp-string thrills With notes of sadder strain, Perchance through all life's joys and ills, Such hours ne'er come again, And though the rills still murmer on And flowers spring up anew, And eyes we lov'd to look upon Are still before our view, There lacks a something yet we ne'er

Feel as we felt in hours that were.

Many a wrecked and ruined heart. Doles out its weary day, That once bore a conspicuous part Amid life's stormiest fray; And many a mother's silent tear, Bewails a fallen child; Whose early morn broke fresh and fair, And hope and promise smiled;

How sad life's freshest scenes appear To these, how bright the hours that were. Many a brow is free from cure,

And time to many brings

A wondrous change, and hearts now share Life's sweetest offerings, Whose spring-time felt the touch of want Many now of high name
Once bowed as friendless supplicant Before the shrine of fame; Still do they pine amid their cheer, Look back with joy to hours that were;

And even on the bed of death And kind friends gathered near, There lingers with our latest breath Remembrances most dear, And though a bright eternity Is spread before our gaze, Still rushes to the memory

The joys of early days; In bliss or we in pride or care, We ne'er forget the hour that were. Then let us sing of merry hours, The hours of early time,

When gushing rills and fragrant flowers, Draw forth the sportive ryme, And dream and hope and sparkling song Their holiest influence sway, And love first tunes the pratting tongue To chant her roundelay:
Of Songs and love and joys most rare, Come sing the merry hours that were.

Cincinnati, 1815. THE BLIND.

The New York Institute for the education of the Blind had an exhibition, in the presence of the members of the Legislature. Buring which the following address was written, and spoken by Miss Cynthia Bullock:

When mingled love and gratifude
Their fragrance o'er the spirit fling—
Oh then the heart must utterance find, Or fade the flower-untune the string.

Ye patriot band, our country's hope! We, standing in your presence here, Would grateful speak your generous deeds, That prompt our feeling hearts to prayer

At your command the desert mind Blooms with celestial beauty bright, And hope, awakened in our hearts, Points onward to a purer light.

When Grecia reared her mighty domes, Here muse unrivaled still sing on, And science, art, and knowledge then Their empire o'er the mind bad won;

Yet sorrow languished in her midst, The blind unaided wept alone;

The flowers of charity and love Bloomed not beneath the Parthenon! But you have touched the sweetest string,

To earth-born children ever given;— Whose tone, though faintly echoed here, Will vibrate in the courts of heaven

We cannot look on nature's face, Old ocean's breast, or cataract's fall. Or view the star-gemmed arch above, Or see the smile, more dear than all.

A deeper gloom our spicits knew. Lock'd up in hopeless night to mourn; The soul unfed, for knowledge wept,

No ray, no light, to rest upon! But now the sightless see again, Illumed by truth's celestial ray, While music's thrilling notes of joy,

Life's every care may chase away. We bless the Legislative land Who made our life's young day so bright, Who bade the gema of knowledge shine, And gave us intellectual light.

Oh 'tis a pleasant thing to dwell In this dear favored land of ours,

Where your enlightened charity
Hath strewn the blind girl's path with flowers If ye have wept for us the while,

We cannot see the tear-drop move; But He whose voice is mercy's law, Hath registered that gem of love.

Our hearts, with grateful feelings full, Have in one voice our powers combined, For you the earnest prayer is breath'd-Lord, bless the fathers of the blind!

Keep out of bad company, for the chance is. that when the devil fires into a flock, he will hit somebody.

THE SHIPWRECK.

BY MRS. ANN S. STEPHENS.

in fall time—or rather it was one of those calm quiet evenings which the farmer enjoys so much when his crops are all in, and his cellar crowded with winter stores for his family. It was not exactly cold enough to excuse Mrs, Davis for and,-scolding the young folks for not shutting the door every time they went in and out, even if the good lady had been so inclined, and yet the cheerful fire which blazed on the kitchen hearth sent its light gleaming and flashing over the walls, gave an air of snugness and comfort to the dim yarn, danced grobesquely on the opposite wall, while the mixed sock grew in form and substance with every twinkle of the bright needle. A japan tray filled with luscions red apples, stood on the little round candle stand under Mrs. Davies elbow, and a cat lay drowsing beneath the wood-en stool on which both feet rested.

Though Mrs. Davies had composed herself comfortably for the evening the rest of the family were still busy doing up the work. Two young and exceedingly beautiful girls were busy about the supper table; and farmer Davies himself was out on the back stoop washing his hands after dictributing the scant 'folder' which a sharp frost had rendered necessary for his cattle. As the girls cleared away the supper-table, they cast anxious glances now and then on one another, and spoke in low voices, while their sweet faces seemed troubled and sad. The old lady too, seemed a little disturbed; she harried on across the seam stitch around—around at least an inch after she ought to have set the he I of her sock. Now and then she would drop the work in her lap, but with the yarn still tangled in her fingers, and sit gazing on the fire a minute together. Then she would snatch up her work again, looking round at the girls to see if they were observing her, and knit away more vigo-

At last a rap was heard in front of the house, the door was flung open, and a young man came quickly through an adjoining room into the kitch-The old lady half rose from her chair on his entrance, but sunk back again, and kept on knitting though her black eyes glittered, and her hands shook till the needles rattled more than

The philosopher dropped her head, and seemed very busy taking a seam stitch, that her lighthearted boy might not detect the quiver on her lip, or the tears that dimmed her glasses. Charles went out, followed by the two girls, leaving the old people alone. For a long time they remained in profound silence, the farmer leaning forward with bands clasped and elbow resting on each knee, and his thumbs pressed hard together; at length he turned his eyes stealthily towards his wife, detected the tears stealing down her check, and turned his gaze sadly on the fire again.
'Well, Hepsy, Le has determined on it, he

will go.?

The old man had tried hard to force them back, but the tears broke his voice though they had not reached his eyes. The old lady laid down her knitting work, looked around to be certain that no one could be a witness of the act, and stealing her arm about his neck, kissed her husband's fore-

Charles, ioo, as the evening were on, seemed drooping in sad-ness, and fatigue: his eyes would fill with tears now and then as they met the affectionate glance which his mother turned upon him every instant, but they always fell beneath the gaze of the good farmer, fell guiltily, and always a tinge of crimson flew over the check at the same instant. 'We need only say that you have run in debtshe will let us go—she will help us, for, oh, Charles, you do not know how she loves you.

Charles turned upon his pillow and groaned. 'We must leave you now,' whispered Catharine, 'the house is so still they may hear us; try, and sleep a little, Charles!

'Dear, dear brother!' murmured Emma, only keep down those dreadful feelings. Trust Kate, she can do anything, and so can I, if it is only to help you, Charles, only she must tell me how.'
With these words the sisters clung together and

The next week and Joshua Davies and his wife sat in the homestead alone. Both were strangely low spirited. The farmer missed the sweet faces of his young daughters; he was sur-prised that even his wife could have won his condashing with unnatural excitement, made this sent to their departure for the city. But they were gone by his own permission, and he felt their toss deeply. It was something more than loneliness that gave the troubled and anxious expression to the mild features of the wife; still was colorless, and drops of perspiration stood on the unsuspicious farmer thought it was only reed her serene brow.

It was near evening. A group of three persons stood near the grante door steps of a house 'Ha! have I?' 'cried Davies, with a ghastly in Bleeker street. Two of the group were females in straw cottages and pretty morning cloaks, and one had a neat travelling basket in

rank, and strangers in the city.

Emma hesitated and remained near the door Even Catharine felt her limbs tremble as she crossed the room and stood before the merchant, with the light from a neighboring lamp revealing the pale, Greeian outline of her face, till even the old merchant was struck with its singula beauty; and a young man sat reading at a sofa-table, looked up with kindling admiration in his

'Well, sir,' resumed Catharine taking the band of her sister, and nestling it under her cloak; 'he could not tell father, the old man was so happy and glad to see him again—it seemed like another crime to do it. Emma and I, hap-pened to think of something; it was in the night the son's bosom, and he was obliged to press the cambric handkerchief hard gainst his trembling harder because we heard his sobs in the next mouth to force back utterance and anguish that made him shake upon his knee—shake like the guilty thing he was. guilty thing he was.

Deep in the night Charles lay on his own bed again, still dressed, but with the quilt gathered roughly over him, and his face buried in the pillows. The candle had been put out, but there was mosnlight enough to reveal two sweet faces bending over him—full of troubled love were face to the astonished merchant, if you would the dim light made but let us work in here, and keen our wages till but let us work in here, and keep our wages till

'Father, you will not hesitate; you cannot!'s said the young man, who had risen, and was

eaning over his father's chair. 'And suppose I consent to conceal this fraud in your brother,' replied the merchant, conceal-ing his astonishment, and speaking in measured ones, which belied his generous feelings, 'how ong would you be willing to work for his debt? One whole year—two! as many as you think right! exclaimed both girls at once; 'besides' if you will trust Charles again, he will belp us.— you can keep his wages back too,' said Catharine, and here are seventy-five dollars, all in silver, that mother gave us for her share; she has been laying it up these fifteen years out of the egg and butter money. If she were only here you could not have the heart to refuse!'

'If he did, I would disown him!' muttered

the young gentleman in a low tone, which brought a smile to the lips of his father. The merchant was a man of few words. He took the money which Catharine had drawn from her busket, counted it deliberately over and emptied it in a pile on the table; then drawing out his pocket book, he took out the forged check

and gave it to Emma. There is no evidence that I should bring against your brother; you can burn it, and I can bave no power over him.

pile of silver, will you? The next day Catharine and Emma Davies commenced their duties in the merchant's house, and that very day young Mason sailed for Eu-

rope.

Another autumn came round, another harvest returned to the farm with an earnest desire to make his family happy; the sisters had grown more lovely in the season of their self-sacrifice. their duty of affection was accomplished; with their own gentle tenderness they had won back the stray sheep to its fold again. It was a rough One of those storms that lash the sea sunset. board with their fury, was raging upon the ocean The homestead stood so near the sea shore that every leap of the waves, and every lash of the angry winds could be distinctly heard on the warm hearth stone. Black clouds were heaped in funeral drapery all over the sky; the fright-ened gulls flew through them, now dipping their snowy wings in the white sea foan, now shorting off in the blackness above. Flashes of angry foam could be seen leaping up from behind the rocks, which lay like sleeping giants all along shore, and beyond was the heaving ocean.

'Charles, Charles, bring ropes, call Neptune, a ship is driving against the rocks. Let us save what we can before the Island wreckers are out.'

It was the voice of farmer Davies, who had run up through the storm, half way from the rugged shore, and stood swinging his hat as a Signal to his son.
Charles snatched a lead rope from the stoop,

and went out—the girls each flung a shawl over their heads, and followed him down to the shore, eccompanied by Neptune, a large Newfoundland

The wind was raging like a burricane as they forced their way down through the gorge of a precipice, overhanging the roaring breakers.— Emma's shawl was torn from her shoulders and carried out to sea; while Catharine lost her omb in the struggle to save hers, and her heavy black tresses were left to the mercy of the wind Still the courageous girls burried on down the slippery rocks and through the storm till they reached the shelf, so near to the surging waves that the spray dashed over them as they crouched on its edge, and watched the laboring ship as the element.' It was a British packet, and the deck was crowded with human forms flinging up their arms in a wild appeal for help, or kneeling moon the deck, stupined with despair. The vessel plunged on directly for the precipice, which loomed blackly above them-it struck, reelect back like a drunken monster, and struck again A shriek—one wild, mighty shriek, rose upward from the riven deck, and the next wave gorged itself with human life.

Farmer Davies and Charles were on the rocks back on the rocks; but the two girls only felt that the loved ones were in danger; that death and storm were all around them, for the jutting rocks shut the father and son out of their view. The dog lay crouching at Emma's feet with his paws extended, and his intelligent eyes fixed on the wreck. All at once he started up, uttering a low growl, and plunged into the boiling surf.

FOREIGN NEWS.

Arrival of the Steam-Ship Britannia?

FIFTEEN DAYS LATER FROM EUROPE! The Royal Mail steamer Britannia arrived restored, though he had transacted business at East Boston on Monday week, about 5 o'clock, from Liverpool via Halifax. She left Liverpool on the 4th inst., and has consequently made the passage in 14½ days, including the detention at Halifax.

The European news is of an interesting character, while the Parliamentary intelli gence is confined chiefly to one subject-the proposed grant to the Roman Catholic College at Maymouth. The Maymouth Endowment Bill has caused an extraordinary excitement, both in and out of Parliament. The debate in the House of Commons, on this bill, was continued throughout one entire week. Numerous petitions from all parts of the Kingdom were presented to Parliament, mostly against the proposed grant, while Protestant meetings, to discuss the question, continued to be held in London and other places. The third reading of the bill was postponed till the 19th of May-in the meantime, the strong party out of Parliament, opposed to the grant, intended to use every exertion to defeat its final passage thro' the House of Commons.

This additional grant to Maynooth is no looked upon in Ireland as a gift from England, but as a just cocession of Ireland's rights.

The English money market was considerably affected by the war rumors. The Lon-

lon Times of the 22d ult. says: "The public securities continue very flat The speculators on the probability of a war between this country and America, have made further sales, and as no counteracting influence is afloat, prices have suffered increased reduction. Consols, compared with Saturday, are a quarter per cent. lower."

The same state of things continued until ports) had taken place. the 24th, when the appearance was slightly improved.

Says the Times, after unfolding the defenceless state of Mexico-"The eager, gain-seeking and roving popu-

ation of the western states of the Union are fitted beyond all the rest of mankind to carry on this kind of surreptitious warfare. They conquer provinces as a cuckoo steals a nest and if their irregular enterprise be allow d to carry with them all the political consequences of lawful war, it is evident that at no very distant period they will have made themselves ma ters of all such parts of the North American continent as are not defended by the forces and the resolution of Great Britain."

It goes on to say that these political results are to be decided by the course Texas shall adopt. The necessity for the exist 1 ce of Texas as an independent power is urged, and is said to be so clear that it will probably have a decisive in uence on the government of Texas, "provided the Mexicans can be brought to recognize in a liberal spirit, an arrangement which is the sole guarantee of their national existence."-After this very distinct intimation that the efforts of Great Britain are directed to this point, the Times

"The part taken by England and France in this question—for we are happy to find that the most entire concurrence prevails between the two great powers by which Texas was first recognized in Europe—has been dictated by no such selfish or exclusive motives. To them individually the annexation of Texas offers no very formidable dangers, and her independence promises no very certain or conspicuous advantages. But they are actnated by a sincere desire to uphold in America that respect for territorial rights which is the only sure basis of piece; and in maintaining the independence of Texas they may hope to establish an important element in the it heaved and groaned in a fierce struggle with distribution of power over North America. FRANCE. The news from France is not of much importance. The Paris journals were filled, at the close of the last month, with comments on the Maynooth question. Nearly all of

them heartily approved the measure.

The Paris "Presse," in speculating on the chances of war between England and the U. States, says that it "learns from a certain source that the British squadron recently fitted out at Portsmouth, and placed under the orders of Admiral Sir George Seymour, is intended to act in the Pacific Ocean. The principal object of this expedition," says the Presse, "is to be ready in case of a rupture between Great Britain and the United States, to occupy, militarily, the ports and impor-tant positions of the Oregon, and to capture the numerous American merchantmen and whalers."

A rumor prevailed at Paris on the 26th. that England had applied to France to join her in a Protest against the annexation of

Texas to the American Union. M. Guizot had been seriously ill, and his health at the latest date had not been fully with the King.

SWITZERLAND.

Affairs in Switzerland are in statu quo. The terms of the amnesty have been arranged, and Lucerne has promised to discharge her prisons. Rumours prevail that the federation about to be divided into the Catholic and Protestant Cantons. The amnesty referred to will cost the other Cantons 500,000f.

MOROCCO. The accounts from Morocco are important. Abd-el-Kader still alarms the Emperor by remaining on his territory. The Emperor, it is said, has really ordered him to quit his States, but the answer of the Emir was, that the soil belonged to God, and that he had as much right as the Emperor to remained upon it. Upon this, Abder Raham gave orders to the chief of one of the most powerful tribes on the frontier that he should invite the Emir to his camp and then seize upon him and send him to Fiz. But Abd-el-Kader, suspecting treachery, paid his visit at the head of 2000 Moorish cavalry and demanded explanations from the chief as to his intentions. The chief, alarmed at the position in which he was placed, avowed the orders he had received from the Emperor, and, of course, was not able to execute them.

Why Women are not Free Masons.

Mr Mackie in delivering a lecture lately on the Antiquity of Freemasonary took occasion to state the reason why women were not admitted as masons, remarking that the fair sex were excluded from associating from the male in their mystic prefession, not because they were deemed unworthy of the secret, not for the want of mechanical or scientific genius. not from their being the weaker sex, but from a consciousness in the men of their own weakness. Should they be permitted to entre the Lodge, Cupid, he said; would iump through the key-hole; jealousy would sometimes rankle in the hearts of the brethren, and fraternal affection be metamorphosed into rivalship. There would be a second confusion of languages among masons—the hand of fellowship would become clenched, and duels might ensue!-But he continued although the most amiable and lovely part of Nature's works are not admitted into our meetings, yet our knightly order protects them from the attacks of vicious and unprincipled men; and we are solemnly bound never to sacrifice the ease and peace of families. for momentary gratification, nor to undermine and take away the transcendant happiness from those whose hearts are united dearest ties of love and affection. We wonder what Mrs. Caudle would say to Mr Mackie!

Steamboat Accidents.

We have taken the following items from the manifest of the steamer Tobacco Plant, which arrived from the Missouri yesterday. It was re-ported in Weston the day she left that the steamer Lexington was sunk. She left Weston Friday, the 9th inst., for Savannah Landing .-No particulars were given, and not much confidence was placed in the report.

The steamer John Golong was snagged below Brunswick, but had proceeded on her trip. We

did not learn any particulars.

The Ione, bound up, struck a snag about 8 o clock on Wednesday evening, one mile above Mount Vernon, breaking as is supposed, twenty to thirty timbers, and sunk in about twenty-five minutes after, in 54 feet water. It was feared that she would break in pieces, as the water was running under ter amidships. Her machinery, furniture, and doors, blinds, &c., of the cabin, will be saved. Part of her cargo had been got out, and it was thought, with the aid of a flat boat, more could be saved, but in a damaged

ton, in the charge of Lieut. Simon F. Blunt, co-operating with the boats of H. B. M. steamer Ardent, under the charge of Lieut. Johnson. The boats went alongside under English colors, the penalty of being seized as a pirate. The American ensign was then hoisted at her gaff, and the colors immediately shifted in the boats, and the schooner taken charge of, evidence having been lodged against her as having already made a successful trip from the same place to the island of Cuba, with 346 slaves under the command of Capt. Gordon, lately in command of the Manchester, by Thomas Turner, who served in both vessels as Capt. G's mate. She was then known by the name of Cavalero, and was built in Baltimore, whence she sailed via New York in 1842. She was afterwards sold, and her regisand ordered the schooner to show her colors on in 1842. She was afterwards sold, and her register returned to Baltimore. Her present crew also testified as to her intention of receiving slaves. The officers and crew of the Spitfire have been committed to prison, to await their trial before the proper tribunal.

THE BEST, and CHEAPEST, MOST UNIFORM SERIES STANDARD SCHOOL BOOKS

To those engaged in the important, but arduous task of instructing youth, McGuffey's ECLECTIC READERS, Nos. ONE, Two, THREE AND FOUR, are now presented, thoroughly revised, and greatly enlarged, with many important improvements. They are now in a permanent

stereotype form, NO FURTHER ALTERA-TIONS being intended. Prof. McGuffey's enthusiastic devotion to the cause of Education, his fine taste and discriminating mind, and his practical experience as an instructor, render him peculiarly fitted for the department of authorship, to which he has given his attention. The suggestions of intelligent teachers who had used the former editions of the series, and the valuable aid afforded him in the revision by an experienced educator, have also furnished him with unusual facilities for advantageously revising and enlarging these

In this series, comprising as it does, a careful selection of instructive, entertaining and moral matter, progressively arranged, and graduated with reference to the capacity of the pupil, Prof. McGuffey has afforded to parents and teachers, a most thorough, complete, and efficient auxiliary in the education of youth. Its extensive use has been sufficient for the development and just appreciation of its many excellencies. The result is, that intelligent teachers pronounce it the most complete series now before the public.

paralleled and rapidly increasing circulation, the publisher is enabled, notwithstanding the heavy expenditure in their revision and enlargement, to manufacture them in the neatest and most durable manner, while they are now furnished at such low prices, that they are the CHEAPEST, as well as the best school reading books extant. JUST PUBLISHED, McGuppey's RHETORICAL GUIDE; or Fifth

Reader, of the Eclectic Series -480 pages, 12mo.; containing copious and minute rules, examples and exercises in articulation, inflection, emphasis, accent, quantity, rhetorical pause, modulation, expression, reading of poetry, rhetorical dialogue, gesture, and their collateral subjects, to which are added a great variety of elegant reading lessons, (about one half prose and half poetry,) selected from the most classic writers; furnishing entertaining and instructive specimens of various styles of composition. This work has been prepared with very great care, and with reference to making it a useful, practical, and standard book; and the publisher confidently hopes, that the Rhetorical Guide of Mr. McGuffey is well adapted to supply the wants of classes in rhetorical reading in our Academies, High Schools and Colleges.

JOHN P. GAINES, Of Boone County.

JOHN BENNETT as a candidate for re-election to the State Senate for this District.

Mr. DAVID HUBBARD is our General Travelling Agent to make Collections, and procure Subscribers and Advertisements. He will visit, during the present and succeeding weeks, the counties of Boone, Grant, Scott, Pendleton, Harrison, &c., and we trust our Whig friends, particularly, will give him a favorable reception.

COVINGTON CONVENTION, THE WHIC CAN DIDATE:

The Several counties composing the 10th Con gressional District, were well represented in the convention, which assembled at this city on the 27th Inst. The utmost harmony prevailed .-All jealousies, and every personal predilections men, who came here, had been told by those says: who sent them, to sacrifice individual preferenwith a promptness and harmony never surpaswed. The people ordered the convention to satisfy themselves; it was not gotten up at the instance of aspirants. Col. Morgan, of Nicholas, Mr. Taliafero, of Campbell, Maj. Wall, of Harrison, Mr. Marshall of Bracken, Mr. Gaines, of Boone, and Mr. Southgate, of Kenton, all had warm advocates. Upon a full, true, and fair selected two, to compose a nominating committee, with instructions how to cast her vote .-The committee, thus composed of two from each county, reported as their unanimous choice, the name of John P. Gaines, of Boone. The report was received with applause, and was warmly ratified by the convention. The nomination could not have fallen upon a better man. Whilst a committe waited upon Mr. Gaines, to notify him of the action of the Convention, Maj. Clarkson, of Boone, the President of the Convention, was called to the floor. He expressed him to speak of his acquaintance with John P.

P.Gaines, who informed him with de-Maj. Clarkson said he had did not believe, belonged to Kentucky.

Mr. Marshall of Bracken, addressed the convention for a short time, in an eloquent and passages. After stating the circumstances unfeeling manner. He took, occasion to say, that, der which he consented to become a candidate, although he had declared to the convention, that | he says: he could not be a candidate himself, it was not because he thought the race a desperate one, but, that he believed Mr. Gaines, whom he knew well, would acquit himself gallantly in the contest; and that Bracken county would make a obtain office, and whenever I have sought it, it standing at the corner of 4th and main. Pierce, good report in August.

Mr. Gaines appeared, welcomed with acclamahe thought the convention had paid him. He tion by the people, and he besought the convenvention, to tell their friends when they went remarks; He will speak for himself in every portion of the District. The convention has given in its ranks. us a good candidate, who, if elected, will do cred-it to himself, and the District. The Whig party has a candidate worthy their support. A soldier in his youth, a plain farmer in his subsefarmer, without early advantage, yet talented enough, and sufficiently well informed to cope consistent in politics, and a decided Whig. The their candidate, and like his old friend of 1813, they will delight to vote for John P. Gaines, for

Congress.

Before concluding these remarks we deem it necessary to state, that the name of no other Marshall would not permit their names to go before the Convention, and the friends of Messrs, Wall and Taliaferro, withdrew the claims of Wall and Taliaferro, withdrew the claims of Congressional District, I shall not hesitate to those gentlemen, for the sake of the harmony of rally under that banner; and do battle in that the party. We cannot too highly commend this great and glorious cause. manly and patriotic course. These gentlemen are good Whigs, of the true stamp, and will never be found throwing obstructions in the way of the good cause, but on the contrary will always be ready to aid in its success. The Whigs of the district owe them a debt of gantitude which

HORRID MURDER.

A horrid murder was committed near Madison, Ia., a few days since, by a Cincinnatian. The name of the murderer, according to the Cincinnati Commercial, is Jas. McMillin, and the victim, was John Sychlyter. McMillin, says the Commercial, purchased a large butcher knife in Madison, with the avowed intention of killing one or both of the Svehlyters, there having been two in town in company, and then on their way into the country; they were overtaken and John \$400. stabbed in the back, when, it is supposed, he fell; gashes were found upon his throat and on his right temple. The very knife McMillin bought was found broken in the dead man's body. McMillin was aided to escape by a citizen of Madison and first made toward Kentucky. So cool and villainous a murder is seldom committed, and it is to be hoped that the offender will not be permitted to cheat the halter of its dues. A reward of five hundred dollars is offered for

The Washington Union announces the receipt at Washington of public despatches from Pexas, which "remove every shadow of doubt up on the acceptance of the terms of our resolutions and the annexation of Texas to the United States." A private letter from a high quarter, states that there is now no division in Texas upon the subject : and another from New Orleans ays that Gen. Houston assured Maj. Donelson by letter, that he should not oppose it, and that he belives it would meet no obstacle from the government or people of Texas. With the brilliant prospect of success thus opened, Major Donelson thought it his duty to retire from the

country.

Another letter enters into details concerning the intrigues of the British and French, which the Union thinks it best not to publish. The writer, however, expresses the belief that if President Jones had not summoned an extra session of Congress, violence might have usurped the place NICHOLAS, J. W. Finnell, J. P. > From the Maysville Eagle. Iron and Coal of Kentucky.

We publish below a second communication or ble subject of Coal, from our correspondent, P.— We recommend it to the attention of our readsubject a special study, and we would be glad to

hear from them.

Mr. Collins,—In my last communication on the subject of the Iron ore of Kentucky, I promised to let you hear from me again on the subject of the COAL mines of our State. As I said before, the two minerals of Iron and Coal are almost co-extensive with our State, a fact which seems almost incredulous to those persons who have not examined into the the resources of Ken-

tucky. The Coal trade has not heretofore been pu sued as a regular branch of business, but as our roads are McAdamized and otherwise improved, and our rivers made navigable by locks and dams, nearly in the same manner as the Iron distric resolutions of the report were then adopted unanimously.

being found together, or nearly connected with each other. Coal is found in abundance on the Big and Little Sandy, and on the Licking, Kentucky and Cumberland rivers, and their branches It is said to crop out along the hills of those rivers, and lies in horizontal veins or strata, from six inches to six feet thick, and as many as three and sometimes four veins are found ascending in some of the hills from the water-level of the country. Some veins have been found on the waters of the Big Sandy, and the North fork of the Kentucky river, from seven to nine feet

The Cumberland Coal is preferred at the Tennessee Rolling Mills to the Pittsburgh Coal, and a great deal of it is taken down that river, and the Big South Fork. The Coal is estimated to cost at the pits, two and a half cents a bushel .-The Kentucky river Coal is procured in the hills, immediately on the banks, and is taken down in flat boats. It finds a ready market at Frankfort, Lexington, Versailles, and the back country or both sides of that stream for many miles.

The Canal Coal of Kentucky is said to be su perior to the Coal procured in the State under that name, but most of the Coal procured in the State belongs to the species called splint, the quality of which is good, and sometimes excelent. It is free from brimstone or sulphur, slightly bituminous and rarely cokes in burning. Large quantities of Coal have been discovered in the following Western Counties, which shows resolution, nominating JOHN P. FRESH supply of the following valuable Medicines just received and for sale by T. BIRD, Apothecary and Druggist, Covington

THE SICK-HEADACHE,

EITHER NERVOUS OR BILIOUS. an attentive perusal of the following will, it is believed, fully repay all classes of readers: HEADACHE.—The disease is one from which arises more misery to the human family than is generally supposed; not being directly fatal, i s often neglected, or persons resort so much to the use of purgatives and other medicines, as to impair their general health, and often induce fatal diseases. The article, DR. SPOHN'S HEADACHE REMEDY, from Comstocks & Co., now offered seems to have overcome these difficulties. While its effects are most powerful and immediate in curing an attack or keeping it off, it is so perfectly mild and innocent as to be used for infants with the greatest effect and safety. This has now been tested by so many of the highest members of this community, as to

require no further proof.

"If taken a few times in as many hours, when there are indications of an approaching attack, it is sure in all cases to prevent the atattack, it is sure in all cases to prevent the attack. If used for a few weeks, the premonitory symptoms gradually subside, until they wholly disappear, and never, without some great external or predisposing cause, return. If the person neglects to use it till the headache commences, it sometimes cures instantly, but at others the turns will have their course for two or three times, and then wholly disappear."

PINK EXPECTORANT SYAUP. An agrecable Cordial, and Effective Remedy for Coughs, Hoarseness, Colds, Pain in the Breast Influenza, Hard Breathing, and Difficult Expec-For Adults and Children in cold climates and

It has remained to a late day to discover an article so admirably fitted to these complaints, so powerful and effectual, and yet so perfectly innocent and mild.

Let not the public class the scientific result of learned Physician and Divine with the nostrums of the day. Let them make a careful per-usal of the evidences attending this article; their respectability, and the decided manner in which they speak, and they cannot withold their belief to some of its virtues. Let us assure them that a single trial of it will do more to convince all of its merits than all they can see or hear on the subject. It is quite certain that no injury has ever been known to arise from its free use.

Cleanliness of the Head and Hair. Strange it is that persons who attend strictly to personal clennliness, baths, &c, should neglect the Head—the Hair—the most essential—the most exposed—and the most beautiful, when properly cared for, of all the gifts of the Ureator Perfectly free may it be kept of dandruff o scurf, with a certainty that the hair cannot fall out, by the use of the BALM OF COLUM BIA. Ladies, will you make your toilet with-out this article? Answer fearlessly no, if you have once tried and experienced its purifying effects-its sweet persume.

HAYS' LINIMENT.

NO FICTION .- This extraordinary chemical composition, the result of science, and the invention of a celebrated medical man.

It is now used in the principal hospital, and in the private practice in our country by an immense number of individuals and families, first and most certainly for the cure of the PILES, and also extensively and effectually as to baffle credulity, unless where its effects are witnessed .-Externally in the following complaints:

Chour and Whooring-Cough -- Externally and over the chest.

ALL BRUISES, SPRAINS, and BURNS-Curing Sores and ULCERS-Whether fresh or long

standing, and fever sores.

Its operation upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of chest by relaxation of the parts. has been surprising beyond conception. The common remark of those who have used it in the Piles, is. "It acts like a charm." Comstock's Medical Almanac for 1845 may be had without charge at the above establish-

CORN MILL. THE subscribers would inform the citizens of Covington and surrounding country, that they have established one of Burrow's PATENT FRENCH BURR MILLS,

DR. DUNCAN'S EXPECTORANT REMEDY,

TANDS ALOOF from the Quack Syrup and Paragoric Compounds which have o inte became a burthen to the public health, and a suspension to the purse. Why is it that these redicines are taken repeatedly by the sick with not removing the complaint in question? The reason is plain and simple, viz:-Because they are composed chiefly of opium and its spiritua reparations which acts on the system as a powerful stimulating anodyne, and by fising repeatedly, the system becomes habituated to its na otic influence, as of those who are given to in

temperance.

This fact has become apparent to thousards who have experienced the fatal effects of such nedicines, and commenced using Dr. DUY CAN'S EXPECTORANT REMEDY, which is entirely free from opium and all other poisonor ingredients, and is used with perfect safety by all under any circumstances. It immediately relieves the distressing cough—strengthens and invigorates the nervous system, causing the settled contagious matter to leave its hold from the lungs, and be discharged by the power of Expectoration. Unless this is done, the lungs vill soon become contaminated from noxion matter, and ulcerate, and fall a prey to the fa tal worm Consumption.

Tobacco.

A Large and well finished Warchouse OR the Inspection and sales of Tobacco has just been completed in the city covington, Kentucky, where there are about Pobacco Manufactories, and being immediately posite the city of Cincinnati, the very exten sive manufacturers of that place have only 15 minutes' walk to reach said Warehouse. The undersigned, lately appointed Inspectors, under the law of the State of Kentucky, are now ready to recive for inspection, storage and sale, consignments of all kinds of Tobacco; fo which there is a large and constant demand in

this market. We would particularly advise planters, to cultivate the Somerville Cigar leaf, which is in great demand; the same (if not a greater) quantity can be raised on an acre of ground, (i being planted only two feet apart and topped to from 12 to 18 leaves,) and the present sales are at double the prices of the common Kentucky Tobacco. We feel confident the interest of all desirous of making sales in this market of all desirons of manager will be greatly promoted.

CONSUMPTION and BLEEDING AT THE LUNGS CUR"D By the use of "Dr. DUNCAN'S EXPECTO RANT REMEDY."

ISS EMELINE YEAGER, aged seven-ly teen years, was taken when at the age of sixteen with a slight cold, which she neglected until the LUNGS fell a prey to that seeking de-strayer, CONSUMPTION, when application to a physician was made, but to no effect, he considered her case a hopeless one, and prescribed but little medicine for her. In the meantine she discharged great quantities of blood, with much expectoration of thick phiegm and cough. Her bodily frame at length became reduced to living skeleton. Her last was anxiously looked for by her friends, that her sufferings might end by the pangs of death. During the time her physician frequently called, and, as the last resource, determined to test the virtues of "Dr. DUNCAN'S EXPECTORANT REMEDY," having noticed some extraordinary cures per formed by the medicine in similar cases. He a once obtained two bottles and administered it to her. The fourth day he found some change, which gave hopes. He continued giving the medicine for eighteen days; at that time she vas rendered able to be walking in her bed chamher, to the astonishment of her friends and reltives. She continued using the medicine for eight weeks, when she declared herself entirely free from disease and pain, and now pursues her daily occupation in perfect health. A small pamphlet accompanies this med-cine, which gives a full description of diseases, the manner of treatment, &c. &c.

CREAT WESTERN EARD AGENCY,

No. 30. Front Street,

CINCINNATI, OHIO. The undersigned having been heretofore ensively engaged in the sciling of REAL I TATE in the eastern cities, was induced by numerous friends and acquaintances, to rest. that branch of business in the west. He i cordingly opened, temporarily, an Office, at his Lecture room, North East Corner of Main and fifth Streets, Cincinnati, where he has been patronized for the last year, beyond his most sanguine expectations. He has now removed to Front Street, in full view of all the Steam boat arrivels and departures, where he is ready to receive propositions for the purchase and sale of Real I state, of every variety, in Cities, Towns, or Count y.

His extensive and intimate acquaintance in all the Eastern States, and in most of the large. ities of the Union for the last twenty-five years, will give him very decided advantages in procuring purchasers from a distance. His Stenographic profession has given unrivalled facilities for correspondence with hundreds of editors and publishers in different parts of the United States, by which means he can more readily make known the relative perits and advantages of property brought within his agency. (As a proof of his facilities, he would remark, that on a forner occasion, he sold in a single-year, within a single county of Fennsylvania, forms and town tots to the amount of \$600,000—thus bringing into the packets of his immediate neighbors, from the large cities and remote parts of the Union, cash in hand payments, to the amount of \$150, 000 within the year.)

As soon as patronage will warrant, he will, in addition to the ordinary duties of a local agent, resume his former practice of visiting the large Eastern Cities, as often as once in six months-to spread his propositions before capitalists, to exhibit and explain maps, charts and descriptions; to organize Manufacturing companies, Land Companies, Joint Stock Societies, Social Communities, etc., etc.—to receive orders, and perform such other functions, as pertain to a general land agency, between the east and the west, the no.th and the south, or with various countries of Europe.

In the mean time, persons wishing to self farms, town lots, or other real estate, are respectfully invited to call at the office as above described, where the most satisfactory references will be given, and abundant evidence shown of the numerous facilities which this establishment will possess, over every and all others, in the east or

All communications through the Post Office. IF POSTAGE PAID, will receive prompt attention. OFFICE HOURS FROM 9 TO 3 O'CLOCK. M. T. C. GOULD. General Land Agent.

AIR TONIC.—The following communica-Hamilton College, N. Y., in addition to hundreds of others enqually respectable should remove the doubts of every reasonable person of the uniform and singular efficacy of Jayne's Hair Tonic:

HAMILTON, Feb. 18, 1840. DR. JAYNE, Dear Sir-I cannot say that my hair is restored but I can say that it appears to be in is rapid a state of restoration as could be reasonably expected. I had not finished the first bottle before a decided change was manifest over the bald part of the head to which it TEETH UPON GOLD PLATES.

His operating rooms are on Fourth street between Main and Walnut, Cincinnati. third bottle, but have been a good deal irregular in the use of the tonic from the first, and from this cruse I apprehend that the effect is probably less at present than it would otherwise nave

I began the use of the Tonic with little or no faith that it would ever be suscessful on my head, though I felt entire confidence in your statement of what it had done to others, and I was as much surprised as astonished when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly if not quite an inen long at the time I had it cut, on the past that was nearly distitute of any when you saw me. It was however very fine though quite thick. I am flushed with the sarguine hope of final success, by the dilligent use of your tonic which (amid all the "hair humbugs" which have been advertised in the papers. I am constrained to believe is wha it pretends to be, and "that it will make the hair grow and no mistake," at least on some heads.

Handonfield, N. J., Feb 12, 1838.

DR. D. JAYNE: Sir-I take great pleasure in informing you that the bottle of Ha'r Toni-which I obtained of you last October, has proved most successful. My hair had for a long time been exceedingly thin; But for two or three years past had so fallen out, that I had become entirely bald, and was under the necessity of of combing the hair on the side over it, and the concealing it. But now after using about hal a bottle of the Tonic I have as luxuriant growth as ever I had.

PROOF UPON PROOF. Who can longer doub the excellence of Jayne's Hair Tonic, when everybody says it is the best article in the work to restore the head from baldness and beautif the hair. Read the following from the Rev. John P. Hall, of Ridley Pa: DR. JAYNE. The Hair Tonic which I of

tained at your office has been of service in preventing the falling off of my hair. Indeed ther Yours, affectionately
