DENTAL OPERATIONS.

DR. CARTER hav ing permanently located in the City of Coving-ton Ky., returns thanks to his old friends and customers in this and the several adjoining counties, for their liberal patronage for the last six ears, and by his unceasing application to business, he hopes to merit a continuation of the same. He is prepared

to perform all operations relating to dentistry,

(surgical or mechanical,) with the best and most

select materials. For the satisfaction of those who have never had an opportunity of testing the neatness and durability of his operations and those who may favor him with their custom, he would state that he has been engaged in the dental profession for more than sixteen years; during which time he has spared neither time nor pains in acquaint-ing himself with all the various improvements made in the profession—six years of which time has been exclusively spent with three very emiade in the profession-six years of which time nent workmen from the East, for improvement in the dental art. From the universal satisfaction that he has heretofore given, he does not hesitate to say that in all available cases, however difficult, he insures success.

Pennsylvania, 1846. THE TWO STEW-PANS. BY MRS. H. C. KNIGHT. So my young friend Mary had again invited me to visit her at her new home. 'I will go,' I said joyfully. 'I desire so much to see ber bright face again, and her husband too, and then to behold how becomingly she wears the honors of lady matron in her new house. In a few days, matters were arranged to go; then a charming half-day's ride brought me before her door. 'Surely, it is pretty here,' I inwardly exclaimed; "this dear little front yard, and that white rose, trained so lovingly over the window; Mary's sitting-room, I suppose; and the house so white and well kept; and green blinds, so cool and shady in summer; and the front entry with simple straw carpet-it looks so pretty here; so quiet, so truly home-like,' and I ran after my baggage up the flag-stones. Some one came down stairs—'Ah, Mary!' and we embraced each other. 'Come directly into the sitting-room,' she said, opening the west door. True enough, it was the sitting room. Behold the green and graceful drapery of the white rose before the nice, fat baby in my arms. 'Beautiful baby!' I exclaimed. 'Ah, Mary, what a treasure!' It looked amazed at me, then smiled and kicked about its little fat feet right lustily. 'Baby knows I am its mother's friend,' I said, as I kissed his rosy cheeks with cordial good will. Then came Mary's husband. He is a favorite of mine-so kind and sensible he is quite business-like in his manners. with a heart brim full of friendliness: if you ever feel like asking a favor, go to him, Mary's husband. Supper followed, and a merrier three never sat over a cup of tea. these nice white cakes, and this delicious rispherry! These could only come from a skilful hand! Mary laughed, and her husband seemed to enjoy them anew through me. Then we went into the little garden and sat awhile on the beautiful piazza;

accompanying us in his father's arms. Every thing was in keeping which I saw, at least .-Then we walked out to take a bird's eye view of the village from a hill hard by. Every thing pleased me. 'So then Mary does finely, after all,' I reflected, after retiring to rest, I knew she would; how beautiful is it to see two young people beginning life together. How fresh is every thing. Yes, and how new and clean, and how easy to keep clean; and my mind unceremoniously wandered from the romance of a young wed ded couple to the difficulty of keeping an old

no! it is not done!' cried Mary, from up stairs. I will do it now; but no, I am not dressed yet myself, and she ran from this drawer to that quite hurriedly. One finds so much to to in house-keeping, she said to me apologetically, and withal, pettishly.

One day Mary promised us an apple-pudding, her new way, with potatoes in the flour.

It was an especial favorite of ours, her husband, and myself. 'Your pudding, Mary,' 1 used for almost every conceivable purpose suggested, taking advantage of our friendship, as we sat together in the forenoon. 'Yes, I know it; I am just going,' Then she began to tell a story, then placed a plate of cake before me—then—she was doing nothing, there lay the baby frolicking on the floor. 'The pudding, Mary,' I said to myself, 'it will not be done; then what will Mr. -say?' Ah! I well knew what husbands sometimes thought and said at a halfcooked dinner. If you have been a busy idler during your maidenhood, in your mother's parlor, you have little prospect of usefulness, prosperity, or enjoyment, as a wife, a mother, and a matron, unless you are willing to see with your own eyes, to work with your own hands, and become the ubiquitous mistress of your

On the little cross-cut called Pearl street, running down Third to Dock street, there is a large lugubrious building, which, in the course of the last twenty years, has been from a turner's shop to a meeting house, and even a Jewish Synagogue. The character of the building is not inaptly set forth by a scripture quotation, which our Hebrew breth ren placed on the outer wall, while they were tenants and worshippers within:

A short time since we were struck with sounds from the room at an unusual hour for music. We listened, and the school was apparently in full song. We could catch a few words. the Bill to protect the rights of American settlers in Oregon was referred to the Com-mittee on Territories, gave rise to some debate, in which Messrs Allen and Huntington took part, after which the resolution was withdrawn. The Senate then proceeded to the special

Of this \$15,000, Mr. Webster returned \$5,000 in June 1812, and \$1,450 was settled by President's certificates in July 1842, the greater-part of which was applied to the corruption of the public press, through the agency of Mr. F.O. The evidence of all this, Mr. Ingersoll said, could be found in the Department. The rules were then by a vote of 135 to

22, suspended to enable Mr. Ashmun to reply. He did so in a very severe manner, pronouncing the accusation of Mr. Ingersoll, as false, and that the respectable portion of all parties would be disgusted at the course, he had pursued. He reviewed some por-tions of the former course of Mr. Ingersoll, and said it was evident that had Mr. Webster been present, and a member of the House, Mr. Ingersoll would have bitten his tongue off before he would have dared to make the charges. He said it ill became a man to charge another with peculation, who had himself been turned out of office by President Jackson for peculation. Mr. A. then referred at some length to the particulars of the accounts of Mr. Ingersoll, when, in 1820. he was tried as a defaulter.

Mr. J. R. Ingersoll stated that as he was employed on that occasion as Counsel for his brother, he would on the honor of a gen-tleman say, that his brother having tried for a long time in vain to bring the Government to a settlement of his accounts, at last himself, proposed that the whole matter should accordingly settled in that mode, in an honorable manner, and to the satisfaction of all parties concerned.

Mr. Ashman, after paying a high compliment to Mr. J. R. Ingersoll, went on to refer to the facts as he found them in the public decuments, and which showed that Mr. C. J. Ingersoll did not pay the balance found against him by the jury until nearly ten years afterwards. Mr. A. went on to say that insidious attempts had been made to induce ex-President Tyler to break ground on this subject, and to disavow having sanctioned

FUNNY .- An incident occurred on board the new steamer Governor, the other evening; which caused a deal of mirth among the by standers. At the back of the marble-topped table on which the way-bill is deposited, in the cabin, is a very large mirror. An old gentleman, who wan ed a passage; stepped up to this table, and in the dim light, seeing his reflection in the glass, fancied that it was some one of the officers attached to the boats "Spare Berth, sir?"

Licking Improvement. We sincerely trust that the friends of this fect its accomplishment. It is useless now to portion of the State. When we take into consideration the rich beds of iron ore, the fine timber and other sources of wealth of the upper Licking: the great agricultural resources of the lower counties, including Fleming, Nicholas, Harrison, Pendleton, Campbell, Kenton &c,-all of which are now locked up, as it were for the want of convenient means of transportation-we are astonished that the Licking river has been so long neglected. It is not sectional advantages, alone, which the work would promote. However great these would undoubtedly be, yet it cannot be denied that the whole state would benefit by it. That which adds to the wealth, and development of one portion of o state, must add to the wealth of the whole There is no maxim in political economy mor susceptible of proof than this. And whatever retards and depresses the energies, the enter prise or the wealth of one section, operates against the interest and prosperity of the whole state. Why, then, has Licking been so wofully neglected? Because, simply, sectional feeling, narrow, contracted views of public poli cy, have overruled the dictates of right reason and sound policy. But let the friends of the improvement continue their exertions withfunabated vigor and zeal, let union, concert of action and a determination to succeed, prevail among us, and despite the difficulties that encompass us, our brightest hopes will ultimately be ful-

Another reason why this work should be com pleted, is the acknowledged fact that it would greatly enhance the value of land in all the coun ties bordering on the Licking, thus adding to the State's revenue, and increasing the wealth of her citizens. Those counties, most of which are now sparsely populated, would soon be filled with a dense and thriving people. Surely this is "a consummation devoutly to be wished."

It is well known that the late Legislature a its last session, passed an act, surrendering the works of the State on the Licking to an incorporated company, and giving to the company the right to improve the river, and receive all emoluments and profits that may be derived from its navigation. A convention of the friends of the work is to assemble at Blue Licks on the 15th of July next, which we sincerely hope will be well attended. In the meantime, as has been suggested, we would advise the commissioners, appointed by the Legislature, to open books for subscription of stock, so as to report their progress to the convention. It has also been suggested-and we think the idea a very good one-that county meetings be held in all the the counties inter ested, and that proper persons be requested to address the people on the subject. This would beyond all doubt, arouse public feeling to a sense ofits importance, and create a wholesome sentiment among the people. Let no stone be left unturned, friends of Licking, to speedily ef fect this great undertaking. With proper exertions the required stock may be obtained, and in a few years, the Licking river will become a great thoroughfare of trade.

MAY. All things are new-the buds, the leaves.

All things rejoice in youth and love.1 There is no month of the twelve we so much love as May. It is the month of the heart-the month of the affections—the one in which, if really sparkled with Nature's gems. Oh! it there be feeling, or love, or gayety in our disposition, it is brought forth—the one in which mis anthropy and gloom are dispelled-the one in which our spirits are as buoyant and free as the gentle winds that waft above us.

Nature, indeed, takes some time to prepare us, psycologically, for its reception. The conglaciating blasts of winter and its frigid frosts-the sombre clouds hiding the blue heaven and its ture and humid atmosphere. Then comes the fickle month of April, with its sunshine and its showers. Now the sky beautifully azure, and then o'ercast and weeping bitterly. "The uncertain glory of an April day, Which now shows all the heauty of the sun, And by and by a cloud takes all away."

There is no fixedness, no stability about this April weather. As Byron says, (though we would obliterate the first five feet of the last

But after April comes May-sweet, gentle, roseate May, with its trellising vines and lenfy boughs; its verdant fields and soft odorous

atmosphere, its gentle zephyre, care sing the

tiny heads from the gaze of the sun.

What a happy effect this month has on us; it renews our spirits and energies. When we look on Nature and see every object teeming with life and activity—the air filled with the rejoicings of birds, and the hum of insects-the earth crowned with vegetation-the sky clear-the sun bright, the breeze beautiful and pure, we cannot but he pleased. Such a month diminishes the miser's avaricious avidity; -- Such a month draws the aged and enfeebled, into the open air, that once again they may feast their dim eyes upon green fields and lovely prospects-Such a month is the lovers; he may go forth unto the silent, quiet stream, whereon the burnished orbs of heaven are mirrored, and there pour dulcet speeches into the hungry ear of her he lovessuch a month the book man, the wearied student, would select to wander in, and have his senses regaled by the perfumery of the wild

We have been led to the above train of thought by the recollection of the ceremonies we witnessed in this city, on the 1st of May. Mayday was joyously celebrated by the pupils of the various schools. The whole proceedings were conducted with the utmost taste and propriety. The pupils of Miss Howell's school repaired to a grove in the morning and those overed up their

We have lost one in the Senate, and if the Kanawha district sends a Democrat, our majority in that body will be 8-otherwise 5.

THE TARIFF .- VERY IMPORTANT .- The National Intelligencer, of Saturnay, says:-"From what we have casually heard in conversation, we think it quite possible that the Tariff question, and some others, may be suffered to lie over to another Session, and that the appropriation bills, &c., may be passed in short order, so as to allow Congress to adjourn much earlier than they possibly can do, if the majority in Congress should, as the government paper has intimated that they positively would, seriously endeavor now to pass a new Tariff bill. We learn from the North Carolina papers, that the Locofocos of that State are experiencing some difficulty in the selection of a gubernatorial candidate. Mr. Shepard is the more approved candidate, but Mr. Leak is running independently, and is actively canvassing the State. CAN CONSUMPTION BE CURED This question is asked by many anxious souls who, perhaps are in the last stage of the disease, or have some near or valuable friend thus afflicted to this answer, painful as it is to say, that few ever recover. Death cannot be deprived of its prey, when disease has knitted its fatal threads upon the vitals. It is therefore of the utmost importance for all persons who may have a bad Cold, Cough, pain in the breast and side, soreness of the throat, difficulty of raising up the phlegm and matter that accumulates upon the lungs, in the primary stages, and leads to Consumption when not removed. To such as are afflicted, I would recommend them to procure at once a few bottles of Dr. Duncan's Expectorant Remedy, which is certain to remove. all the first symptoms that often hang so long to Gedge and Bro's.

the system, and finally destroy life. A RELIEVED SUFFERER. Dr. Duncan has opened a Western Medical Office, 150 Sycamore st., where his medicines are sold, wholesale and retail. Advice given in all diseases.

OUTSIDE CURTAIN LECTURES

NUMBER ONE. In which Mr. Caudle recommends B. Hibbards

Pills. YOU needn't say to an old friend "you don't care," and "you'll take nothing," see what's the trouble, well enough—so come on my dear fellow, come up to the trough, and take a little something to do you good. You'll take brandy!" No, it's not brandy mean, nor provender, no, nor a piece of dea swine either. Jupiter! what a face you make! Sick as death and can't vomit! Just put on my old specs of mesmerism and clairvoyance and take a look inside—so—note do you see what's the matter?.

Your stomach and bowels there, the great

kitchen fire-place and chimney of the house you live in, and all the pores of your body being so many thousands of little chimneys besides, end opening out all over the outside of you cabin, are absolutely choked up with the black soot of bile and the pulrid smoke of obstructed perspiration, that's now pouring back into every nook and corner of your dirty kitchen. Don't you see, the fire of digestion can't burn so us live for the smoke! Don't say "you don't want to live;" its very sinful to talk in that wav .-But Ive got something for you-a chimney sweeper, yes, and one of the right sort. Just open your mouth—What! "you're not going to swallow a chimney sweep?" O, that was mere ly a figure. It's only a good pill, my sweet fellow the best kind of pill you ever—"Go to the d——I with all pills!" Did you say that? and-'you can't bear to be gagging and swallow ing with half a dozen pills in your throat! nor I either—but skip the hard words, if you please—I was just going to tell you, that from half a pill to one pill, of this truly wonderful medicine, the REV B. HIBBARD'S VEGETABLE ANTI Bilious Family Pills, is generally a sufficient dose for man or woman. "Plenty of calomel in dose for man or woman. "Plenty of calomel in them you'll warrant!" I tell you no, they are purely vegetable-eat and drink what you like 'What are they good for? No doubt they're a certain care for every thing!" O to be sure, yould be glad to have me say that, and the next

thing would be, "they cure too much." There is nt a spirk of good nature about you!
Snarling, ungrateful wretch! "You beg pardon," Well, never mind, I know you're a' sick man, "What are livey good for?" Good for all Fevers, Fever and Ague, and all bilious attacks; also for local affections, as Colds, Coughs, Bronchitis, Croup, Pleurisy, Jaundice, Dyspep sia, Sick-Headache, Dysentery, Worms, Rheu-matism. Oh! "you supposed these complaints as offecting the different organs were opposed to each other, and that the same pills curing them all would be a contradiction." Indeed! then why not suppose the same organs to be opposed and kicking up a row with each other when a fellow is dying of hunger, and consequently that the same kind of food would not be adapted to all parts of the body? Shall we, then, take pork for the stomach and cabbage for the liver? Or does it need to be demonstrated that what ever kind of medicine removes any genera cause of disease, must be adapted to all complaints arising fr m that cause? But Hibbard' pills are not recommended for broken bones, and they positively wont cure the last sickness. So come along, my old companion of by-gone bachelor days, and have done with your learned a insense "You think you'll take one?" Ah! that's the way to speak it. Open your heart to good counsel, and your mouth to one of these good

Those who Counter eit a good medicin for the purpose of adding a few dollars to their pockets, are far worse than the manufacturers of which have been selected in all the Eastern mar-kets with the utmost care, and offer them at the us of our property, the former takes properly, health and life away Dr. Wistar's Balsam of Wild Cherry is admitted by thousands of disin terested witnesses, to have effected the mos extraordinary cures in cases of a pulmonary and asthmatic character, ever recorded in th

nistory of medicine. The young, the beautiful, the good, all speal forth its praise. It is now the favorite medicine in the most intelligent families of our

Such a high stand in public estimation has been achieved by its own merits alone. And so long as a discerning public are careful to get Wistar's Balsom of Wild Cherry, and refuse despairing family.

Wistar's Balsam of Wild CHERRY.

FOR Diseases of the Lungs and Breast! For the cure of all breast complaints, such

Asthma (or Phthisic) Coughs, incipient or seated Consumption.
From Dr. Baker, Springfield, Washington ounty, Kentucky. Messrs. Sanford & Park,

SPRINGFIELD, Ky., May 14, 1845. GENTS.—I take this opportunity of informing you of a most remarkable cure performed upon me, by the use of Dr. Wistar's Balsam of Wild Cherry. In the year of 1840 I was taken with an inflamation of the bowels, which I labored under for

ix weeks, when I gradually recovered. In the

full of 1841, I was attacked with a severe cold which seated itself on my Lungs; and for the space of three years I was confined to my bed,-I tried all kinds of medicines, and every variet f medical aid without benefit; and thus wearied along until the winter of 1844, when I heard of Wistar's Balsam of Wild Cherry. My friends persuaded me to give it a trial though I had given up all hopes of recovery, and had prepared myself for the change of anothe Through their solicitations I was in duced to make use of the genuine Wistor's Bal sam of Wild Cherry. The effect was truly astonishing. After five years affliction, pain and suffering; and after having spent four or five hundred dollars to no purpose, and the best and most respectable physicians had proved unavailing, I was soon restored to entire health by the blessing of God and the use of Dr. Wistar's

Balsam of Wild Cherry.

I am now enjoying good health, and such is my altered appearance that I am no longer known when I meet my old acquaintances. I have gained rapidly in weight, and my flesh is firm and solid. I can now eat as much as any person, and my food seems to agree with me. have eaten more food during the last six month

then I had enten five years before.

Considering my cure almost a miracle, I deem it necessary for the good of the afflicted, and a duty I owe to the proprietors and my fellow to make this statement public.

May the blessing of God rest upon the promitted as a Wistorle

THE ONLY AGENCY IN CINCINNATI For Dr. CHRISTIE'S Galvanic Rings, Belts, Bands, Bracelets, Plasters

AND

MAGNETIC FLUID

ALVANIC RINGS AND MAGNETIC FLUID. This remarkable discovery coinprises an entitely safe and, novel application of the mysterious power of Galvanism, as a remedial agent. The Galvanic Rings in connection with the Magnetic Fluid, have been used with entire success in all cases of RHEUMATISM; cute or chronic, applying to the head, face or limbs; Gout, Tic-Doloreux, Toothache, Bronchitis, Verligo, Nervous or Sick Headache, Indi-gestion, Paralysis, Palsey, Epilepsy, Fils, Gramp, Palpilation of the Heart, Apoplexy, Stiffness of Joints, Spinal Complaints, Lumbago, Neuralgia; Nervous Tremors, Dissiness of the Head, Parns in the Chest and Side, General Debility, Defiiency of Nervous and Physical Energy, and all Nervous Disorders. In cases of Dyspepsia. which is simply a nervous derangement o digestive organs, they have been foutid equally successful. The Rings are of different prices; heing made of fill sizes, and of various orna-mental patterns, and can be worne by the most delicate females without the slightest inconven-

Are modifications of the invention, and are recommended in more chronic cases of disease, where the rings do not possess sufficient intensity of power. They are adapted to the waist arms, wrists, ancles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galanism can affect, will fail to be permanently relieved. Christie's Maguetic Fluid,

The Galvauic Belts, Bands, Bracelets, &c.

Is used in connection with the Rings and their N. B The Oil Manufactured at this Estab-nounced by the French Chemists, to be one of ishment is warranted equal to any that can be offered in the United S ates.

It is believed to possess the remarkable power. of rendering the nerves sensitive to Galvanic action, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief.

Christic's Galvanic Strengthening Plasters. These articles form an important addition to the Galvanic Rings; acting upon the same better ciples, but having the advantage of more local application. As an effectual means for strength ening the system when debilitated by distast or other causes; as a certain aid in constitutional weakness; as a preventive for folds, and in all affections of the chest generally, the Gaix and STRENGTHENING PLASTERS will be found of great

and permanent advantage.

COMMERCIAL INSTITUTE, N. E. Corner of Vine and Fifth sts., Cincinnati, O The design of this Institution is to qualify young men in a thorough practical manner, for the Counting House. The Course will embrace Book-keeping by Double Entry, Commercial Calculations, Commercial Letter Writing and Practical Penmanship. BOOKKEEPING BY DOUBLE ENTRY

A complete course of practical Instruction will be given in this Science, embracing every Department of Trade and Mercantile accounts, viz: Wholesale, Retail, Commission, Exchange. Shipping, Banking, Individual. Partnership an Compound Company Business. The subject of Closing and Re-opening Books Balancing and Adjusting Individual and Part

nership concerns, will be explained and illustra In place of the common method of copying

tries in every variety of Mercantile Transac-tions—thus obtaining in a short time a more ex tensive knowledge of the science, than could be acquired for years in a Counting House. COMMERCIAL CALCULATIONS,

Which will be taught according to the most mproved methods used by Merchants and Brokers in the valuations and allowances of Merchandise, Calculations of per centage, Interest Commission, Exchange, Equation of Payments,

COMMERCIAL LETTER-WRITING. Embracing the general particulars of Letter Writing as connected with the different branches of Trade, in concluding the general forms of Invoice, Accounts, Sales, Bills of Exchange, &c PRACTICAL PENMANSHIP,

Taught in all its variations. In completing the above course, the principals will obligate themselves to make every pupil a good practical nenman.

A good hand writing is not only one of the greatest accomplishments, but it is also indispen-sibly necessary to the business man as well as the accountant. An individual however good in accounts, if deficient in writing cannot be considered properly qualified to take charge of a set of books. It should then, be an important consideration

I have tried a great many remedies, which has cost me a good deal, and employed several Physicians, but I am sincere in declaring that no remedy I have tried-did me the least good. Seeing and conversing with several persons that have been relieved, I was induced to make trial of the Indian Magical Expectorant, which, I am happy to say, has afforded me entire relief, and would say to all those who are afflicted with sore throats, and in-digestion, use the Indian Magical Expectorant

which will afford you quick relief.

Health is every thing; without it we are misg erable beings. Let us see what the Press, Dr. White, and his Patients, and the Public say of the remedies which have gained such flattering and extensive celebrity over the whole Ohio, Mississippi, Missouri and Arkansas Valleys, and wherever they have come within the knowledge and reach of the public-that seem to be so eminently worthy of

a trial for all our woes. We are satisfied that the remedies and means are at hand, that may greatly prolong the duration of human existence. We advise every individual not to disregard his health-perhaps fame-when the best energies of both body and mind are depressed, or weighed down by smoul-dering Drugs and Diseases within. We do not believe that one, of all the Compounds, official or otherwise, prepared with all the collected wis-dom of the past, in this or any other country, can so soon unload the system of the remains of diseases and deleterious drugs; so clearly and eminently work their own efficiency and growing

fame, year after year, at home and abroad—as Dr. White's Vegetable Elixins. Blessed with the gift of a kind providence our-selves, good health, we do not often give a pref erence of one over the other, to Allapathic, Ho-mocopathic, Hydropathic, or the "Reformed Practice of Medicine,"—but when all who have witnessed the effects, gratefully appreciate, and far and near, embrace every opportunity to call the attention of their afflicted friends to "Dr. White's Botanic Medicines," we may and ought to join in giving notoriety to medicines which are doing so much good, and which when fully known are esteemed above all others, and above

all price.

His Elixirs have performed the most extraordinary cures of any other known medicine, having snatched, as it were, from untimely graves thous ands of persons afflicted with Consumptions, Colds, Coughs, Inflamation of the Lungs, Asthma, Dyspepsia, Chronic Diarrhea, Scrofula, Female Weaknesses, the Secret and Mercurial Diseases, Ague and Fever, Rheumatism, Dropsey, &c; White's Magic Liniment and Vegetable Pills are unequalled for their sanative and curative powers. Let the afflicted try Dr. W.'s medicines, and they will bless the day that they were induced to do so. Thousands of grateful hearts are proclaiming the wonderful cures performed upon hem, when every thing else had proved it

self futile. Myself and a boy living with me, have had ve ry bad coughs for months and years, and having tried in vain, everything, from the most famed to the less known medicines that seemed to give hopes of relief, and when Dr. White's Vegetable Elixir was recommended to me, I could not but give way to my feelings, and pronounce his too a humbug. On reflection, however, I obtain-ed a bottle, containing three guls, on the condition of no cure no pay—and double pay if it did cure. It This one bottle cured the boy and myself, and I have reasons for believing that its equal cannot be found in the United Statesand therefore, in as strong terms as friend Bry-ant has, do I also urge the afflicted to try Dr. White's remedies. As long as I can procure them, I intend never to be without them in my
