American side; and the simple question is, which side shall we take? The great struggle is between the British and American far mers and mechanics for the American market, and we must decide which shall have it.

Mr. S. would here take occasion to state a

fact that would startle the American people. The British manufacturers have, at this moment, possession of this Capitol. Yes, sir, I tell you and the country—one of the principal committee rooms in this house is now, and has been for weeks past, occupied by a gentleman formerly residing in Manchester, England, who has a vast number, perhaps hundreds of specimens of goods sent from Manchester (priced to suit the occasion) to he exhibited to members of Congress to enlighten their judgments, and in the language of his letter of instruction from Manchester of the 3d January, '46, accompanying these specimens, to enable them "to arrive at just conclusions in regard to the proposed altera-Yes, sir, agents, tions in the present tariff." specimens, and letters from Great Britain instructing us how to make a tariff to suit the British. Mr. S. here expressed the hope that the people of the North would send on specimens of American manufactures to be also exhibited in the Capitol, not only to show their perfection and extent, but to correct on the spot the false representations made by these Manchester men and their agents in regard to the character and prices of he would avail himself of the first proper oc-British and American goods. Speaking of the President's message, this Manchester letter writer exclaims "a second Daniel come to judgment, a sec ind Richard Cobden so delighted were they in England with Mr. Walker's celebrated free trade report that it was ordered to be printed by the House of Lords. After all this, having our President and Secretary on their side, they ought to have been content, without sending their let ters of instructions here to direct us what kind of a tariff they wish us to pass. But if their chancellor had sent us a revenue bill, he could not have furnished one to suit Great Britain better than the one furnished by the Secretary of the Treasury. Parliament would pass it by acclamation. Sir Robert Peel understands his business; he proposes to take the duties off breadstuffs and raw materials of all kinds used by their manufacturers, and remove-every burden, so as to enable them to meet us and beat us in our own markets and in the markets of the world, where Yankee competition is beginning to give them great uneasiness. Last year, we exported hundreds of thousands of dollars worth of cotton goods into the British East Indies, and beat the British in their own markets, after paying discriminating duties imposed to keep us out, first 8, then 10, finally 15 per cent. In this great struggle, Sir Robert Peel comes

living. But this is not only the doctrine of the Treasury report, but of the message itself.— The revenue standard laid down in the message aims a death blow at all American industry. It suggests a kind of "sliding scale, so that whenever any branch of American industry begins to beat the foreigner, and supply the market, and thereby diminish imports and revenue, this is evident that the du ty is too high and ought to be reduced, so as to let in the foreign rival productions; but let the President speak for himself—here is are as wide awake as wensels, but by no means

purpose of collecting money for the support of Covernment. To raise the duties higher than that point, and thereby diminish the amount collected, is to levy them for protection merely, and not for revenue. As long, then, as Congress may gradually increase the rate of duty on a given article, and the revenue is increased by such increase of duty, they are within the revenue standard. When they go beyond that point, and as they increase the duties the revenue is diminished or destroyed, the act ceases to have for its object the raising of money to support

and break down Americans? The moment

skill begins to succeed, then the duty must come down so as to increase foreign imports and revenue. This is the plain and inevitable operation of the rule, and who would go into manufacturing under such an anti-American rule as this, making it death by the law certain and inevitable. As an illustration, take iron for instance. Owing to the rapid ult., and is of a pacific character. The advices increase of iron works in the United States, that went out from this country by the Hibernian the import of iron has been greatly reduced; then the Executive rule applies-down with serve peace between the two countries. the duties, so as to increase imports and revenue. Political Affairs.

Notwitstanding Mr. Polk's declaration, in his letter accepting the nomination for the Presidency, that he would not be a cardidate for re-election, it is well known, and, we believe, not denied, that he is using all his influence and patronage to secure that object. His whole policy, weak, imbecile, full of blunders as it has been, points that way. But we think he will be unable to gain his point. The political elements are boiling with great violence. The Correspondent of the Baltimore Patriot furnishes us with a very correct view of the state of affairs. It is well known, says the corres pondent, that Mr. Calnoun, if he lives, will be an if not the Anti-Convention candidate for the Presidency in the next campaign-and it is, equally well known that in this matter Senators McDuffie, Lewis, Colquitt, Speight. WESTCOTT, and perhaps others, will sustain him. The resolve has been made, that no National Convention, convened for the purpose of nominating some fourthrate man because of his negative qualities, and because he is not known to the American people, shall have further weight with or control over Mr. Calhoun and the Sanators alluded to.

The editor of the "Union" has essayed, in a personal interview, to take one or two of these refractory members of the Senate to task for their obstinacy in this matter, and, from the pointed rebuff he received on the occasion, must he satisfied that no coaxing nor scolding can shake the determination they have formed. Hence, it would seem, from an article in the official organ, that a grand effort is now to be made to throw the Administration, and Mr. POLK's chances for a re-election, into the arms by all whose task it is to push the quill. We of the "democracy" of the mighty West! And have used, forseveral years, Hoover's Ink, which further that a war of extermination, sustained all who have tried it, pronounce excellent. But by power and patronage, is to be waged against | we were presented with a battle of ink the other

Mr. Calhoun and his friends! Else, why should the wily and cautious editor, who, for many years has been perpetually casting oil upon the troubled waters of his party and singing the lull-a by song of forbearance, to "bear and forbear" --- why should be now make intemperate appeals to excite the prejudices of Western against Southern modern democracy? Why does he cease his syren song to his party to "bear and forbear," and substitute therefor such language as this:

"The South most anxiously desires the co-operation of the West. It is necessary to carry out the great anti-tariff measure. And yet a this very moment this blind and infatuated pa-per (the Charleston Mercury) is heaping coals of fire upon the head of the West, and insulting her citizens with the approbrious charges of coarse fury and 'unscrupulous rapacity!"

Why does the editor of the Union bring this matter up at this time, just as the anti-tariff bill is to be brought before Congress? Why spread before his readers in the West the charges of the Mercury ?- Does the fact not go to show, that the Administration does not wish their own anti-tariff measure to be adopted by Congress? Does it not exhibit an itching to make the tariff a hobby for one more Presidential race?

If the Administration did not wish the antitariff measure to be defeated, would the editor of the official organ have placed what the Charleston Mercury, in a fit of irritation, perhaps, had put forth, before his readers? Who that knows the man, who that has observed his cautions course in suppressing what he did not wish known, for years past, believes it?

Every day's progress of Locofocoism shows, in light, clearer and clearer, that the Whigs can if they will, have everything their own way at tions. How necessary, then, for them to be but one candidate in each District, and unite cordially upon him, in order to secure the next House of Representatives, which may be called upon, if Locofocoism, by dividing its forces, can succeed in preventing the election by the people to make a President. They should, also, have but one candidate in the field for the Presidency. They should have no bickerings, no heart burnings, no contentions as to who should be the Whig standard-bearer. No question as to who

It is the country, and the institutions of the country, that the Whigs wish to preserve from destruction, or, what is pretty much the same and not the exaltation of any one man. No Whig is deserving of the Presidential Chair, who spirit of true, patriotic disinterestedness has already been exhibited. More may be.

The Whigs are on the high-road of success.

WAR! WAR!!

The late news from Mexico leaves no doubt of the fact that hostilities have actually broken out thing, to wrest from the hands of Locofocoism, between this country and Mexico. The substance of the information thus far received is about as follows: On the 23d, Gen. Taylor rewould not waive whatever claims he might have ceived information that 2000 Mexicans had to the station for the welfare and success of his crossed the Rio Grande, and manifested a departy. At least one illustrious example of this sire to attack Point Isabel, at which place the American storage &c. is kept. Early on the following morning he despatched Capts. In Mobile a braver spirit is manifested. Volunteers were raised there without difficulty, and started forthwith for the scene of action. The N. O. Times of the 6th says:

Licking Improvement.

We desire to keep this subject constantly before the minds of our readers. It involves interests of vast importance, and cannot be dwelt on too often. The opening of such a thoroughfare of trade and travel, as the Licking river is capable of being made, could not but prove of mmense value to the West. And we are well convinced that we have but to arouse the public mind to a sense of its importance to secure its final consummation. In this work, we are gratified to state, the friends of Licking Improvement have an able advocate in the Cincinnati Enquirer. That paper, of Wednesday, contains an excellent article on this subject, from which we copy the following extract.

"Most sincerely do we trust that our Cincin nati capitalists will appreciate the vast importance of this work to the amphitheatre whose northern slope is the site of our city, and every part of which should possess a common sympathy in such matters of general and intimate concern Ohio River did not wind between the adjacent hills. The Licking has wonderful capacities hidden at present, like tre in the depth of the mine, but equally precious when redeemed by effort. It is a stream, with few tributaries after leaving its source, and flowing with a steady current three indred miles. It is nearly as large at Liberty as at Falmouth. Slackwater the Licking, (and it can be done nearly to the mountains of Virginia,) and you bring to the great thoroughfares and marts of the West, an immense amount of agricultural production-you open to the light inexhaustible quarries of marble and vast beds of excellent coal, and our man-ufactories are then connected with the iron reion in the vicinity of West Liberty, Morgan County, the proposed terminus of the improvement, whose supplies, both in quantity and quality, will be adequate to the demand of our eity for centuries to come. The news from the Army was received at Washington on Saturday last. The military Committee met immediately and resolved to re-On the 27th Gen. Arista arrived and took fer to the House of Representatives a recomcommand of the Mexican Army, and on that mendation to invest the President of the United States, with authority, in case of the invasion 10,000 Mexicans. Great fears were entertained of the Umited States, actual or probable, to accept of the services of fifty thousand volunteers, tunity of hearing him previous to his final de- ceipt of this news at New Ocleans the Legislature and to place at his disposal ten millions of dole lars to defray the expenses.

The President has sent a message to Congress ecommending the adoption of the report of the

CONGRESS.

Since the Oregon Question has been disposed of, the proceedings of Congress have been rather dull. Last week nothing of general interest volunteers did not come forward as rapidly as was done. The Tariff remains in statu quo, and was desired in New Orleans. Up to the 4th on- the Sub Treasury is yet quiet. The only mealy 800 men had enlisted, and the Governor had sure of interest passed by the House last week been compelled to offer a bounty for seldiers. And so the smoke blew away.

STEAMBOAT BURNT.-The Steamer Oliver Anderson, with a large quantity of bemp, was consumed by fire, just above Madison Ia, on Tuesday night last. No lives lost.

As the Locofoco papers are very much addicted to quoting the New York Herald, we recommend to their consideration the following paragraph from the Herald of the 2nd inst:

Mr. Polk's Administration.-It is a singular fac:, thus early in the history of Mr. Polk' dministration, that not a single leading Democratic journal throughout the country, beyond the District of Columbia, supports him warmly or enthusiastically, or even says much about him it all. In this part of the country, and also in the South, there is an extreme lukewarmness owards him, which is perfectly freezing and uppalling. He has broken up his party on the bregon and other questions, and nothing now can mend it.

TAMMANY SOCIETY AND ADOPTED CITIZENS. Mike Walsh, who tells too many "Democratic" truths to suit his own party, has the following in the last number of his paper, the "Subterranean:"

NATIVISM OF THE TAMMANY SOCIETY .-- I be lieve it is not generally known that there yet exists in full force a clause in the constitution of the Tammany Society, prohibiting the ad-mission of all adopted citizens. Those who bawl so loudly against Nativism, in Tammany Hall, occasionally, would do well to recollect this fact. This is one of the many good rea-sons why they have nover dared to publish their

Death of Charles T. Torry. This individual, who has been confined in the Maryland Penitentiary for the last twelve of nighteen months for enticing away the slave of Mr. Heckrolte, died on the afternoon of the 6th inst., at 3 o'clock.

CAN CONSUMPTION BE CURED This question is asked by many anxious souls who, perhaps are in the last stage of the disease, or have some near or valuable friend thus afflicted to this answer, painful as it is to say, that few ever recover. Death cannot be deprived of its prey, when disease has knitted its fatal threads upon the vitals. It is therefore of the utmost importance for all persons who may have a bad Cold, Cough, pain in the breast and side, screness of the throat, difficulty of raising up the phlegm and matter that accumulates upon the lungs, in the primary stages, and leads to Consumption when not removed. To such As are afflicted, I would recommend them to procure at once a few bottles of Dr. Duncan's Axpectorant Remedy, which is certain to remove all the first symptoms that often hang so long to the system, and finally destroy life.

A RELIEVED SUFFERER. Dr. Duncan has opened a Western Medica Office, 150 Sycamore st., where his medicine re sold, wholesale and retail. Advice given in all diseases.

may 9 INVALID READER !-- A word with you in egard to the testimony of "WISTAR'S BALSAM or WILD CHERRY," Have you examined attentively? Have you examined the cases or record? Of the cures this medicine has per formed? Have you remarked how desperate and almost hopeless many of them were? An how complete has been the cure in every instance? Have you noticed how many and respectable the persons who have certified to its value and efficacy? Have you observed the evident candor and good faith which characterizes ever case recorded, every certificate given? If so, there need no more be said to convince you that this preparation is the very thing to which you should resort—if not, then you should send to the agents and procure Dr. Wistar's Treatise on Consumption, peruse it and we have no fears of the result. OUTSIDE CURTAIN LECTURES.

NUMBER ONE. in which Mr. Caudle recommends B. Hibbard's

YOU needn't say to an old friend "you don't care," and "you'll take nothing," see what's the trouble, well enough—so come on my dear fellow, come up to the trough. and take a little something to do you good.—
'You'll take brandy!" No, it's not brandy I mean, nor provender, no, nor a piece of gead swine either. Jupiter! what a face you make! Sick as death and can't vomit! Just put on my old specs of mesmerism and clairvoyance ind take a look inside—so-now do you see what's the matter?

Your stomach and bowels there, the great kitchen fire-place and chimney of the house you live in, and all the pores of your body being so many thousands of little chimneys besides, and opening out all over the outside of your cabin, are absolutely choked up with the black bile and the putrid smoke of obstructed perspiration, that's now pouring back into every nook and corner of your dirty kitchen. Don't you see, the fire of digestion can't burn so as to cook any thing for your comfort, or even to keep you from from freezing-and you can't live for the smoke! I'on't say "you don't want to live;" its very sinful to talk in that way .--; But I've got something for you—a chimney sweeper, yes, and one of the right sort. Just open your mouth—What! "you're not going to swallow a chimney sweep?" O, that was merely a figure. It's only a good pill, my sweet fellow, the best kind of pill you ever—"Go to the d-l with all pills!" Did you say that?and-'you can't bear to be gagging and swallowand—'you can't bear to be gagging and swallowing with half a dozen pills in your throat!' No nor I either—but skip the hard words, if your please—I was just going to tell you, that from half a pill to one pill, of this truly wonderful medicine, the Rev. B. Hibbard's Vegetable Anti-Rulous Faire Vive is generally a cofficient Cine, the Key B. Hibbard's Vegetable Anti-Billous Family Pills, is generally a sufficient dose for man or woman. "Plenty of caloniel in them you'll warrant!" I tell you no, they are purely vegetable—eat and drink what you like. "What are they good for? No doubt they're a certain care for every thing!" O to be sure. you'd be glad to have me say that, and the next thing would be, "they cure too much."

There is not a spark of good nature about you!
Snarling, ungrateful wretch! "You beg pardon." Well, never mind, I know you're a sick man. "What are they good for?" Good for all Fevers, Fever and Ague, and all bilious attacks; also for local affections, as Colds, Coughs, Bronchitis, Croup, Pleurisy, Jaundice, Dyspepsia, Sick-Headache, Dyseutery, Worms, Rheu-matism. Oh! "you supposed these complaints as affecting the different organs were opposed to each other, and that the same pills cur all would be a contradiction." Indeed! then why not suppose the same organs to be opposed and kicking up a row with each other when a fellow is dying of hunger, and consequently that the same kind of food would not be adapted to all parts of the body? Shall was then, take pork for the stomach and cabbage for the liver Or does it need to be demonstrated that what ever kind of medicine removes any general cause of disease, must be adapted to all comlaints arising fr m that cause? But Hibbard's pills are not recommended for broken bones, and hey positively wont cure the last sickness. ome along,my old companion of by-gone bachelor lays, and have done with your learned nonsense. 'You think you'll take one." Ah! that's the way to speak it. Open your heart to good counsel, and your mouth to one of these good

AND MAGNETIC FLUID.

No. 42 West Fourth st. near Walnut, Cincinnati.

GALVANIC RINGS AND MAGNETIC FLUID.—This remarkable discovery comrises an entirely safe and novel application of he mysterious nower of Galvanism, as a remelial agent. The Galvanic Rings in connection with the Magnetic Fluid, have been used with entire success in all cases of RHEUMATISM, icute or chronic, applying to the head, face of timbs; Gout, Tie-Doloreux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, India zestion, Paralysis, Palsey, Epilepsy, Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spinal Complaints, Lumbago, Neuralgia, Nervous Tremors, Disziness of the Head, Paris in the Chest and Side, General Debitity, Deficiency of Nervous and Physical Energy, and all Nervous Disorders. In cases of Dyspepsia which is simply a nervous derangement o ligestive organs, they have been found equally The Rings are of different prices, peing made of fill sizes, and of various orna ental patterns, and can be worne by the most delicate females without the slightest inconven

The Galvanic Belts, Bands, Bracelets, &c. Are modifications of the invention, and are recommended in more chronic cases the rings do not possess sufficient inten sity of power. They are adapted to the waist; arms, wrists, ancles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Gal-

relieved. Christic's Magnetic Fluid, Is used in connection with the Rings and their imodifications. This composition has been pronounced by the French Chemists, to be one of lishment is warranted equal to any that can be the most valuable discoveries of modern science, offered in the United S ates.

It is believed to possess the remarkable power It is believed to possess the remarkable power of rentering the nerves sensitive to Galvanic action, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief. Christie's Galvavic Streugthening Plasters.

These articles form an important addition to the Galvanic Rings, acting upon the same principles, but having the advantage of more local application. As an effectual means for strongthening the system when debilitated by disease or other causes; as a certain aid in constitutional weakness: as a preventive for colds, and in all affections of the chest generally, the GALVANIC STRENGTHENING PLASTERS will be found of great

and permanent advantage.

COMMERCIAL CALCULATIONS.

Which will be taught according to the most mproved methods used by Merchants and Bro kers in the valuations and allowances of Merchandise, Calculations of per centage, Interest, Commission, Exchange, Equation of Payments,

COMMERCIAL LETTER-WRITING. Embracing the general particulars of Letter Writing as connected with the different branches of Trade, in concluding the general forms of Invoice, Accounts, Sales, Bills of Exchange, &c.

PRACTICAL PENMANSHIP, Taught in all its variations. In completing the above course, the principals will obligat Business confided to their care will meet with themselves to make every pupil a good practical

penman. A good hand writing is not only one of the reatest accomplishments, but it is also indispensibly necessary to the business man as well as the accountant. An individual however good in accounts, if deficient in writing cannot be considered properly qualified to take charge of a set of books.

It should then, be an important consideration with every young man in entering an Institution to acquire a knowledge of bookkeeping, to go where he can also, at the same time be made good writer, and thus obtain all, rather than part of these qualifications which are equally essential to the Bookkeeper. Reference can be shown from some of the firs

In the year of 1840 I was taken with an inflamation of the bowels, which I labored under fo six weeks, when I gradually recovered. In the fall of 1841, I was attacked with a severe cold, which scated itself on my Lungs; and for the space of three years I was confined to my bed.— I tried all kinds of medicines, and every variety of medical aid without benefit; and thus I wearied along until the winter of 1844, when I heard of Wistar's Balsam of Wild Cherry. My friends persuaded me to give it a trial, though I had given up all hopes of recovery, and and prepared myself for the change of anothe world. Through their solicitations I was in duced to make use of the genuine Wistar's Bal-sam of Wild Cherry. The effect was truly as-tonishing. After five years affliction, pain and suffering; and after having spent four or five hundred dollars to no purpose, and the best and most respectable physicians had proved unavail-ing, I was soon restored to entire health by the blessing of God and the use of Dr. Wistar

GRAND AERIAL VOYAGE.

CLAYTON has just arrived from the East, bringing with him Gold and Silver Watches, Jewelry, Fancy Goods, Watch Materials, Tools, &co

The Watches are splendid: a more valuable tock is not to be found West of the Mountains. I'he M. I. Tobias Watches are warranted to be renuine—to be cased with 18 carret gold, and to be jewelled by the maker.

Jerome's Brass Clocks at the Eastern prices. R. Clayton pledges his word to sell, wholesale at the same prices that the largest houses in New York are charging. But the terms are cash, for the small profits would not justify credit. Even the richest man's custom is not deired, if it would be necessary to run after him

for the money.

Credit in some particular cases, may be a blessing, but nine times out of ten, it is a great curse. It holds up to the buyer the cards and the dice: it tempts him to play a game of chance it induces him to buy more than he needs, and thereby a dead stock is accumulated; it prevents him from competing with his neighbor, who buys with cash: it soon leads him to borrow money at a high interest, and it ends in either his ruin, or the keeping of him poor for life. The cash system, then, is the honest road to wealth. It holds out not the temptation of a

rapid fortune, but that which is far better-a gradual increasing business, free from trouble and anxiety, and one which must, with proper industry, lead to wealth and independence. Store on the southwest corner of Sycamo nd Second streets, Cincinnati. Feb. 28, 1845. WASHINGTON HALL.

No-from Nature's ample bosom grows A healing balm for all our woes Health is every thing; without it we are miss

erable beings.

Let us see what the Press, Dr. White, and his Patients, and the Public say of the remedies which have gained such flattering and extensive celebrity over the whole Ohio, Mississippi, Missouri and Arkansas Valleys, and wherever they have come within the knowledge and reach of the public-that seem to be so eminently worthy of

a trial for all our woes. We are satisfied that the remedies and means are at hand, that may greatly prolong the duration of human existence. We advise every individual not to disregard his health—perhaps fame—when the best energies of both body and mind are depressed, or weighed down by smouldering Drugs and Diseases within. We do not believe that one, of all the Compounds, official or otherwise, prepared with all the collected wis-dom of the past, in this or any other country, can so soon unload the system of the remains of diseases and deleterious drugs; so clearly and minently work their own efficiency and growing

fame, year after year, at home and abroad—as Dr. White's Vegetable Elixins. Blessed with the gift of a kind providence ourelves, good health, we do not often give a prefrence of one over the other, to Allapathie, Ho-mocopathie, Hydropathie, or the "Reformed Practice of Medicine,?"—but when all who have witnessed the effects, gratefully appreciate, and far and near, embrace every opportunity to call the attention of their afflicted friends to "Dr. White's Botanic Medicines," we may and ought to join in giving notoriety to medicines which are doing so much good, and which when fully known are esteemed above all others, and above

His Elixirs have performed the most extraordinary cures of any other known medicine, having snatched, as it were, from untimely graves thous ands of persons afflicted with Consumptions, Colds, Coughs, Inflamation of the Lungs, Asthma, Dyspepsia, Chronic Diarrhea, Scrofula, Fe-male Weaknesses, the Secret and Mercurial Diseases, Ague and Fever, Rheumatism, Dropsey, &c; White's Magic Liniment and Vegetable Pills are unequalled for their sanative and curative powers. Let the afflicted try Dr. W.'s medicines, and they will bless the day that they were induced to do so. The usands of grateful hearts are proclaiming the wonderful cures performed upon hem, when every thing else had proved it

In the treatment of cutaneous diseases, ervsipelas, female diseases, dyspepsia, scrofula, asth ma, consumptions, and the chronic diseases gen erally, no physician has a larger circle of patients that will give stronger evidence of remarkable cures. As Mr. Bryant says of himself, seeming like raising some of them from their graves. Dr. White never fails to cure that dreadful disease, the Dropsey, if it is not primarily connected with irreparable vital organs. Indeed, for the vital organs when impaired, no remedies afford such full evidence of their usefulness as these. Fevers !- Why the instance cannot be found, from the slightest attack to the congestive, and

black tongue, where Dr. White has failed, when called on, speedily to break them up. He does not think of permitting a fever to take a settled run of weeks or months, and finally leave the patient a living barometer, capable of anticipating every chan e and foretelling the size and tents of every cloud floating in the heavens. Those secret diseases, the awful effects of lewd associates. Prostration and general muscular and nervous debility, the innumerable diseases and unaccountable feelings, the fruits of self pollution, will receive the kind, confidential and nedical treatment necessary for the restoration

of the body and morals of such youths and It is not ur common where calomel has remain ed in the system with disease, for years, that a few bottles of Dr. White's Vegetable Elixirs have thrown them off, through the pores of the skin, in such quantities as to "color the under offensive smell," and always succeeded by a fresh

ness and strength enjoyed only before attacked by disease, and their case hadly managed We have the evidence of these safe, but powerful effects, and the inestimable value of Dr. White's remedies, in the following Communication from a professional gentleman of this city, whose veracity, no one who knows him, will for one instant doubt.

Dn. J. White:

Dear Sir:—In the year 1837 and 1838, while operating as a surveyor in a new country, I was much afflicted with bilious fever, and in consequence took a large amount of different medi-cines, with the hope of effecting a cure, but found no permanent relief till I retired to a country less afflicted with billious disease. I then got rid of the fever. But there still remained it my system the dregs, either of the disease or of the medicines I had taken; which appeared to me to clog the motion of the muscles, and prevent the activity with which they formerly acted. A fact I could discover in most kinds of

This continued till the summer of 1841, when I got hold of a bottle of your Elixir, which I took according to the directions accompanying the bottle, and in a short time experienced an emission of unpleasant matter from the pores of the skin. My shirts became exceedingly yellow, and very disagreeable: so much so that my wife insisted "that I must quit using the Elixir."

Rowever, I continued its use for about three or four weeks, when I found the emissions less of-fensive, and consequently quit using it. Since then I have been very hardy, and I think I am now entirely free from the foreign matter which

appeared to have been lodged in my system.
Respectfully yours, &c., DAVID QUINN.
Cincinnati, Dec. 30, 1845. Mr. Bryant, a member of the Society of Friends, and Mr. Linton, highly respectable citizens of Cincinnati, write as follows concerning Dr. White's Family Medicines. "I have been afflicted for ten or twelve years, with shortness of breath, poor appetite, loss of

flesh, great prostration, and general derange-ment of the muscular and nervous systems. A friend who used them with great success, advised ence on Turnpike st., opposite the residence of me to procure Dr. White's Vegetable Elixir—I did so, and it acted like a carm, really seeming like raising one from the grave, producin health, strength, elasticity of frame and buoyan cy of feeling, and was more general and pervading in its good effects than any compound of the whole Materia Medica with which I have been WE have now on hand a large and well seventees, and Jewelry, Diamond and other kinds of Bracelets, Pins, Ear Rings and Fringer Rings, Plated and Britannia Ware, Table Cutlery, Pocket Knives, Perifical and Common Spectation tify to their healing and soothing virtues, and knowing the efficacy of Dr. White's Elixirs, getable Pills, Magic Liniment, &c., if I can induce the afflicted to try them, my confidence in the benefits they will derive, will be ample com-pensation to me for any demand such persons may make on my time by calling on me for infor-mation, at my residence, corner of Franklin and Sycamore streets; and I do not hazard my reputation in assuring the public that, when the sanative and curative effects of these remedies are fully known, they will be esteemed above all others and above all price. D. B. BRYANT, Cincinnati, Nov. 28, 1843.

Remedies that are so universally well spoken of wherever they are known-that furnish such incontestible, living and irresistible evidence of their superior efficacy, cannot be neglected by the sick who would live to enjoy life-live to be useful to themselves, to their friends and to so! ciety.
