It is reported that the President is very much distressed at the signs of the political horizon, and cannot account, to those who ism to Whigism! He is sure it cannot be the result of the leading measures of his adoperation and been proved!

The late Sillas WRIGHT has been heard from One of his warm personal and political friends in this city wrote to him the day before the election in New York, and told him that he would be beaten! Mr. Wright has replied and says to his friend: It is a pretty time to inform a man that he is beaten, when it is too late for him to escape the catastro-

One of the New York Locofoco members of Congress, who has been re-elected, Timothy Jenkins, is a fast friend of the Tariff of 1842, and esteemed in Congress a very worthy and upright man. It is reported that he talked very candidly to the President at the time the British Tariff bill was before Con gress. Being on a visit with a friend at the White House, Mr. Polk expressed a hope that Mr. Jenkins was prepared to go with the Administration, and the people who were for the me sure, for the new Tariff bill! Mr. Jenkins' reply is thus given: "Mr. Polk, I must be allowed to judge whether the people I represent are in favor of this bill. I think they are decidedly opposed to it, and I assure you it must receive my opposition!"

It is also reported that on one occasion in the House of Representatives, a Southern member went to Mr. Jenkins and asked him to change his vote on some particular ques-tion. "What, sir," said Mr. Jenkins, with much warmth, "change my vote? Sir, what do you take me for?" The Southern Locofodo you take me for?" co took the hint and departed.

It is thought by many that the Administra-

ion will be in a minority in the House of Representatives of the present Congress on the re-assembling of that body in a few weeks, and that committees of Investigation, to enquire into the conduct of the Executive branch of the Government, will be most readily granted. The opinion is formed upon the ground, that the Locofeco members who have been thrown overboard by their constit uents, will lay all the blame to the Adminis tration! It is thought that many of them will say to Mr. Polk and his Cabinet: "You, by your unpopular measures, and your instability and inconsistency have sacrificed us, and we will no longer stand by you." How this will be, remains to be seen!

A mail made up at St. Louis the 1st day of October last for Philadelphia, and which has been missing ever since, with two of Uncle Sam's mail agents roaming the western country especially in pursuit of it, arrived at the Dead Letter Office in the Post-office Department to-day, 'safe and sound! The REV. MR. KAVANAUGH, who is an able divine, a true gentleman, and a practical scholar, visited our town last week. He preached on Sunday evening, and on Monday evening lectured on the subject of Coloniza-tion. When we contrast the character, the talents, the gentlemanly courteousness, the holy life and conversation of Mr. Kavanaugh with the abusive, cowardly conduct and doubtful character of the abolitionists who visit our part of the State, we cannot mistake Mississippi Regiment the right, if we judge by its representatives. Mr. K. is a messenger of peace. He abuses not any sect, society, or individual that does not immediately run crazy with his opinion of right. He talks like a man who supposes they have their own views, and has charity enough to allow them to entertain them. He gave us a plain and comprehensible view of the operations of the Liberia Colony—its growth, morals, religion, commercial busisiness, and its future prospects—which was truly entertaining. He deals in no fine spun theory or beautiful declamation, but in a plain peculiar style; and with a feeling heart, lays the subject before the people. He seeks to excite no popular prejudice, nor fan and arouse the baser passions, to carry his object He seeks to convince the mind, and thereby

DEPLORABLE PICTURE.

Extract of a letter from county Roscom-Men's Mercantile Library Association in mon, in Ireland, to a citizen of Washington, dated Oct. 30, 1846:

"Never had we such accounts to send as in this present year, Ireland is visited from north to south, from east to west, with a most direful famine; the poor are living in many parts on cabbages and salt, and many of ous other complaints; in consequence of such food, and very many have not even much of that sort, bad as it is. The polatoes in total perished; indeed, they are totally extinct in Ireland. I had myself two acres of the finest appearance, and in two nights the blight visited them and they were reduced to snuff. I will not get one stone of potatoes in the whole field. Such is the state all over the country-hundreds of acres rotted in twenty-four hours. The poor (that is, five-sixths of the whole population) are living as above on bad vegetables or Indian meal, to which there was in the beginning the greatest possible objection, but hunger and the want of better overcame every reluctance. For the last month there was no importation of Indian meal, and the people congregate in hundreds and thousands; break into mills and bakers' shops, and force away all the meal and bread they can lay hold of; the military and police are called out to protect the property of those pe sons, and in many places lives were lost the unfortunate people fired at and stabbed by the military. Such is the awful and deplorable state of this your native country: God only knows when this awful and appaling state of things will cease: Life and

property are at stake. "Will you write to me and inform me what prospects there are of getting a sufficient supply of Indial meal or potatoes from the United States? Was the harvest of this year in America abundant or defective? I have seen in a Washington paper that in 1845 the official returns of the Indian meal was fifty-two millions of quarters, and this year's crop would exceed it eighteen millions. This, if true, is consoling; as, if that be so, we may hope for a sufficient supply from your

"I am astonished that the Americans, mixed with Irish as they are, never manifested the least sympathy for us in our present deploring condition, more especially as in India the Irish entered into the matter very cordially, and made up a considerable sum in Calcutta, say £11,000, towards the relief of the poor Irish, which was remitted to Dublin, and they are still adding to it their con-One night during the four day's rain, I was standing sentined half leg deep in water. Numerous riots had occurred, and were daily occurring in Ireland, caused mainly by the want of food among the poor.

#### FROM SANTA FE.

Major FITZPATRICK, U. S. Indian Agen for Oregon territory, arrived at St Louis, on Monday last, from Santa Fe, whence he left on the 14th of October.

Maj. F. started with General Kearny, a his guide, to California. When about 175 miles out, they met an express from Col Fremont, in California, informing General Kearny that Upper Caliafornia was completely in possession of the American forces, the Mexicans having been driven out of the territory; and that all was quiet, Col. Fremont acting as Provisional Governor of the Department.

Upon receiving this news, General Kearney determined to dispense with a portion of his force, taking only one hundred men with him for an escort. The remainder he ordered back to Santa Fe, where they arrived on the 14th. Major Fitzpatrick having been relieved of his duty as a guide, returned to Santa Fe, and immediately set out for Washington City as the bearer of despatches for government, from Commodore Stockton, commander of the Amer can forces in the Pacific.

Nothing new at Santa Fe. Serious apwould be lost-during the winter.

# NEW YORK.

At the recent election in New York the question of the ratification or rejection of to the people. The majority for ratification was very large-amounting, according to some of the papers, to 100,000. The question of extending the right of suffrage to free negroes not possessing a freehold, was also submitted to the people, and rejected by a majority of 150,000. Negroes possessing a freehold of \$250 were allowed a believe a similar provision is made in the new constitution. This looks invidious; and does not accord with the professions of Democracy; but a party that is willing to allow one man Eight Dollars a day, for sitting in a comfortable house, or lounging about the taverns in Washington, while they are willing to allow Seven Dollars a month, only, to another man who encounters every description of hardship and peril, could very readily and consistently allow a rich free negro privileges that they would not extend to a poor one.

When Locofoco editors sit down to write an editorial, charging the Whigs with taking sides with the Mexicans, they should recollect one fact—that when Mr. Stewart of the soldiers from seven to ten dollars, the Locofocos voted the proposition down, while the Whigs with few exceptions, all voted for it. If we recollect right, the vote to their readers, and justify, if they can, nion would follow. the conduct of their Democratic friends in Congress in refusing to let the poor volunteer have as much pay for a whole month of perhand exposure, as each one of them receives for a single day's ease in Washington. We shall have positively certain that we know how or when we made the charge to which he alludes, but suppose it to be in a notice we took of the proceedings of the Hamilton County Democratic Convention, held at Carthage the latter part of August. In that notice we stated that "One of their resolutions pledges the party to oppose the extension of slavery into any territory to be acquired by conquest or purchase from Mexico." To show that this statement ed by the Democracy of Hamilton County, Ohio, in Convention assembled at Carthage, in the month of August, and in the year of Briggs 7,973. our Lord, 1846. Here it is; and we hope the Editor of the Intelligencer will read it thing like abolitionism in it:

This is the direct tendency of Democratic princivote under the old constitution, and we ples in Hamilton county, Ohio, and may become, if it be not already, the doctrine of the entire party of the Narth."

It is in this last paragraph, perhaps, that our keen-sighted neighbor has discovered Democratic faith over the river. If so, he has discovered something that had no existence, and has been pursuing a phantom. We made no chage, but simply proposed a query. We now, however, distinctly and unequivocally charge the Carthage Convention of Hamilton county Democracy with having, in their Oregon resolution, played into the hands of the Abolitionists, by advocating and making its support a sine qua non, one of the plans proposed and mainly relied upon by them, to accomplish their of Penn., proposed raising the monthly pay vallainous purposes—the restricting of slavery to the old states, and thereby givving the non-shaveholding states an overwhelming proponderance in Congress .-This accomplished and there will be but was 70 yeas to 75 nays; the nays all Dem- little difficulty in overcoming all other obocrats but five; and the year nearly all stacles. Let us see what was said by a Democratic campaign paper (the Volunteer) pubished in Cincinnaii at the time of the meeting of the Carthage Convention:

It is in view of the interests of the white men, the democratic masses of laboring white men, that we take our ground upon this question; we oppose, a we shall ever do the extension of this institution so ruinous to them."

If the foregoing is not good abolition doctrine, we are at a loss to know what it is. The only difference we can discover beter of the foregoing paragraph, is this; the avowed abolitionists profess great sympation to the Editor of the Intelligencer for thy for the slaves, and the secret ones, like the same result.

fter a very painful illness of nearly thre weeks, WR. WILLIAM H. JANUARY, of the firm of January & Taylor, Commission Mer chants, of that city, and eldest son of A. M. January, Esq., of Maysville, in the 29th year of his age. His remains were brought to this city last night, and will be interred between 3 and 4 o'clock this after noon- Thus has fallen, in the vigor of youth, and with the fairest prospects of success in life, a young man whose amiable disposition and fine social qualities had en deared him to a large circle of friends, who deeply sympathise with his parents and other relatives in the afflictive dispensation which has called him to an early grave But few of our families have been so sorely afflicted, in the early death of their off spring, as that of Mr. January-and now that he commits to the grave his first-born, and his associate in business, it would seem truly, that his cup was full. A wise Providence, for purposes inscrutable to us, has sent these afflictions. CONSUMPTION AND DEATH

Will most assuredly be the early fate of those who neglect theniselves when afflicted with the premonitory symptoms of consumption, such as Cold, Cough, Bronchitis, or Soreness of the Thront; Hoarseness, Difficult Expectoration. Asthma, Spitting of Blood, &c. "Dr. Duncan's Expectorant Remedy," is expressly prepara ed for the removal and cure of those dangerous and troublesome diseases. Therefore, you who are laboring under the influence of these complaints, procure immediately this medicine before it be too late. One bottle may be the of prolonging your life. Always ask for "Dr. Duncan's Expectorant Remedy," and see that you get it, and not be persuaded by some who sell different medicines, to take some of their medicine in preference. These persons obtain some cheap thing and palm it on the public at full price. It is therefore important for purcha-

ers to be on their guard. "DR. DUNCAN'S EXPECTORANT REM. EDY" is put up in large size bottles, and enveloped in blue paper. The outer form contains a fine steel plate engraving representing "Hope in a starm."

TREES. Orchardists and cultivators of garden-fruit will have need of all their skill to prepare tender fruit trees for winter. It is the mis-fortune, alike, of the English summers, and of ours in the West, that trees do not prop-erly ripen their wood. But in Great Britain it is for the want of enough, and in America, from too much summer. Our long and hot summers give two or three separate growths to tice the abuses in many, if not all of them, in fruit trees, and the last one is usually in progress, at a period so late that severe frosts and freezings overtake the tree while yet in an excitable state, pushing new wood, and with a top quite unripened for severe frosty hand-

We have before us, and shall next week publish Dr. Plummer's memoranda of the three past summer months. By this statement the average temperature of June was 78° and the rain 61 inches; of July, average moon heat, 80°, rain 31 inches; of August, average noon heat, 80°, rain 51 inches.-Nights were exceedingly warm. The day repeatedly opened and closed at 80 deg.— Our thermometer on the north side of our house, in a shady yard, stood for eight and ten days together at 94 deg. and 100 deg.; twice attaining the latter height.

Under such stimulous our pear, apple, and plum trees made their first growth, by the first of July. They soonstarted into a second growth, which wound up during the last of August and the first of September, plum trees entirely shedding their leaves and standing as bare as in January. A third growth i now in progress. Nights are becoming cooler, the days are warm and moist, and it is probable that this new growth will continue late: and every wise cultivator should keep his eyes upon his trees.

Let orchards be examined when frosts begin to occur, and every side shoot, sucker, or water-sprout cut cleanly out. These succulent raw sprouts are the breeding spots of disease. Cold blight invariably manifests itself in them in the most positive form.

Garden trees, choice pears and stone fruits, should, in addition to this operation if still in growth at the last of September, received a fall pruning. From the first to the middle of October, according to the season, cut off two thirds of the new growth, or back to strong ripe wood. It is well known that the newest buds, near the extremity of young wood, are the most sensitive and apt to break and grow; whereas the buds near the base of a branch are dormant. It is the repose of the older buds which makes fall pruning, if per-formed with judgment, so valuable. Because it forces the tree to expand its energies in ripening its wood instead of making more, and it also tends to induce fruitfulness, by changing leaf buds to fruit buds. The great art of fall pruning is to relieve the tree of its crude wood, without causing its dormant buds to break. If performed too early, or if but the tips of the fine wood are removed, the new hilds may break and side shoots issue, leaving the tree worse off than before. Young trees just coming into bearing should

have their trunks protected. That there is a change in the economy of a tree when it begins to bear, is plain; and experience seems to teach that trees are peculiarly tender at the time of this change; since they are far more apt to die when coming to fruit than either before or afterward. Cherry trees, in this climate, and pear trees should have brush, or cornstalks, or straw, or matting, as is most convenient, so placed, from the ground to the branches, as to exclude the sun without ex cluding the air. An hour's attention may save much regret.-Indiana Farmer and Gar-

How to FATTEN Fowns,-Confine your fowls in a large airy enclosure, and feed then on broken Indian corn, Indian meal or mush with raw potatoes cut into small pieces, no larger than a filbert, placing within their reach a quantity of charcoal broken into smal pieces. Boiled rice is also good.

DESTROYING RATS -Corks, cut as thin as sixpences, roasted or stewed in grease, and Premium and Patented Superior Cooking stoves, placed in their tracks; or dried sponge in all sizes. small pieces, fried or dipped in honey, with a little oil of rhodium; or bird lime, laid in Ornamented their haunts, will stick to their fur and cause

If a live rat be caught, and well rubbed or brushed over with tar and train oil, and afterwards put to escape in the holes of others, they will disappear.

Poisoning is a very dangerous and objectionable mode.

BAIT FOR RATS .- Mix a paste of corn meal with raw eggs, which is the best bait for a wire trap: they will all get in if there is room.

To DRIVE RATS FROM YOUR PREMISES .- Buy one pound of chloride of lime, and scatter it dry into every rat hole and place that they visit. in the cellar and other parts of the house, in and under the cellar wall, and they will soon leave you Don't put it on or very near any articles of family provisions.

To MEND IRON POTS.—To repair cracks. &c. in iron pots or pans, mix some finely sifted lime with well beaten whites of eggs, till reduced to a paste; then add some iron file dust apply the composition to the injured part, and it will soon become hard and fit for Dr. T. N. Wise, corner of Scott and 4th sts.

To MEND CRACKED STOVES .- Cracks in

the putty for a short time. Panes of glass may easily be removed, by the application of soft seap for a few hours, however hard the putty has become.

SCRATCHES IN HORSES.—Mix white lead and linseed oil in such proportions as will render the application convenient, and I never have known more than two or three applications necessary to effect a common cure. Ohio Cultivator.

"THE CONVENTION." Proposals for publishing a paper in Frankfort, Kentucky, in favor of Constitutional Reform. THE undersigned proposes to edit a paper at Frankfort, Ky., devoted principally to the liscussion of the Convention question. It will also contain such miscellaneous matter and news as may be deemed interesting. As to national politics, it will be neutral. So intimately, how-

ever, is the Convention question connected with the administration of our State governmen through the different branches and departments, that in its discussion, if will be necessary to noat least, to the defective organization of the government under the present Constitution, and consequently the necessity and importance of its revision. It will therefore, expose all such abuses—examine all measures and questions in reference to State policy calculated to affect injuriously the interests of the people of this Commonwealth. From the expression of public sentiment upon this subject at the late elections, it may reasonably be anticipated that our next Legislature will pass a law in conformity with the provisions of the Constitution, authorising vote to be taken as to the propriety of calling Convention to revise the Constitution. In required in favor of a convention at the two sucreeding elections. But should it not be passed at the coming session in obedience to the will of the people thus expressed, the question will still e open for consideration and discussion during the next canvass. In this view of the question present, it is proposed to publish this paper com the first of January until the next eleccourse, very much depend upon the favor with which it may be received, by the people. undersigned proposes to use every exertion to render his paper useful and interesting, as well as to promote the success of the Convention question, and therefore hopes to receive a pat-

ronage sufficient to enable him to conduct it successfully. The proposed paper will bear the name of the cause it advocates.

TERMS.—"The Convention" will be published on a super-royal sheet, at \$1 in advance. Any person paying for five numbers will be entitled to one copy gratis. All communications must be addressed to

#### COUNTERFEITS Wistar's Balsam of Wild CHERRY.

Read the following letter written to our Agent at Bowling Green, Ky, by a gentleman of Ligh standing in that place:

Mr. Joseph I. Younglove-Sir: As a duty I owe to the community, and partiicularly to the afflicted, I would state that I had been for a number of years laboring under disease and weakness of the lungs, which caused me to cough a great deal, and produced a conseuent debility of my-system generally, to such a degree, that it was with difficulty I could walk, to do which even for a short distance, I experienced great fatigue. I had various medicines recommended to me, which I used without any beneficial effects whatever, until I procured a bottle of Wistar's Balsam of Wild Cherry. The use of one bottle afforded relief entirely relieving me of cough, & restoring my lungs to healthy action. The use of it for a short time increased my general health and strength to such an extent, that I was stronger and more healthy than

ANOTHER INVALID RESTORED TO HEALTH. Read the following statement of facts from

Mr. E. Bailey, a highly respectablemerchant of Vienna, Johnson county, Illinois.] Messrs. Phelps & Blaklsley, St. Louis, Mo.

Gentlemen :-- A desire to benefit the afflicted through out the land has alone induced me to make the following statement of facts respecting one of the most astonishing cures ever recorded. chandles, Calculations of per centage, Interest, my son, now seventeen years old, has been afflicted during his whole life with a constant cough, pain in the side and chest, accompanied with night sweats and hectic fever, which produced Writing as connected with the different branchgreat emaciation and debility; and at intervals luring the night his expectoration would become so great as to endanger his life from strangula tion .- During this time he was attended by many physicians of the highest repute, whose prescriptions gave but temporary relief-in fact, so alarming were the symptoms, and so inveterate was his disease, that I was compelled to believe

im beyond the reach of medical aid. All our neighbors and friends who saw him regarded him as one who was rapidly approaching an early and premature grave. After having thus exhausted the skill of our hest physicians, without obtaining relief, I was prevailed upon by the advice of a friend to make use of Wistar's Balsam of Wild Cherry.

He commenced its use about the 30th of Deember 1844, the first bottle of which gave asonishing relief, and I began again to indulge in the fond hope that he might yet be restored to health.

After having continued the use of it until three bottles had been taken, the disease was entirely overcome and his shattered constitution and emaciated form restored to sound and permanent health, which he continues to enjoy up to the present time.

I believe the genuine Dr. Wistar's Balsam of Wild Cherry to be one of the most valuable medicines ever discovered --- knowing, as I do, that Lard Oil Manufacturer, No 33 Water st, be the above cure was effected solely by its use. I am gentlemen, very respectfully,
