> Death of Silas Wright. The circumstances of Mr. Wright's death are thus stated by the Oedensburgh

"About half-past eight o'clock, A. M., Mr. Wright called at the Post Office, apparently in his usual health. While seated in a chair in the Post Office reading a letter, a young man, clerk in the office, who was alone, perceived that he had dropped the letter, and appeared as if seizmatter? Mr. Wright, putting his hand to his heart, replied that he was suffeing extreme pain in the chest—that he had twice before within the week felt similar pain, But this was more severe; he falt it passing into his left arm and to his neck. He rose and went to the door to go home, but returned to his seat and desired the young man to go or send for Doctor Clark. The young man sent for Dr. Clark who soon came into the office and gave Mr. Wright some medicine which seemed to ed by the Doctor, walked home, a few

rods from the office. "The Doctor remained with Mr. Wright at his house some time, and left him lying upon his bed in a gentle perspiration, supposing him to be better. Very soon after he had left him, a message reached Doctor Clark that Mr. Wright was dying, and before the Doctor reached the house he was dead."

The following is from the N.O. Com. Times. The City of Mexico in our Power .- Battle of San Angel. The sum of the intelligence brought by the Fashion, is of the most pleasing, as it is of the most important nature, since it announces another victory that has crowned the American arms-a victory that will in all probability be most blessed in its results, bringing It appears that the march of our army under general Soutt from Puebla, to within eight or nines miles of the capial, was uninterrupted by any resistance on the part of the enemy. At El Penon-a position fortified by Santa Anna-the two ostile forces first came into collision. where according to El Sol de Anahuac, a division of the American army made an onset on the enemy, the main ing through Guadaloupe, and, to the surprise of the Mexicans, appearing suddenly in their rear.

A regular fight then ensued at a place called San Angel, situated at about six of eight miles Southwest of the capital; the result of which was that General Valencia's division of the Mexican army was totally routed, when Santa Anna fell tack with the remainder of his troops on the city. Here the greatest consternation prevailed, and, as the only means to stop the victorious career of the American arms, i. was decided to solicit from Gen. Scott a supension of arms. A flay of truce was dispatched to the American headquarters, for this purpose, with the view of giving time for the opening of negotiations for the renewal of pacific relations. The Mexican Government intimated to Gen. Scott that it was ready to treat for Trist. Thus, at the eleventh hour, has purple or ness of our hitherto intracta hopes may be entertained that we are on the eye of sheathing the sword, a consummation heartily to be desired by every

VERA Cauz, August 27. 1847. Gentleman:-We last evening had an of some late and important discoveries in the ar express from Orazaba, with a single dispatch under date of the 25th inst, giving us the important information that a part of the Mexican forces, under General Valencia, had been completely routed by General Scott, and that a column under tentlemen, and hold themselves aloof from the immediate command of Santa Anna fell back upon the city. The action took place at San Angel, a place some six or ight miles southwest from the capital, on the 20th inst.

As soon as Santa Anna found himself in a comparative state of personal security, he despatched a flag to General Scott. equesting a suspension of hostilities until time should be afforded for formal action on the subject of propositions, intimating at the same time, the readiness of the Government to receive those brought by Mr. Trist. The Minister of Foreign Affairs also immediately wrote circulars, published in the Diario Official, calling an immediate session of Congress, with the object of taking these propositions into consideration.

If the Yankee army had been one o Visigoths, greater alarm would not have been created by their approach, and the government have been driven and whip ped, and all parties scared into the measure that common sense has failed in inducing them to take long ago without coercion. It is an excellent sign that the Mexicans value their capital so highly and the best results are to be expected from this exhibition of a shade of real and

becoming pride.

The dispatch which I now give, winds n with this unqualified declaration:-Peace will positively be the result."

There is, unpleasant intelligence from livarado, to the effect that a small party of guerrillas had entered the town and cut off two or three, out of less than a dozen of the marines stationed there as a Cus om house guard.

marched as far as the Hacienda of San Gerevia, when a halt was ordered by Gen Scott, as Gen. Twiggs had met a large force of the enemy at Halcoa. General Twiggs promptly ordered the heaviest guns to be unlimbered, and after a few dischar ges the enemy were dispersed with the loss of six killed.

On the 17th, Gen. Worth resumed his march over bad roads, but at 8 o'clock in the morning arrived in sight of the domes and spires of the Capital, without any opposition except that rocks had been rolled into the road and ditches dug, evidently showing that Gen. Scott had stolen a march on Santa Anna.

On reaching this point, however, a scattering fire was opened upon them by a force stationed on an advantageous position which was soon silenced by Col. Persifor F. Smith's light battallion of the 2d Artillery under Major Galt. Another attack was shortly after made, but again the enemy's pickets were driven in without loss. At 7 o'clock on the 18th, Gen. Scott arrived at San Augustine, and at 10 o'clock Gen. Worth was in full march for the city of Mexico by the main road. Majors Smith and Turnbull, Capt. Mason and other Eugineer officers were supported by Captain all comfortably quartered at San Augustine Blake's squadron of dragoons to reconnoitre, for the night; instead of this, a large porgineer officers were supported by Captain when a masked battery was opened on them, and the first ball from an eighteenpounder killed Capt. Thornton, besides seriously wounding a guide.

The proposition for armistice was made to Gen. Scorr supposed at the instance of the British Ambassador. The report here-tofore given that the City of Mexico was in the power of Gen. Scorr, seems to be unfounded, and should peace not follow from the negotiations now pending, another battle must ensue.

A letter from Mr. KENDALL, dated Laenbasco, August 22d. says the Arch Bishop's palace of this place is now occupied by en. Scorr and a portion of the army:

from Chalcoa to San Augustine, General Worth's division moved in that direction on low and Twiggs. By this move a new line was taken and operations commenced on the southern and western sides of the City of Mexico, and the strong works of Penon and Mexicalsango, on which Santa of whom were officers, left dead on the Anna had bestowed such immense labor, field, whilst the number wounded, was far

Late in the evening they were again opened but were silenced during the night. Had the fire been kept up, the Hacienda might have been torn to pieces and the entire command compelled to retreat.

At 8 o'clock on the morning of the 19th, the batteries again opened on General Worth's position; so hot was the fire that the troops were compelled to gain shelter behind the buildings but maintained their position. The armistice was agreed upon by the appointment of commissioners on the Mexican side, at the head of whom was Herrera. They had two meetings and were to hold a third to-day, 30th August. Infantry was seen drawn up to support the batteries whilst a long line of the enemy's cavalry were stationed in the rear, as if awaiting the shock of the battle. Two separate charges of the latter were to be repulsed by Col. Riley. Until night had fairly closed on them, firing on the enemy's batteries had not slackened; in fact it had been a continuous roar for six hours.

Gen. Scott arrived at San Augustine about 8 o'clock, P. M., in the midst of a hard rain, and Gens. Twiggs and Pillow canie in about 11 o'clock, completely exhausted, and, not anticipating the great strength of the works of the enemy, it was thought that the batteries could be tataken at dark, and that the troops would be tion of them were compelled to bivouac; without blankets, in the midst of a pitiless storm. At 7 o'clock the firing of cannon was heard, and the rathing of musketry, and some said that in the distance a portion of the enemy could be seen flying towards the city, yet few deemed that the batteries had been stormed and carried, yet it was so.

Gen. Scott, accompanied by Gen. Worth, started for the scene of action, when they Mexico, was in the staff

Worth to Capital by the main road, whilst the main body of the army moved on towards San moved half a mile beyond the latter village, when a ratling firing of musketry, announced that it was actually engaged with outposts of the enemy. The heavy booming of cannon now gave notice that the devoted 2nd division had fallen in with another strong work. A few minutes more and a tremendous firing from the right made it evident that Gen. Worth was also actually engaged. He had completely turned the strong works of San Antonia, but while place, with the loss of their heavy guns, of the enemy could be seen at work upon stronger line of works. The strength of the enemy in this battle is known to have been 15,000 men, and many say 20,000, all fresh troops, and in a position of uncommon strength; while opposed to them were about 6000 Americans, jaded and broken down by marches and incessant toil.

PUBLIC MEETING.

A large and respectable meeting of the citizens of Covington was held in the City Hall Sept. 14, to take into consideration the best method of providing the city with fire apparatus.

It was unanimously voted, to request the City Council to hold an election immediately, to see if the City will raise a tax of fifteen cents on the hundred dollars, on real estate, for two years, to provide the city with fire apparatus; and if the city decides to raise the tax, the Council be requested to issue bonds bearing six per cent interfire engine be immediately purchased.

Voted, that the Council ask the next Legislature to confirm said tax for two years.

A Card.

Upon the return of the Covington Fire Commies from the Procession in Cincinnati on the 14th inst., it was unanimously Resolved, That the sincere thanks of the Com panies be tendered to the Firemen of Cincinnati generally, for their kindness and attention, and,

also, to Washington Fire Company, No. 1, for the elegant repast with which we were regaled, and the politeness of said Company in accompanying us home.

# DANCING ACADEMY.

MR: JAS. M. COLEMAN proposes to be-gin a course of instructions in the grace-ful and elegant art of Dancing, according to the latest styles and most fashionable figures, comprised in a series of thirteen lessons. The Class will assemble at Mr. C.'s rooms, at the Madison House; as soon as a sufficient number of pupils shall have been secured, of which notice will be given to them.

Treas....Three Dollars for the course.

The Song of the Wave. I am free!—I am free!—I have slumbered long In the winter's icy chain; [song, But the hills and the woods shall resound to my As I glide to the billowy main. I lie like a giant enwrapt in sleep, Till aroused by the spring's sweet call; But I rise in the might of the swelling deep,

And I burst from my frozen thrall. Onward I glance with arrowy spring, As I bound in my frolicsome glee For mine is the joy of an untamed thing-The fetterless and the free. Oh! mine are the sparkles of sunny gold,

And mine is the foamy crest; And the changing skies all their hues unfold, On the mirror of my bright breast. Oh! mine are the showers of glittering spray, Which I dash on the pebbly strand; And the music is mine of the wind's soft lay,

Like tones from the spirit-land. On my bosom careers the white-sailed bark To the distant Indian shore; And its crystal gleams with a crimson spark At the flash of the sunlit oar.

Onward I rush in my wild career, Yet tempt not mine hour of wrath, When my swollen and darkened form I rear On the proud ship's ocean path. Beware!-beware!-when in thunder breaks The voice of my rolling surge,
And the dismal wail of the cold winds shricks
The mariner's lonely dirge.

Ye are mine-ye are mine, in mine hour of pride, Ye that sport with a think like me, Ye that dare your fragile barks to guide O'er the waves of the wild blue sea!

The loved of many a home shall sleep In the ocean's coral cave; For what human might may stay the sweep Of the untamed, unequalled Wave!

hold their offices for a term not exceeding seven or ten years. If appointed, as they now are under the existing constitution, I would have them re-eligible. If elected term. My reason for this last proposition is, that I would have the judges independent, and not engaged while in office in electioneering for re-election. I am opposed to selling out clerkships and sheriffulties, and I think the constitution should be so amended as to prevent it. I am opposed to the present plan of making justices of the peace and of organizing the county courts, and am persuaded that the constitution might be so amended that a better plan could be substituted. There are some other amendments to the present constitution, which, though of less importance than those just mentioned, I think might be adopted with advantage to the country. But I should be opposed to any new constitution, which might be adopted by a convention, becoming the organic law of the State until submitted with the old one to the people to be voted on and ratified—and then only in the event that a majority should prefer it to the old one.

I am opposed to agitating the slave question in Kentucky, and therefore have great doubts as to the propriety of calling a convention at this time; but the convention men are every where protesting that they have no design of agitating this question; and a large majority of the people of the State are complaining of abuses under the existing constitution, which I honestly believe should be corrected. I am clearly of opinion, that, as it is a "fixed fact" that we must have a convention, it would be wise policy in every good citizen to unite in favor of it, so that when a convention is called the people may be represented in it by the best and wisest men in the State, and that upon such men as these may devo ve the important and delicate task of revising or amending our existing constitution, or of substituting a new one in its place. In the year 1837 I delivered a speech in the Senate of Kentucky on the bill for calling a convention. I argued then the propriety of amending the constitution in most of the particulars above-mention d. And the open abuses which I have since. seen practised under that instrument, so far from inducing me to change the views. PHILADELPHIA, Sept. 10-10, P. M. The Ledger Express brings the N. Orleans Picayune of the 3d instant, which contains the arrival of the Fashion with Vera Cruz dates to the 27th, and Tumpico to the 29th. The news by this arrival is the most important that we have received from Mexico for many months. Our army has not only advanced to the City of Mexico, but has had two engagements with the enemy near the walls of the Capital, in both of which the merican arms Atriumphed; by which the M-xicans have been brought to supplicate a suspension of hostilities, which General Scorr has granted.

The Mexican Congress has been convened to take into censideration Mr. Taisr's propositions.

The news was received at Vera Cruz on the eve of the the 26th, by an express courier from Orizaba who brought down the following letter to Mr. DIMOND, the Collector at Vera Cruz.

The NATIONAL WHIG is what its name indicates. It speaks the sentiments of the Whig party of the Union on every question of public polcy. It advocates the election to the presidency of Z. Taylor, subject to the decision of a Whig National Convention. It makes war to the knife upon all the measures and acts of the Administration, deemed to be adverse to the interest of the country, and exposes without fear or favor the corruption of the party in power. Its columus are open to every man in the country, for the discussion of political or any other questions. In addition to politics a large space in the Na-tional Whig will be devoted to publications upon

Agriculture, Mechanics and other useful arts. Science in general. Law, Medicines, Statistics, &c. Choice specimens of American and Foreign Literature will also be given, including the Reviews, &c., A weekly list of the Patents issued by the Patent Office will likewise be published the whole forming a complete family newspa-Per.
The WEEKLY NATIONAL WHIC, is one of the

largest papers in the United States, is made up from the columns of the Daily National Whig, and is published every Saturday for the low price of 2 dollars per annum, payable in advance. A double sheet of eight pages will be given when-ever the press of matter shall justify it.

The Memoirs of General Taylor written ex-pressly for the National Whig, are in course of publication. They commenced with the second

number, a large number of copies of which have been printed to supply calls for back numbers. CHAS. W. FENTON, CHAS. W. FENTON,

To the Public.

THE HOME JOURNAL. Edited by Morris & Willis,

Published Every Saturday, in the City of N. York. At Two Dollars per annum.

In November last, we commenced the publication of this family newspaper on a new and nov-el plan. No similar work, intended to contain he PICK of the news, elegancies, opinions and literature of our time, to CULL from the wilderness of the hour's ever flowering caprice, and to RESCUE the good things else lost in the bewildering floatage of novelties adrift, had been previously attempted by others.

That we have labored successfully in our vocation and produced a paper remarkable for its in-terest, value and popularity, and one adapted to the wants of ALL CLASSES OF SOCIETY, we have sufficient evidence in our extensive and rapidly ncreasing circulation, in the universal com dation of the public press, and, above all, the flat-tering encouragement and cordial approbation of our numerous LADY READERS, in every sec-

The scope, design and character of the Home Journal differ from those of any newspaper here-tofore established. The contents are fitted to engage the attention of the man of business, and be a source of elegant instruction and entertainment to the domestic fireside and family circle. and it combines the striking and novel attractions of the newspaper with the more aliding interrest of the higher class of periodicals. It is printed in the folio form, on large and superior paper; on a new clear type, obtained expressly for the purpose; and is, in its whole arrangement and de-tails, a most favorable specimen of the best typographical skill of the country. In addition to these, and as one of its most valuable peculiarities, it is, in reference to the diversity of talent employed upon it, the cheapest pape, in the Uni-

ted States. As the back numbers of the work are entirely exhausted, we have this day, Saturday, the 2 st of August, increased the edition of the Home of August, increased the current of NEW JOURNAL for the express accommodation of NEW SUBSCRIBERS, and we therefore respectfully request that all who intend taking the paper will com-mence their subscriptions with the present num-

ber.
Terms—Two Dollars a year, or three copies The Home Journal is sent by mail to all parts of the United States, the British Provinces and to Europe, done up in strong wrappers, with the utmost punctuality and despatch.
